The Private Roots Of Public Action Gender Equality And Political Participation:

The Private Roots of Public Action Nancy Burns, Kay Lehman Schlozman, Sidney Verba, 2009-07-01 Why after several generations of suffrage and a revival of the women's movement in the late 1960s do women continue to be less politically active than men The Private Roots of Public Action is the most comprehensive study of this puzzle of unequal participation

The Private Roots of Public Action Nancy Burns, Kay Lehman Schlozman, Sidney Verba, 2001 Why after several generations of suffrage and a revival of the women's movement in the late 1960s do women continue to be less politically active than men Why are they less likely to seek public office or join political organizations The Private Roots of Public Action is the most comprehensive study of this puzzle of unequal participation The authors develop new methods to trace gender differences in political activity to the nonpolitical institutions of everyday life the family school workplace nonpolitical voluntary association and church Different experiences with these institutions produce differences in the resources skills and political orientations that facilitate participation with a cumulative advantage for men In addition part of the solution to the puzzle of unequal participation lies in politics itself where women hold visible public office women citizens are more politically interested and active The model that explains gender differences in participation is sufficiently general to apply to participatory disparities among other groups among the young the middle aged and the elderly or among Latinos African Americans and Anglo Whites Table of Contents Acknowledgments 1 Introduction Citizenship and Unequal Participation 2 Studying Gender and Participation A Brief Discourse on Method 3 Civic Activity Political and Non Political 4 The Political Worlds of Men and Women 5 The Legacy of Home and School 6 Domestic Tranquility The Beliefs of Wives and Husbands 7 Domestic Hierarchy The Household as a Social System 8 The Workplace Roots of Political Activity 9 The Realm of Voluntarism Non Political Associations and Religious Institutions 10 Gender Institutions and Political Participation 11 Gender Race or Ethnicity and Participation 12 Family Life and Political Life 13 What If Politics Weren't a Man's Game 14 Conclusion The Private Roots of Public Action Appendixes A Numbers of Cases B Ranges of Variables C Supplementary Tables D Explanation of Outcomes Analysis Index Reviews of this book The Private Roots of Public Action begins with common explanations for the gender difference in participation from domestic demands on women's time and psychic space through the effects of the patriarchal family socioeconomic hierarchies and political socialization The results of this novel analysis are complex and interesting The authors extend their model to examine the relationship between class race or ethnicity and political participation This unique and accessible volume will be influential in the fields of political socialization and gender and politics Strongly recommended B E Marston Choice The Private Roots of Public Action is the most comprehensive examination of the similarities and differences in the political activity of women and men The range of inquiry is enormous Burns Schlozman and Verba delve not only into political activity but also into the processes in the family in the workplace in places of worship and in voluntary associations that promote and inhibit political involvement This book goes beyond the

literature in connecting to an enormous range of scholarship in political science economics and sociology This is a fine piece of work John Mark Hansen University of Chicago The Private Roots of Public Action is a very important book It pushes research on gender and participation to a whole new level and reshapes the agenda as far as our thinking and our research about the connections among family life the workplace institutions of civil society and political and governmental institutions The authors demonstrate the importance of understanding political participation within a larger context in a way that does justice to the complexity of people s lives Kristi Anderson Syracuse University The Private Roots of Public Action is an important contribution to the literature on both political participation and gender politics Because of its database its tie in to the most current work on political participation and its comprehension of important current questions about gender politics this book provides a new benchmark for work in this field In particular the Civic Voluntarism model developed by Verba Scholzman and Brady and the consideration of how gender difference and inequality might feed into that model is a unique contribution This accessible book will be welcomed by gender politics scholars and will have an impact on the field of political participation Virginia Sapiro University of Wisconsin Madison

Mothers in Public and Political Life Simone Bohn, 2017-08-01 Even though in most nations women are at least almost half of the population in very few countries do they occupy a similar space in the formal institutions of political power They are said to lack a key element for a successful career in public life time From this perspective no one is worse off than women who are mothers From another perspective however motherhood is thought to help politicize women as this life changing experience makes them aware of the limitations of some specific public policies such as child care parental leave gendered labor practices etc as well as more conscious of the centrality of more encompassing public policies such as education health care and social assistance This book explores the challenges obstacles opportunities and experiences of mothers who take part in political and or public life

Who Donates in Campaigns? David B. Magleby, Jay Goodliffe, Joseph A. Olsen, 2018-10-25 While much is known about who votes in American elections much less is known about who donates In this book the authors utilize a unique and historically unprecedented data set of donors from the 2008 and 2012 presidential elections to answer longstanding questions what is the relationship between donors and candidates How do candidates attract and respond to contributors

How do campaign strategies reflect changing campaign finance laws and the development of the internet With unprecedented cooperation from the Obama McCain and Romney campaigns the authors investigate presidential campaign donors at all giving levels to produce the most systematic and complete analysis of donors to presidential nominees to date As elections are decided increasingly by donors dollars Who Donates to Campaigns provides relevant research on the broader trends in partisan polarization and more generally on how campaigns can engage more citizens in political participation

Youth and Politics in Times of Increasing Inequalities Marco Giugni, Maria Grasso, 2021-07-22 Young people are very often the driving forces of political participation that aims to change societies and political systems Rather than being depoliticized young people in different national contexts are giving rise to alternative politics Drawing on original survey data collected in 2018 this edited volume provides a detailed analysis of youth participation in nine European countries by focusing on socialization processes different modes of participation and the mobilization of youth politics This volume is an indispensable guide to understanding young European s experience and engagement of politics the inequalities that shape young people s political engagement and are sometimes replicated through them and young people s commitment to saving the environment and spreading democratic ideals Based on compelling and extensive research across nine nations this volume makes important advances in key debates on youth politics and provides critical empirical insights into which young people engage influences on young people s politics how young people engage why some young people don t engage and trends across nations The volume succeeds in the herculean task of focusing on specific national contexts while also rendering a comprehensive picture of youth politics and inequality in Europe today Jennifer Earl Professor of Sociology University of Arizona USA Forecasts by social scientists of young people s increasingly apathetic stance towards political participation appear to have been misplaced This text drawing data and analysis across and between nine European countries captures the changing nature of political activism by young people It indicates how this is strongly nuanced by factors such as social class and gender identity It also highlights important distinctions between young people s approaches towards more traditional electoral and more contemporary non institutional forms of participation Critically it illuminates the many ways in which youth political participation has evolved and transformed in recent years Wider social circumstances and experiences are identified as highly significant in preparing young people for and influencing their levels of participation in both protest oriented action and electoral politics Howard Williamson Professor of European Youth Policy University of South Wales UK This book is an incredible guide to understanding the role and sources of inequalities on young people s political involvement Country specific chapters allow the authors to integrate a large number of the key and most pressing issues regarding young people s relationship to politics in a single volume Topics range from social mobility and the influence of socioeconomic parental resources and class young people s practice in the social sphere the intersection of gender with other sources of inequalities online participation and its relationship with social inequalities the impact of harsh economic

conditions the mobilization potential of the environmental cause to the role of political organizations Integrating all these pressing dimensions in a common framework and accompanying it with extensive novel empirical evidence is a great achievement and the result is a must read piece for researchers and practitioners aiming to understand the challenges young people face in developing their relationship to politics Gema Garc a Albacete Associate Professor of Political Science University Carlos III Madrid Spain New Directions in Public Opinion Adam J. Berinsky,2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of New Directions in Public Opinion brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in contemporary politics **Party at the Ballot Box** Melissa R. Michelson,Stephanie L. DeMora,Sarah V. Hayes,2025-09-30 How the Party at the Mailbox efforts in 2020 2024 led by Black Girls Vote used celebrations of community to increase voter turnout Black voters continue to transform America s electoral landscape and can play a powerful role in determining the outcome of elections In Party at the Ballot Box Melissa R Michelson Stephanie L DeMora and Sarah V Hayes explore the impact of celebratory voter mobilization campaigns led by Black led organizations on Black turnout particularly as more states embrace voting by mail Focusing on the Party at the Mailbox PATM initiative coordinated by Black Girls Vote Michelson DeMora and Hayes underscore what exactly motivates Black voters to show up to the polls Using community based informational and celebratory packages of materials and with a mixed methods approach that includes randomized controlled trials surveys interviews and focus groups they show us how the PATM pilot increased Black turnout in Baltimore by double digits in the 2020 primaries Despite voting by mail while sheltering in place PATM made voters feel part of something bigger than themselves that they were voting as a community The successful pilot led to further PATM efforts in Atlanta Baltimore Detroit Richmond and Philadelphia between November 2020 and November 2024 Ultimately the authors argue that Black Americans vote as a celebration of community and that cultivating that sense of community is an effective means of increasing Black voter turnout With a foreword by Nykidra Robinson founder of Black

Girls Vote Party at the Ballot Box provides insights into Black voter turnout and its larger implications Inequality and American Democracy Lawrence R. Jacobs, Theda Skocpol, 2005-08-25 In the twentieth century the United States ended some of its most flagrant inequalities The rights revolution ended statutory prohibitions against women s suffrage and opened the doors of voting booths to African Americans Yet a more insidious form of inequality has emerged since the 1970s economic inequality which appears to have stalled and in some arenas reversed progress toward realizing American ideals of democracy In Inequality and American Democracy editors Lawrence Jacobs and Theda Skocpol headline a distinguished group of political scientists in assessing whether rising economic inequality now threatens hard won victories in the long struggle to achieve political equality in the United States Inequality and American Democracy addresses disparities at all levels of the political and policy making process Kay Lehman Scholzman Benjamin Page Sidney Verba and Morris Fiorina demonstrate that political participation is highly unequal and strongly related to social class They show that while economic inequality and the decreasing reliance on volunteers in political campaigns serve to diminish their voice middle class and working Americans lag behind the rich even in protest activity long considered the political weapon of the disadvantaged Larry Bartels Hugh Heclo Rodney Hero and Lawrence Jacobs marshal evidence that the U S political system may be disproportionately responsive to the opinions of wealthy constituents and business They argue that the rapid growth of interest groups and the increasingly strict party line voting in Congress imperils efforts at enacting policies that are responsive to the preferences of broad publics and to their interests in legislation that extends economic and social opportunity Jacob Hacker Suzanne Mettler and Dianne Pinderhughes demonstrate the feedbacks of government policy on political participation and inequality In short supply today are inclusive public policies like the G I Bill Social Security legislation the War on Poverty and the Voting Rights Act of 1965 that changed the American political climate mobilized interest groups and altered the prospect for initiatives to stem inequality in the last fifty years Inequality and American Democracy tackles the complex relationships between economic social and political inequality with authoritative insight showcases a new generation of critical studies of American democracy and highlights an issue of growing concern for the future of our democratic society **Political and Civic Engagement** Martyn Barrett, Bruna Zani, 2014-11-27 Based upon a three year multi disciplinary international research project Political and Civic Participation examines the interplay of factors affecting civic and political engagement and participation across different generations nations and ethnic groups and the shifting variety of forms that participation can take The book draws upon an extensive body of data to answer the following key questions Why do many citizens fail to vote in elections Why are young people turning increasingly to street demonstrations charitable activities consumer activism and social media to express their political and civic views What are the barriers which hinder political participation by women ethnic minorities and migrants How can greater levels of engagement with public issues be encouraged among all citizens Together the chapters in this volume provide a

comprehensive overview of current understandings of the factors and processes which influence citizens patterns of political and civic engagement They also present a set of evidence based recommendations for policy practice and intervention that can be used by political and civil society actors to enhance levels of engagement particularly among youth women ethnic minorities and migrants Political and Civic Participation provides an invaluable resource for all those who are concerned with citizens levels of engagement including researchers and academics across the social sciences politicians and political institutions media professionals educational professionals and schools youth workers and education NGOs and leaders of ethnic minority and migrant organizations and communities

The Latino Gender Gap in U.S. Politics Christina E. Bejarano, 2013-12-17 Many questions remain unanswered about the observable differences in voting behavior partisanship and cultural attitudes among men and women Latino political participation in the United States is generally lower than the rest of the population mainly due to their high proportion of youth and foreign born populations that are ineligible to vote This dynamic is slowing changing partly as a result of the rapidly growing Latino

population in the United States This book delves deeper into the complex gender differences for Latino political behavior More specifically it is a political analysis of the diverse U S Latino population and the interacting factors that can influence male and female differences in voting and policy attitudes Christina E Bejarano carefully unpacks more aspects of the gender category for Latinos including analyzing the gender differences in Latino political behavior across national origin foreign born status and generational status The Latino gender gap can have far reaching political implications on electoral politics As the Latino population highlights their growing political sway the major political parties have and will strategically mobilize and court the Latino electorate Latinas in particular *Citizens By Degree* Deondra Rose,2018-01-19 Since the mid twentieth century the United States has seen a striking shift in the gender dynamics of higher educational attainment as women have come to earn college degrees at higher rates than men Women have also made significant strides in terms of socioeconomic status and political engagement What explains the progress that American women have made since the 1960s While many point to the feminist movement as the critical turning point this book makes the case that women s movement toward first class citizenship has been shaped not only by important societal changes but also by the actions of lawmakers who used a combination of redistributive and regulatory higher education policies to enhance women s incorporation into their roles as American citizens Examining the development and impact of the National Defense Education Act of 1958 the Higher Education Act of 1965 and Title IX of the 1972 Education Amendments Deondra Rose in *Citizens By Degree* argues that higher education policies represent a crucial though largely overlooked factor shaping the progress that women have made By significantly expanding women s access to college they helped to pave the way for women to surpass men as the recipients of bachelor s degrees while also empowering them to become more economically independent socially integrated politically engaged members of the American citizenry In addition to helping to bring into greater focus our understanding of how Southern Democrats shaped U S social policy development during the mid twentieth century Rose s analysis recognizes federal higher education policy as an indispensable component of the American welfare state **Gender and Political**

Gender, War, and World Order Richard C. Eichenberg, 2019-06-15 Motivated by the lack of scholarly understanding of the substantial gender difference in attitudes toward the use of military force Richard C Eichenberg has mined a massive data set of public opinion surveys to draw new and important conclusions By analyzing hundreds of such surveys across more than sixty countries Gender War and World Order offers researchers raw data multiple hypotheses and three major findings Eichenberg poses three questions of the data Are there significant differences in the opinions of men and women on issues of national security What differences can be discerned across issues culture and time And what are the theoretical and political implications of these attitudinal differences Within this framework Gender War and World Order compares gender difference on military power balance of power alliances international institutions the acceptability of war defense spending defense welfare compromises and torture Eichenberg concludes that the centrality of military force violence and war is the single most important variable affecting gender difference that the magnitude of gender difference on security issues correlates with the economic development and level of gender equality in a society and that the country with the most consistent gender polarization across the widest range of issues is the United States

Values, Economic Crisis and Democracy Mălina Voicu, Ingvill C. Mochmann, Hermann Dülmer, 2016-01-29 For the past decade European countries have undergone a severe economic crisis with severe consequences both for individuals and for governments. Unemployment and rising poverty have compelled individuals to reconsider their own priorities and goals while governments have been forced to rethink social policies on the national level as well as their international economic and political agreements. Some countries have been more deeply affected by the crisis than others and the impact of economic shortage on individuals and governments has differed not only because of the different magnitudes of the crisis but also because individuals react differently to the contextual changes. This book makes use of cross-national survey data to explore the impact of wealth and economic contexts on social values. Instead of attempting to explain how aggregate changes occur as previous volumes have done, the chapters in this collection focus on micro-level effects to interrogate more deeply the interplay between attitudes and values and the way both can change as a result of transformation of economic context. This book elaborates on several dimensions of value change: the measurement model and the way it changes under the impact of economic shortage; the connection between universal value orientations and attitudes towards different objects, e.g., the welfare state, immigrants and ethnic groups; the effects of economic factors and vulnerability on values and attitudinal orientations; how particular political and economic contexts produce changes in political orientations. This book focuses on the interrelationship of social values, attitudes and economic scarcity in the context of the last economic crisis experienced by many European countries. It will appeal to scholars and students of sociology, political science and economics.
