Making Waves Frederick Lau, Christine R. Yano, 2018-02-28

Musical sounds are some of the most mobile human elements crossing national cultural and regional boundaries at an ever increasing pace in the twentieth and twenty first centuries Whole musical products travel easily though not necessarily intact via musicians CDs and earlier cassettes satellite broadcasting digital downloads and streaming The introductory chapter by the volume editors develops two framing metaphors traveling musics and making waves The wave making metaphor illuminates the ways that traveling musics traverse flows of globalization and migration initiating change and generating energy of their own Each of the nine contributors further examines music its songs makers instruments aural aesthetics and images as it crosses oceans continents and islands In the process of landing in new homes music interacts with older established cultural environments sometimes in unexpected ways and with surprising results They see these traveling musics in Hawai i Asia and the Pacific as making waves that is not only riding flows of globalism but instigating ripples of change What is the nature of those ripples What constitutes some of the infrastructure for the wave itself What are some of the effects of music landing on transported to or appropriated from distant shores How does the Hawai i Asia Pacific context itself shape and get shaped by these musical waves The two poetic and evocative metaphors allow the individual contributors great leeway in charting their own course while simultaneously referring back to the influence of their mentor and colleague Ricardo D Trimillos whom they identify as the wave maker The volume attempts to position music as at once ritual and entertainment esoteric and exoteric tradition and creativity within the cultural geographies of Hawai i Asia and the Pacific In doing so they situate music at the very core of global human endeavors

Clarence Darrow Andrew E. Kersten, 2011-04-26

Clarence Darrow is best remembered for his individual cases whether defending the thrill killers Leopold and Loeb or John Scopes s right to teach evolution in the classroom In the first full length biography of Darrow in decades the historian Andrew E Kersten narrates the complete life of America s most legendary lawyer and the struggle that defined it the fight for

the American traditions of individualism freedom and liberty in the face of the country's inexorable march toward modernity Prior biographers have all sought to shoehorn Darrow born in 1857 into a single political party or cause But his politics do not define his career or enduring importance Going well beyond the familiar story of the socially conscious lawyer and drawing upon new archival records Kersten shows Darrow as early modernity's greatest iconoclast What defined Darrow was his response to the rising interference by corporations and government in ordinary working Americans lives he zealously dedicated himself to smashing the structures and systems of social control everywhere he went During a period of enormous transformations encompassing the Gilded Age and the Progressive Era Darrow fought fiercely to preserve individual choice as an ever more corporate America sought to restrict it

Legendary Hawai'i and the Politics of Place Cristina Bacchilega, 2011-06-03 Hawaiian legends figure greatly in the image of tropical paradise that has come to represent Hawai'i in popular imagination But what are we buying into when we read these stories as texts in English language translations Cristina Bacchilega poses this question in her examination of the way these stories have been adapted to produce a legendary Hawai'i primarily for non-Hawaiian readers or other audiences With an understanding of tradition that foregrounds history and change Bacchilega examines how following the 1898 annexation of Hawai'i by the United States the publication of Hawaiian legends in English delegitimized indigenous narratives and traditions and at the same time constructed them as representative of Hawaiian culture Hawaiian mo'olelo were translated in popular and scholarly English language publications to market a new cultural product a space constructed primarily for Euro-Americans as something simultaneously exotic and primitive and beautiful and welcoming To analyze this representation of Hawaiian traditions place and genre Bacchilega focuses on translation across languages cultures and media on photography as the technology that contributed to the visual formation of a westernized image of Hawai'i and on tourism as determining postannexation economic and ideological machinery In a book with interdisciplinary appeal Bacchilega demonstrates both how the myth of legendary Hawai'i emerged and how this vision can be unmade and reimagined
