Jovanovic, Alberto De Leiva, Oded Langer, 2018-04-17 Babies of women with diabetes are nearly five times more likely to be stillborn and almost three times more likely to die in the first three months The incidence of gestational diabetes mellitus in the U S is high between 3 and 7 percent and rising The condition is often complicated by other risk factors such as obesity and heart disease The Textbook of Diabetes and Pregnancy presents a comprehensive review of the science clinical management and medical implications of gestational diabetes mellitus a condition with serious consequences that is on the increase in all developed societies This new edition supports the latest initiatives and strategies of the International Federation of Gynecology and Obstetrics FIGO and adds chapters on noncommunicable diseases obesity bariatric surgery and epidemiology outside Western cultures Written by a cadre of experts the book provides a comprehensive authoritative and international view of gestational diabetes mellitus and will be invaluable to maternal fetal medicine specialists diabetologists neonatologists and a growing number of gynecologists and general physicians concerned with the management of noncommunicable diseases in pregnancy Fetal Physiology and Medicine Richard W. Beard, Peter W. Nathanielsz, 2013-10-22 *Fetal Physiology and Medicine The Basis of Perinatology* Second Revised Edition documents many of the major advances in fetal medicine including developmental physiology pathology and therapy This book covers the most important areas of maternofetal medicine and presents different views of the critical problems of development The various components of fetal metabolism are highlighted to demonstrate how animal experimentation has given a clear view of the interrelationship of the mother placenta and fetus This text is comprised of 24 chapters the first of which describes the use of ultrasound in antenatal diagnosis of congenital structural anomalies This topic is followed by a discussion on sexual differentiation acquired immunity and endocrine changes as well as the physiology of breathing the control of the fetal cardiovascular system lung maturation fetal infections and the effects of hypoxia on the fetal brain This book also provides comprehensive reviews of fetal regulatory mechanisms such as the reninangiotensin system water metabolism and fetal and placental hormone production Other chapters focus on clinical applications such as antenatal fetal heart rate monitoring the technical aspects of fetal and uterine pressure measurements fetal acid base balance and the prevention of preterm delivery A section that explores the transition from intrauterine to extrauterine life concludes this book This source is of great

potential value to all students and practitioners of reproductive medicine

Carbohydrate Metabolism in Pregnancy and the Newborn • IV Hamish W. Sutherland, John M. Stowers, Donald W.M. Pearson, 2012-12-06 Traditions are dangerous doubly so in science Traditions are unchanging science is about change This was the 4th International Colloquium on Carbohydrate Metabolism in Pregnancy and the Newborn to be held in Aberdeen and by now the form is set How much its content has changed is a matter of nice judgement and not under the control of the organizers It is not within their power to bring news of revolution if there has been no revolution Certainly many of the speakers had kent faces from previous Aberdeen meetings but so they would be at any meeting on diabetes anywhere in the world The written proceedings of scientific conferences have purposes other than to record changes sometimes they need to state a consensus The 3rd Colloquium came to an agreement about the importance of prepregnancy recognition and control of abnormalities of carbohydrate metabolism The 4th set out to examine what results it had achieved Much of this book is taken up with follow up studies of the applications of similar regimes in different parts of the world Since the first Aberdeen meeting in 1973 progress in the manage ment of diabetic pregnancy has been slow and steady but the change in the city and the society where the meetings took place has been fast
