## **The Mind Climbing:**

Climbing Out The Struggle Of The Mind Elizabeth Montgomery, 2024-09-19 This book aims to restore hope when you feel trapped by life's challenges and situations that capture your mind leaving you stuck and overwhelmed unable to move forward and accomplish your goals It helps you realize that although you will face challenges and make mistakes encountering these life situations doesn't mean you can't succeed and overcome them Often your own mind can send misleading signals clouding your judgement and keeping you in a negative frame of mind that prevents you from pursuing your dreams and destiny The book argues that life's trials are not traps meant to keep you stuck Instead it discusses how to learn from everything you experience in life and move forward until you reach what God has in store for you However to complete your journey it's important to climb out of the wrong mindset and into the right one by changing the way you think Written to serve as a form of therapy and a spiritual healing for the mind this book assures you that even when you believe you can't escape your darkest moments there's a God there to guide you into the light and the future *The Zen of Climbing*

belief in spirituality or the divine or that such a thing even exists He was a flamboyant businessman until one day when he

heard a cassette from a sage which said the mind is like a child and youve got to control it He then realised that he is not one there is another one inside which has to be controlled As time flows the author realises that it is that other one who is controlling you who is a child or an insane child Being driven by such a child or a monster can only result in a disaster He gets into finding out how the mind can be controlled and he realises that you cant control it The more you try to the more it exists The mind can never be treated with the mind It only amounts to manipulation of it His only experience and realisation are that dropping of the mind should be a natural outcome not an effort Its explained here that being aware of the functions and properties of the mind and the modes in which it functions makes you then not act through the subjectivity of the mind Changing the action doesnt help Changing the state of mind can get you the desired success and then youll truly rock in life The author wanted the book to come out of him based on his own life experiences rather than writing anything based on some bookish knowledge Contrary to general belief success in the material world can only be a result of being spiritual Only then can you rock
