The Pope And The Queen Correspondence Between Lor:

The Letters of Queen Victoria, a Selection from Her Majesty's Correspondence between the years 1837 and 1861 : V. II : 1844-1853 = Письма королевы Виктории, выдержки из переписки Ее Величества между 1837 и 1861 годами : Т. II : 1844-1853 Queen Victoria, 2021-07-09 **The Letters of Queen Victoria** Victoria (Queen of Great Britain), 1907 The Letters of Queen Victoria: A Selection From Her Majesty's Correspondence Between the Years 1837 and 1861 (Complete) Queen of Great Britain Victoria, Entrusted by His Majesty the King with the duty of making a selection from Queen Victoria's correspondence we think it well to describe briefly the nature of the documents which we have been privileged to examine as well as to indicate the principles which have guided us throughout It has been a task of no ordinary difficulty Her Majesty Queen Victoria dealt with her papers from the first in a most methodical manner she formed the habit in early days of preserving her private letters and after her accession to the Throne all her official papers were similarly treated and bound in volumes The Prince Consort instituted an elaborate system of classification annotating and even indexing many of the documents with his own hand The result is that the collected papers form what is probably the most extraordinary series of State documents in the world The papers which deal with the Queen's life up to the year 1861 have been bound in chronological order and comprise between five and six hundred volumes They consist in great part of letters from Ministers detailing the proceedings of Parliament and of various political memoranda dealing with home foreign and colonial policy among these are a few drafts of Her Majesty's replies There are volumes concerned with the affairs of almost every European country with the history of India the British Army the Civil List the Royal Estates and all the complicated machinery of the Monarchy and the Constitution There are letters from monarchs and royal personages and there is further a whole series of volumes dealing with matters in which the Prince Consort took a special interest Some of them are arranged chronologically some by subjects Among the most interesting volumes are those containing the letters written by Her Majesty to her uncle Leopold King of the Belgians and his replies 1 The collection of letters from and to Lord Melbourne forms another hardly less interesting series In many places Queen Victoria caused extracts copied from her own private Diaries dealing with important political events or describing momentous interviews to be inserted in the volumes with the evident intention of illustrating and completing the record His Majesty the King having decided that no attempt should be made to publish these papers in extenso it was necessary to determine upon some definite principle of selection It became clear that the only satisfactory plan was to publish specimens of such documents as would serve to bring out the development of the Queen's character and disposition and to give typical instances of her methods in dealing with political and social matters to produce in fact a book for British citizens and British subjects rather than a book for students of political history That the inner working of the unwritten constitution of the country that some of the unrealised checks and balances that the delicate equipoise of the component parts of our executive machinery should stand revealed was inevitable

We have thought it best throughout to abstain from unnecessary comment and illustration The period is so recent and has been so often traversed by historians and biographers that it appeared to us a waste of valuable space to attempt to reconstruct the history of the years from which this correspondence has been selected especially as Sir Theodore Martin under the auspices of the Queen herself has dealt so minutely and exhaustively with the relations of the Queen s innermost circle to the political and social life of the time It is tempting of course to add illustrative anecdotes from the abundant Biographies and Memoirs of the period but our aim has been to infringe as little as possible upon the space available for the documents themselves and to provide just sufficient comment to enable an ordinary reader without special knowledge of the period to follow the course of events and to realise the circumstances under which the Queen s childhood was passed the position of affairs at the time of her accession and the personalities of those who had influenced her in early years or by whom she was surrounded The development of the Queen s character is clearly indicated in the papers and it possesses an extraordinary interest We see one of highly vigorous and active temperament of strong affections and with a deep sense of responsibility placed at an early age and after a quiet girlhood in a position the greatness of which it is impossible to exaggerate We see her character expand and deepen schooled by mighty experience into patience and sagacity and wisdom and yet never losing a particle of the strength the decision and the devotion with which she had been originally endowed Up to the year 1861 the Queen s career was one of unexampled prosperity She was happy in her temperament in her health in her education in her wedded life in her children She saw a great Empire grow through troubled times in liberty and power and greatness yet this prosperity brought with it no shadow of complacency because the Queen felt with an increasing depth the anxieties and responsibilities inseparable from her great position Her happiness instead of making her self absorbed only quickened her beneficence and her womanly desire that her subjects should be enabled to enjoy a similar happiness based upon the same simple virtues Nothing comes out more strongly in these documents than the laborious patience with which the Queen kept herself informed of the minutest details of political and social movements both in her own and other countries
