The Politics Of The Powerless A Study Of The Campaign Against Racial Discrimination:

The Politics of the Powerless Benjamin W. Heineman (jr.),1972 The Politics of Race Ivor Crewe,2015-10-16 This volume first published in 1975 is concerned with the politics of race relations it is divided into theoretical empirical and methodological studies together with an extensive bibliography A key theme in this volume is to show how the study of race relations can advance beyond traditional micro level analysis In the opening paper Axford and Brier concerned about the neglect of macro level analysis stress the need for conceptual frameworks which would help us to understand the place of racial conflict in the British political system They suggest that elite political groups otherwise in conflict have by tacit consensus eliminated race from the national political agenda **The Politics of Expertise** Matthew Hilton,Jean-François Mouhot,2013-04-25 Offers a challenging new interpretation of politics in contemporary Britain through an examination of non governmental organisations Demonstrate how politics and political activism has changed over the last half century

Race and Ethnicity: Debates and controversies Harry Goulbourne,2001 **Making Anti-Racial Discrimination Law** Iyiola Solanke,2012-08-21 Making Anti Racial Discrimination Law examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas **The Unfinished Politics of Race** Les Back,Michael Keith,Kalbir Shukra,John Solomos,2022-12 A novel history of the politics of race in British society over the past few decades that draws on original research at local and national levels **Race and Social Work** V Coombe,2005-08-17 A comprehensive training guide for social workers involved in training students that provides invaluable resource material in this important area Race and riots in Thatcher's Britain Simon Peplow,2019-02-05 This powerful and original book locates the anti police violence that spread across England in 1980 1 within a longer struggle against racism and disadvantage faced by black Britons which had seen a growth in more militant forms of resistance since the Second World

War It explains these disturbances as collective bargaining by riot attempts to increase political inclusion by this marginalised group Through case studies of Bristol Brixton and Manchester the book explores the actions of community organisations in the aftermath of disorders Highlighting the political activities of black Britons and the often problematic reliance upon official sources when forming historical narratives it demonstrates the contested value awarded to public inquiries contrastingly viewed by black Britons as either a method for increased political participation or simply a governmental diversionary tactic

Writing imperial histories Andrew S. Thompson, 2016-05-16 This book appraises the critical contribution of the Studies in Imperialism series to the writing of imperial histories as the series passes its 100th publication The volume brings together some of the most distinguished scholars writing today to explore the major intellectual trends in Imperial history with a particular focus on the cultural readings of empire that have flourished over the last generation When the Studies in Imperialism series was founded the discipline of Imperial history was at what was probably its lowest ebb A quarter of a century on there has been a tremendous broadening of the scope of what the study of empire encompasses Essays in the volume consider ways in which the series and the wider historiography have sought to reconnect British and imperial histories to lay bare the cultural expressions and registers of colonial power and to explore the variety of experiences the home population derived from the empire

East Wind Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People's Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left's relationship with China has been unjustly overlooked There were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China's emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China's economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century
