The Personality of Shakespeare Harold Grier MacCurdy, 1973 **The personality of Shakespeare** Harold G. MacCurdy, 1973 *The Personality of Shakespeare. A Venture in Psychological Method* Harold Grier MacCurdy, 1953 The Personality of Shakespeare Harold Grier MacCurdy, 1953 Shakespeare Survey Allardyce Nicoll, 1955-01-02 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback **Twentieth Century Literature in English** Ed. Manmohan K. Bhatnagar, 1996 The Present Anthology Of Critical Essays On Twentieth Century English Literature Seeks To Put Together The Body Of Writing Criticism Poetry Fiction Short Story In England America Australia Africa And India In The Present Age To Discover How Despite Its Seeming Divergence And Dissimilarities It Falls Into A Broad Pattern With Regard To The Choice Of Themes And Formal Strategies The Essays Included Are Theoretical Comparative And Exegetical Expounding Move Ments Like Modernism And Post Modernism Critical Perspectives Like The Scientifico Psychological Approach And Its Practical Application And Critiques Of T S Eliot Thomas Hardy E M Forster James Joyce Virginia Woolf Evelyn Waugh G B Shaw Harold Pinter Scott Fitzgerald John Steinbeck Wole Soyinka Manohar Malgonkar Nayantara Sahgal C J Koch And Frank Moorhouse The Anthology Reveals The Family Resemblance In Twentieth Century English Literature Irrespective Of Geographic And Cultural Barriers Reinforcing The View That In The Global Village That The World Has Become Literature In English All Over The World In The Modern Context Has Come To Assume The Form Of A Community Discourse Theory, Method, and Practice in Computer Content Analysis Mark D. West, 2001-04-30 In recent years computer content analysis has undergone something of a renaissance Inexpensive and powerful desktop computers mean that computer analysis of texts is available to most researchers The availability of software to do analyses however is not always linked to clear theoretical and methodological understandings This volume seeks to deal with this concern by providing from scholars in a variety of disciplines perspectives upon the theoretical and methodological issues which arise when conducting content analysis via computer Although it is not always obvious computer content analysis is a method which inevitably calls for theoretical assumptions Those theoretical assumptions in turn drive methodological considerations and method in turn determines the form of the practice of computer content analysis This volume includes ten articles by well known scholars utilizing computer content analysis A variety of methodological theoretical and practical issues are here addressed presenting unique methods and perspectives for the consideration of computer content analysis Intended for an audience of graduate students scholars and in field practitioners Theory Method and Practice of Computer Content Analysis will serve as an invaluable resource of ideas and practices for those interested in using computers to analyze textual material **Humanistic Psychology** Joseph Royce, 2012-12-06 THE FORMATIVE TENDENCY I have often pointed out that in my work with individuals in therapy and in my experience in encounter groups I have been led to the conviction that human nature is essentially constructive When in a therapeutic climate which can be objectively defined a

person becomes sharply aware of more of his or her internal experiencing and of the stimuli and demands from the external world thus acquiring a full range of options the person tends to move in the direction of becoming a socially constructive organism But many are critical of this point of view Why should such a positive direction be observed only in humans Isn't this just pure optimism So quite hesitantly because I have to draw on the work and thinking of others rather than on my own experience I should like to try to set this directional tendency in a much broader context I shall draw on my general reading in the field of science but I should like to mention a special indebtedness to the work of Lancelot Whyte in *The Universe of Experience* Harper and Row 1974 the last book he wrote before his death Though the book has flaws in my judgment this historian has some thought provoking themes to advance I have learned from many others as well

Fathers and Sons in Shakespeare Fred B. Tromly, 2010-05-01 Some of Shakespeare's most memorable male characters such as Hamlet Prince Hal and Edgar are defined by their relationships with their fathers In *Fathers and Sons in Shakespeare* Fred B. Tromly demonstrates that these relationships are far more complicated than most critics have assumed While Shakespearean sons often act as their fathers' steadfast defenders they simultaneously resist paternal encroachment on their autonomy tempering vigorous loyalty with subtle hostility Tromly's introductory chapters draw on both Freudian psychology and Elizabethan family history to frame the issue of filial ambivalence in Shakespeare The following analytical chapters mine the father-son relationships in plays that span Shakespeare's entire career The conclusion explores Shakespeare's relationship with his own father and its effect on his fictional depictions of life as a son Through careful scrutiny of word and deed the scholarship in *Fathers and Sons in Shakespeare* reveals the complex attitude Shakespeare's sons harbour towards their fathers

Historicising Heritage and Emotions Alicia Marchant, 2019-03-04 *Historicising Heritage and Emotions* examines how heritage is connected to and between people and places through emotion both in the past and today Discussion is focused on the overlapping categories of blood families and bloodlines stone monuments and memorials and land landscape and places imbued with memories with the contributing authors exploring the ways in which emotions invest heritage with affective power and the transformative effects of this power in individual community and cultural contexts The 13 chapters that make up the volume take examples from the premodern and modern eras and from two connected geographical regions the United Kingdom and Australia and the Pacific Each chapter seeks to identify historicise and contextualise the processes of heritage and the emotional regimes at play locating the processes within longer historical and transnational genealogies and critically appraising them as part of broader cultural currents Theoretically grounded in new approaches to the history of emotions and critical heritage studies the analysis challenges the traditional scholarly focus on heritage in its modern forms offering multifaceted premodern and modern case studies that demonstrate heritage and emotion to have complex and vibrant histories Offering transhistorical and multidisciplinary discussion around the ways in which we can talk about discuss categorise and theorise heritage and emotion in different historical contexts *Historicising*
