The Practice Of Empire:

Charlemagne's Practice of Empire Jennifer R. Davis, 2015-08-20 A new interpretation of Charlemagne examining how the Frankish king and his men learned to govern the first European empire [The Practice of Hope](#) Néstor Oscar Míguez, 2012-06 In Not Like Those Who Have No Hope Nestor O Miguez brings the insights of historical critical study and political analysis together with incisive theological reflection Taking on European philosophical interpretations of Paul the North Atlantic consensus regarding social stratification in the Pauline churches and the distortions of rapture theology Miguez situates Paul's mission in the political context of Roman Thessalonica and reads his first letter in engagement with Latin American realities The result is a surprising rediscovery of Paul as an organic intellectual for whom hope is always a socially concrete reality *Imperial Secrets: Remapping the Mind of Empire* Patrick A. Kelley, 2011-09-16 Major Kelley chooses three empires with which to compare our current intelligence circumstances Each of these faced challenges in understanding peoples Rome in the first and second centuries AD the Ottomans in the 16th to 18th and Britain in India in the 18th to early 20th Kelley feels these warrant study in light of our need to deal with peoples whom we may seek to influence The author also asks If power shapes knowledge does knowledge also shape power This is a delightful exercise in erudition in which key postmodern insights and reasoning are used to gain political understanding Full of surprises and insights Kelley takes his readers through an enchanted forest peopled by Foucault T E Lawrence J S Bach Borges Idries Shah Hobsbawm Jung Baudrillard and many more One hopes our educated certified and degreed military and intelligence leadership can penetrate a work this rich deep and ultimately useful Originally published in color by the NDIC Press **The ^AOxford Handbook of Public Heritage Theory and Practice** Angela M. Imlay, 2018 How did the early twentieth century socialist parties of Britain France and Germany cooperate with each other to create a united vision on international issues Talbot Imlay offers a new perspective on how European socialists practised internationalism addressing issues such as post war reconstruction European integration and decolonization *The Practice of Diplomacy* Keith Hamilton, Richard Langhorne, 2011 Practice of Diplomacy has become established as a classic text in the study of diplomacy This much needed second edition is completely reworked and updated throughout and builds on the strengths of the original text with a strong empirical and historical focus Topics new and updated for this edition include discussion of Ancient and non European diplomacy including a more thorough treatment of pre Hellenic and Muslim diplomacy and the diplomatic methods prevalent in the inter state system of the Indian sub

between Ideas and Practice, 1600-2000 René Koekkoek, Anne-Isabelle Richard, Arthur Weststeijn, 2019-11-18 This volume explores the intellectual history of the Dutch Empire from a long term and global perspective analysing how ideas and visions of empire took shape in imperial practice from the seventeenth century to the present day Through a series of case studies the volume critically unearths deep rooted conceptions of Dutch imperial exceptionalism and shows how visions of imperial rule were developed in metropolitan and colonial contexts and practices Topics include the founding of the Dutch chartered companies for colonial trade the development of commercial and global visions of empire in Europe and Asia the continuities and ruptures in imperial ideas and practices around 1800 and the practical making of empire in colonial court rooms and radio broadcasting Demonstrating the relevance of a long term approach to the Dutch Empire the volume showcases how the intellectual history of empire can provide fresh light on postcolonial repercussions of empire and imperial rule Chapter 1 Chapter 3 Chapter 7 and Chapter 8 of this book are available open access under a CC BY 4.0 license at link.springer.com

The Practice of Teaching Chris Easthope, Rupert Maclean, Gary Easthope, 2017-05-08 This title first published in 1990 examines the work of teachers in the classroom and the school from a sociological perspective It will be important reading for teacher education students who have little or no background in sociology providing them with information understanding and techniques which will enable them to operate as competent teachers in the classroom *The Practice of Rhetoric* Debra Hawhee, Vessela Valiavitcharska, 2022-10-18 Rhetoric broadly conceived as the art of making things matter is both a practice and theory about that practice In recent decades scholars of rhetoric have turned to approaches that braid together poetics performance and philosophy into a practical art By practical art they mean methods tested in practice by trial and error with a goal of offering something useful and teachable This volume presents just such an account of rhetoric The account here does not turn away from theory but rather presumes and incorporates theoretical approaches offering a collection of principles assembled in the heat and trials of public practice The approaches ventured in this volume are inspired by the capacious conception of rhetoric put forth by historian of rhetoric Jeffrey Walker who is perhaps best known for stressing rhetoric's educational mission and its contributions to civic life The Practice of Rhetoric is organized into three sections designed to spotlight in turn the importance of poetics performance and philosophy in rhetorical practice The volume begins with poetics stressing the world making properties of that word in contexts ranging from mouse infested medieval fields to

the threat of toxin ridden streams in the mid twentieth century Susan C Jarratt for instance probes the art of ekphrasis or vivid description and its capacity for rendering alternative futures Michele Kennerly explores a little studied linguistic predecessor to prose logos psilos or naked speech exposing the early rumblings of a separation between poetic and rhetorical texts even as it historicizes the idea of clothed or ornamented speech In an essay on the almost magical properties of writing Debra Hawhee considers the curious practice of people writing letters to animals in order to banish or punish them thereby casting the epistolary arts in a new light Part 2 moves to performance Vessela Valiavitcharska examines the intertwining of poetic rhythm and performance in Byzantine rhetorical education and how such practices underlie the very foundations of oratory Dale Martin Smith draws on the ancient stylistic theory of Dionysius of Halicarnassus along with the activist work of contemporary poets Amiri Baraka and Harmony Holiday to show how performance and persuasion unify rhetoric and poetics Most treatments of philosophy and rhetoric begin within a philosophical framework and remain there focusing on old tools like stasis and disputation Essays in part 3 break out of that mold by focusing on the utility and teachability of rhetorical principles in education Jeanne Fahnestock and Marie Secor update stasis a classical framework that encourages aspiring rhetors to ask after the nature of things their facts and their qualities as a way of locating an argument s position Mark Garrett Longaker probes the medieval practice of disputation in order to marshal a new argument about why exactly John Locke detested rhetoric and the longstanding opposition between science and rhetoric as modes of proof that has lasting implications for the way argument works today Ranging across centuries and contexts the essays collected here demonstrate the continued need to attend carefully to the co operation of descriptive language and normative reality conceptual vocabulary and material practice public speech and moral self shaping The volume promises to rekindle long standing conversations about the public world making practice of rhetoric thereby enlivening anew its civic mission

The Practice of Global History Matthias Middell, 2019-08-22 Over recent decades almost every area of historical study has seen its global turn from consumption to finance from politics to migration from social order to cultural patterns This volume reflects the vibrant state of global history scholarship in Europe and examines to what extent global history is practiced and conceptualised distinctively within Europe Drawing together contributions from scholars from France Germany Hungary the Netherlands Switzerland and the UK the book offers a sweeping overview of the state of the field In particular the contributors look at histories of colonialism and imperial expansion knowledge circulation and mobility across borders This book reflects the diversity of current scholarship on global and transnational history and will offer important insights for anyone interested in understanding the cutting edge of research in this area
