Stewart, 2024-05-31 *Arming the World* tells the story of the American small arms industry from the early 1800s through the post-Civil War era. Almost from the beginning, the United States produced arms in new and radically different ways, relying upon machinery to mass-produce guns when others still made them by hand. Leveraging their technological advantage, American gun makers produced guns with interchangeable parts and perfected new types of small arms, ranging from revolvers to repeating rifles. The federal government's staggering purchases of arms during the Civil War stimulated the development of fast-firing breech-loading rifles and metal-cased ammunition. When in 1865 it became clear that every country in the world had to re-equip itself with modern weapons, the Americans had an overwhelming head start. Salesmen from Remington, Winchester, Colt, and Smith & Wesson, and from lesser

known firms too traveled the world marketing their guns dominating or perhaps even inventing the international arms business American gun makers sold rifles and side arms by the millions and cartridges by the billions to great powers restive colonies and fading empires alike Adding a new element to the unstable global balance of power American gun makers affected the course of history

With more than 200 images, almost all in full color, *A Legacy in Arms* not only documents the inspiration and innovation of arms makers from individual artisans to mass producers but also describes the development of decorative expression in the gun maker's art. In an account both entertaining and enlightening, Richard C. Rattenbury details the development of commercial arms making from the genesis of the Kentucky rifle to the arms of such iconic manufacturers as Colt, Remington, Smith & Wesson, Sharps, Marlin, and Winchester. Into this narrative he weaves the particulars of design evolution and the impact of mass production via the American System. The Spanish-American War and Philippine Insurrection Alejandro de Quesada, 2012-01-20 This book details the uniforms and weapons of the American, Spanish, Cuban, and Filipino forces involved in the United States Army's first overseas war. In 1898, the USA took the decision to intervene in the Cuban war of independence against Spain and to expel the last vestige of European colonial rule from the Americas. This also led to the US acquiring rule over the Philippine Islands, and there US troops were sent into the jungle to fight a colonial war of their own against Filipino insurgents unwilling to exchange one master for another.
