The Politics Of Urban Redevelopment:

Restructuring the City Susan S. Fainstein, 1983 The Politics of Urban Development Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference The Politics of Urban Redevelopment in Boston, Chicago, San Francisco, and Denver Mary Katherine Ludgin, 1988 *Cityscapes and Capital* Michael A. Pagano, Ann O'M. Bowman, 1997-09-05 The authors draw on comparative data from 10 medium sized cities and examine 40 city supported development projects to show how city investment in and regulation of development projects is the most effective way for political leaders to control and shape the future of their city 19 illustrations *The Politics of Urban Redevelopment in Boston, Chicago, San Francisco and Denver* Mary Katherine Ludgin, 1991 *Urban Renewal: People, Politics, and Planning* Jewel Bellush, Murray Hausknecht, 1967 Composite work on sociological aspects of urbanization in the USA covers social policy politics processes and administrative aspects thereof the role of interest groups and social participation in respect of the eradication of poverty and in respect of housing programmes etc and includes historical and legal aspects References **Mega-Projects** Alan A. Altshuler, David E. Luberoft, 2004-05-13 A Brookings Institution Press and Lincoln Institute of Land Policy publication Since the demise of urban renewal in the early 1970s the politics of large scale public investment in and around major American cities has received little scholarly attention In Mega Projects Alan Altshuler and David Luberoft analyze the unprecedented wave of large scale mega public investments that occurred in American cities during the 1950s and 1960s the social upheavals they triggered which derailed large numbers of projects during the late 1960s and early 1970s and the political impulses that have shaped a new generation of urban mega projects in the decades since They also appraise the most important consequences of policy shifts over this half century and draw out common themes from the rich variety of programmatic and project developments that they chronicle The authors integrate narratives of national as well as state and local policymaking and of mobilization by mainly local project advocates

with a profound examination of how well leading theories of urban politics explain the observed realities The specific cases they analyze include a wide mix of transportation and downtown revitalization projects drawn from numerous regions most notably Boston Denver Los Angeles New York City Chicago Atlanta Dallas Portland and Seattle While their original research focuses on highway airport and rail transit programs and projects they draw as well on the work of others to analyze the politics of public investment in urban renewal downtown retailing convention centers and professional sports facilities In comparing their findings with leading theories of urban and American politics Altshuler and Luberoff arrive at some surprising findings about which perform best and also reveal some important gaps in the literature as a whole In a concluding chapter they examine the potential effects of new fiscal pressures business mobilization to relax environmental constraints and security concerns in the wake of September 11 And they make clear their own views about how best to achieve a balance between developmental environmental and democratic values in public investment decisionmaking

Integrating fifty years of urban development history with leading theories of urban and American politics **Mega Projects** provides significant new insights into urban and intergovernmental politics **Unequal Partnerships** Gregory D. Squires, 1989 This book explores the dynamics of urban development in American cities since World War II Gregory D Squires and other contributors examine what has long been a highly inequitable and destructive process of urban development They look at the political and economic assumptions and interests shaping redevelopment the social and economic costs of development for the vast majority of urban residents and emerging alternative approaches **The Politics of Urban Cultural Policy** Carl Grodach, Daniel Silver, 2012-12-12 The Politics of Urban Cultural Policy brings together a range of international experts to critically analyze the ways that governmental actors and non governmental entities attempt to influence the production and implementation of urban policies directed at the arts culture and creative activity Presenting a global set of case studies that span five continents and 22 cities the essays in this book advance our understanding of how the dynamic interplay between economic and political context institutional arrangements and social networks affect urban cultural policy making and the ways that these policies impact urban development and influence urban governance The volume comparatively studies urban cultural policy making in a diverse set of contexts analyzes the positive and negative outcomes of policy for different constituencies and identifies the most effective policy directions emerging political challenges and most promising opportunities for building effective cultural policy coalitions The volume provides a comprehensive and in depth engagement with the political process of urban cultural policy and urban development studies around the world It will be of interest to students and researchers interested in urban planning urban studies and cultural studies **The Politics of Planning for Urban Redevelopment** Sheldon Jay Plager, Joel F. Handler,
