

Famous Philosophers

The Philosophers World

Trevor Curnow

The Philosophers World:

The 100 Most Influential Philosophers of All Time Britannica Educational Publishing, 2009-10-01 I think therefore I am influential Leading philosophers conduct a rational investigation of truth to arrive at a set of principles that others believe and adopt This compendium of the world's greatest thinkers includes the likes of Confucius Aristotle Immanuel Kant Hannah Arendt and René Descartes

The World's Great Philosophers Robert L. Arrington, 2008-04-15 The World's Great Philosophers provides an introduction to and overview of some of the most profound and influential thinkers in the history of philosophy Presents an introduction to and overview of some of the most profound and influential thinkers in the history of philosophy Contains 40 essays written by an outstanding international assembly of scholars Provides cogent and accessible discussion of key philosophers from around the world Conveys the historical panorama of philosophical thought on the nature of reality the human condition and basic human values

The Philosophers of the Ancient World Trevor Curnow, 2006-06-22 This fascinating book contains information on over 2 300 ancient Western philosophers from Abammon to Zoticus Covering the period from the seventh century BC to the seventh century AD it brings together the extremely well known and the thoroughly obscure Those already familiar with ancient philosophy will find it an invaluable and handy work of reference with a breadth of coverage that far exceeds any other single volume work on the subject Those new to the subject will find it a useful introduction The ideas of the major thinkers are summarised and an historical overview of ancient philosophy allows them to be placed in their proper context The book also provides useful background reading for anyone interested in the ancient world who wants to find out more about its intellectual life A minimum of philosophical jargon ensures its accessibility to a wide audience As in ancient histories of philosophy there is also a modest amount of gossip

The Philosophers Ben-Ami Scharfstein, 1989 This highly readable volume offers a broad introduction to modern philosophy and philosophers Scharfstein contends that personal experience especially that of childhood affects philosophers sense of reality and hence the content of their philosophies Basing his argument on biographical studies of twenty great philosophers from Descartes to Sartre he provides the beginnings of a psychological history of philosophy

The Philosophers Ted Honderich, 2001-03-15 What better introduction to the world of philosophy than through the lives of its most prominent citizens In *The Philosophers* we are introduced to twenty eight of the greatest thinkers in Western civilization ranging from Aristotle and Plato to Wittgenstein Heidegger and Sartre An illustrious team of scholars takes us on a concise and illuminating tour of some of the most brilliant minds and enduring ideas in history Here is Aristotle's *Nicomachean Ethics* Plato's cave of shadows Schopenhauer's vision of reality as blind striving Will Hegel's idea of the World Spirit Bentham's principle of the Greatest Happiness Mill's contributions to our understanding of liberty William James's theory of the stream of consciousness Husserl's phenomenology and much more Readers will find thoughtful discussions of everything from Kant's categorical imperative to the Christian philosophies of Augustine Aquinas and Kierkegaard to the materialism of Hobbes or

Marx to the modern and quite different philosophical systems of Bertrand Russell Jean Paul Sartre and Ludwig Wittgenstein Each article is illustrated with a portrait of the philosopher the contributors provide lists for further reading and the volume includes a chronological table that gives valuable historical context Here then is an authoritative and engaging guide to the ideas of the most notable philosophers ranging from antiquity to the present day The Philosophers shows how these great thinkers wrestled with the central problems of the human condition with important questions of free will morality and the limits of logic and reason as it illuminates their legacy for our time

The Philosopher's Song Kevin Crotty,2009-12-29 The Philosopher s Song is a full length treatment of Plato and the dynamic course of his philosophical thought regarded from a distinctly poetic point of view Kevin Crotty demonstrates how Plato s invention of philosophy needs to be situated within the context of a society where poets were cultural authorities whose teachings emphasized such tragic themes as the instability of things and the indeterminacy of moral terms The interest of Plato s philosophy lies to a great extent in the compelling interest of what he sought to repress the poetic and political heritage of a world tragically conceived Plato s attacks on the poets are notorious Despite his apparently frank hostility however his relation to the poets was exceedingly complex argues Crotty Even the banishment of the poets in the Republic turns out to be more deeply a recruitment of mimetic poetry for Plato s metaphysics Once endowed with a metaphysical significance however the poets posed a serious challenge to Platonic idealism and spurred Plato to revise considerably his metaphysical scheme Crotty ultimately concludes that the views of politics and ethics in Plato s later works return in many ways to the insights of the poets

The Philosopher's Plant Michael Marder,2014-11-11 Despite their conceptual allergy to vegetal life philosophers have used germination growth blossoming fruition reproduction and decay as illustrations of abstract concepts mentioned plants in passing as the natural backdrops for dialogues letters and other compositions spun elaborate allegories out of flowers trees and even grass and recommended appropriate medicinal dietary and aesthetic approaches to select species of plants In this book Michael Marder illuminates the vegetal centerpieces and hidden kernels that have powered theoretical discourse for centuries Choosing twelve botanical specimens that correspond to twelve significant philosophers he recasts the development of philosophy through the evolution of human and plant relations A philosophical history for the postmetaphysical age The Philosopher s Plant reclaims the organic heritage of human thought With the help of vegetal images examples and metaphors the book clears a path through philosophy s tangled roots and dense undergrowth opening up the discipline to all readers

More worlds than one, the creed of the philosopher and the hope of the... Sir David Brewster,1854 **The Philosophers' Secret Fire** Patrick Harpur,2007 Is there any place for the ancient myths of our ancestors in modern times Could their shadowy presence in our common imagination be more influential than we realise Across the globe many societies still believe in an Otherworld of spirits gods and daimons which the West has banished to the unconscious mind and now only visits in dreams Yet this visionary tradition continues to subvert the rational universe

erupting out of the shadows in times of intense religious and philosophical transition In his dazzling history of the imagination Patrick Harpur links together fields as far apart as Greek philosophy and depth psychology Renaissance magic and tribal ritual Romantic poetry and the ecstasy of the shaman to trace how myths have been used to make sense of the world He uncovers that tradition which alchemists imagined as a Golden Chain of initiates who passed their mysterious secret fire down through the ages As this inspiring book shows the secret of this perennial wisdom is of an imaginative insight a simple way of seeing that re enchants our existence and restores us to our own true selves *The World's Greatest Books (Vol. 1-18)* Various,2023-11-12 The World s Greatest Books Vol 1 18 is an expansive anthology that brings together a carefully curated selection of literary masterpieces from diverse cultures and time periods Spanning various genres including fiction poetry and philosophy these volumes encapsulate the essence of human thought and creativity The anthology adopts a scholarly yet accessible style characterized by insightful introductions and contextual notes that enhance the reader s understanding of each work s historical and cultural significance In delivering this collection the editors invite readers to engage with texts that have shaped intellectual discourse and inspired generations The contributors to this anthology include notable literary scholars and anthologists whose extensive backgrounds in literary criticism and history inform their selections Their deep passion for literature underscores their commitment to showcasing the most influential authors and works from ancient to contemporary times This careful curation reflects a desire to provide readers with lasting insights into the human experience demonstrating how these literary contributions resonate across various contexts I wholeheartedly recommend The World s Greatest Books Vol 1 18 to readers and scholars alike for it is not merely a collection it is a gateway to discovering the profound intricacies of human thought and creativity This anthology serves both as a valuable reference for academic study and a rich source for casual reading making it an essential addition to any literary library 100

Philosophers Peter J. King,2013-04-05 What is the nature of good and evil What is the meaning of existence and who are we really For thousands of years philosophers have struggled with questions such as these weighing every thought against virtually every rational alternative Here presented for non academic readers is an easy to understand survey of ideas put forth by 100 important philosophers from the pre Socratics of ancient Greece to the analytic philosophers of the present day Each thinker is summarized in a single illustrated page or in many instances in an illustrated two page spread Each entry includes the philosopher s birth and death dates titles of major works major influences a capsule biographical sketch and a brief summary of his or her most important ideas The glossary will help readers quickly navigate and organize their learning In addition to philosophers in our own Western tradition readers will find Chinese sages including Confucius and Lao tzu the Indian Buddhist philosopher Ngrjuna and thinkers representing other cultures **Ahmed the Philosopher** Alain Badiou,2014-04-29 English speaking readers might be surprised to learn that Alain Badiou writes fiction and plays along with his philosophical works and that they are just as important to understanding his larger intellectual project In Ahmed the

Philosopher Badiou's most entertaining and accessible play translated into English here for the first time readers are introduced to Badiou's philosophy through a theatrical tour de force that has met with much success in France. Ahmed the Philosopher presents its comic hero the treacherous servant Ahmed as a seductively trenchant philosopher even as it casts philosophy itself as a comic performance. The comedy unfolds as a series of lessons with each short play or sketch illuminating a different Badiouian concept. Yet Ahmed does more than illustrate philosophical abstractions; he embodies and vivifies the theatrical and performative aspects of philosophy, mobilizing a comic energy that exposes the emptiness and pomp of the world. Through his example, the audience is moved to a living engagement with philosophy, discovering in it the power to break through the limits of everyday life.

God and the Philosophers Keith Ward, This timely new book from renowned theologian and philosopher Keith Ward tells us what Western philosophy's greatest thinkers from Plato and Aquinas to Kant and Hegel thought about questions such as the existence of God, the nature of reality and humanity, meaning, value and purpose. Far from being the enemy of religion, philosophy has more often than not supported a non-materialist view of the universe, argues Ward. This book will be seen as both a brilliant armchair philosopher's primer on the history of religious thought.

The World through Soccer Tamir Bar-On, 2014-05-07 The world's most popular sport, soccer, is a global and cultural phenomenon. The television audience for the 2010 World Cup included nearly half of the world's population with viewers in nearly every country. As a reflection of soccer's significance, the sport impacts countless aspects of the world's culture, from politics and religion to business and the arts. In *The World through Soccer: The Cultural Impact of a Global Sport*, Tamir Bar-On utilizes soccer to provide insights into worldwide politics, religion, ethics, marketing, business, leadership, philosophy, and the arts. Bar-On examines the ways in which soccer influences and reflects these aspects of society and vice versa. Each chapter features representative players providing specific examples of how soccer comments on and informs our lives. These players, selected from a wide array of eras, countries, and backgrounds, include Diego Maradona, Pel, Hugo Sánchez, Cha Bum-Kun, Roger Milla, Jos Luis Chilavert, Zinedine Zidane, Paolo Maldini, Cristiano Ronaldo, Xavi, Neymar, Clint Dempsey, Mia Hamm, and many others. Employing a unique lens to view a variety of topics, *The World through Soccer* reveals the sport's profound cultural impact. Combining philosophical, popular, and academic insights about our world, this book is aimed at both soccer fans and academics, offering readers a new perspective into a sport that affects millions.

Curing the Philosopher's Disease Richard H. Jones, 2009 *Curing the Philosopher's Disease* is a philosophical examination of the mysteries surrounding the foundations of science, philosophy, and religion. Much of Western philosophy and science is discussed in order to see our epistemological and metaphysical situation. The love-hate relation philosophers have with mystery is explored, as are the contributions of reductionists and antireductionists, postmodern relativists and critical realists, naturalists, and the religious and theologians and mystics. The thrust of the arguments affirms that there are limits to what philosophy, science, religion, and mystical experiences can tell us about reality. By acknowledging that some questions may be

unanswerable and understanding the importance of that fact even as the answers remain ambiguous our true situation in the world is revealed Mystery should be reinstated as a basic feature when we reflect upon the nature of what we know and who we are Mystery frames all of our claims to fundamental knowledge and we must accept that it will remain a permanent fixture Thus the importance of mystery needs to be reaffirmed today during an era when the fullness of reality is often ignored Book jacket

The Classic Jewish Philosophers Eliezer Schweid,2007-10-01 This book provides a standard reference of the major medieval Jewish philosophers as well as an eminently readable narrative of the course of medieval Jewish philosophical thought presented as a response to the spiritual intellectual challenges facing Judaism in that period The accounts of Saadia Bahya Halevi Maimonides and Crescas are among the fullest available in English Other thinkers discussed in depth include Israeli Ibn Gabirol Gersonides and Albo the work also includes capsule summaries of Bar Hiyya Falaquera Albalag Duran Abravanel and others All of the summaries place the philosophical thought of these important thinkers in the context of the historical challenges and religious concerns of their age

The World's Progress George Palmer Putnam,1851

The medieval Islamic controversy between philosophy and orthodoxy Bello,2022-07-11

The World's Most Mysterious Objects Patricia Fanthorpe,2002-10-01 Objects can carry romantic myths embody dangerous curses or provide links to our past Some mysterious items like the Hope Diamond can still be found today while others like the Philosophers Stone have vanished into the mists of time Gifted and sensitive psychometrists can apparently pick up an object and learn many things about its past and its previous owners The World s Most Mysterious Objects provides a glimpse into these enigmas exploring everything from psychic weapons and spiritual icons to alchemical experiments and strange devices With this intriguing book find out what secrets the world could be hiding

The Importance of Time L.N. Oaklander,2013-03-09 The Philosophy of Time Society grew out of a National Endowment for the Humanities Summer Seminar on the Philosophy of Time offered by George Schlesinger in 1991 The members of that seminar wanted to promote interest in the philosophy of time and Jon N Turgerson offered to become the first Director of the society with the initial costs underwritten by the Drake University Center for the Humanities Thus the Philosophy of Time Society PTS was formed in 1993 Its goal is to promote the study of the philosophy of time from a broad analytic perspective and to provide a forum as an affiliated group with the American Philosophical Association to discuss the issues in and related to the philosophy of time The society held its first meeting during the Eastern Division of the AP A in Atlanta George in December 1993 In 1997 I began my tenure as Executive Director of PTS and with my term ending in 2000 I decided to put together a volume of selected papers read at PTS meetings over the years The result is the present volume It contains some of the latest developments in the field including discussions of recent books by Michael Tooley Time Tense and Causation and D H Mellor Real Time II and much more The main issue in the philosophy of time is and remains the status of temporal becoming and the passage of time
