The May 30 Movement Events And Themes:

The May 30 Movement Richard W. Rigby, 1980 **New frontiers** Robert Bickers, Christian Henriot, 2017-03-01 In the new world order mapped out by Japanese and Western imperialism in East Asia after the mid nineteenth century opium wars communities of merchants and settlers took root in China and Korea New identities were constructed new modes of collaboration formed and new boundaries between the indigenous and foreign communities were literally and figuratively established Newly available in paperback this pioneering and comparative study of Western and Japanese imperialism examines European American and Japanese communities in China and Korea and challenges received notions of agency and collaboration by also looking at the roles in China of British and Japanese colonial subjects from Korea Taiwan and India and at Chinese Christians and White Russian refugees This volume will be of interest to students and scholars of the history and anthropology of imperialism colonialism s culture and East Asian history as well as contemporary Asian affairs History in Three Keys Paul A. Cohen, 1997 Part Two explores the thought feelings and behavior of the direct participants in the Boxer experience individuals who without a preconceived idea of the entire event understood what was happening to them in a manner fundamentally different from historians **Framing China** Ariane Knüsel, 2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century In this ground breaking book Ariane Knüsel examines how China was portrayed in political debates and the media in Britain the USA and Switzerland between 1900 and 1950 By focusing on the political economic cultural and social context that led to the construction of the particular images of China in each country the author demonstrates that national interests anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country The author s meticulous analysis of a vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre existing stereotypes pressure groups and geopolitical aspirations *Japan and Britain in Shanghai, 1925-31* H. Goto-Shibata, 1995-11-17 In Shanghai in 1925 the shooting by a British policeman of Chinese demonstrators developed into a full scale anti British movement while in 1932 Japan bombarded the Chinese areas of Shanghai The book examines how the relations between China Britain and Japan in Shanghai changed over time during the period It investigates the economic aspect of history and businessmen s perceptions as well as the diplomatic and military aspects because economic expansion was one of the most important objectives of Japan in the 1920s Chinese Money in Global Context Niv Horesh, 2013-12-18 Chinese Money in Global Context Historic Junctures Between 600 BCE and 2012 offers a groundbreaking interpretation of the Chinese monetary system charting its

evolution by examining key moments in history and placing them in international perspective Expertly navigating primary sources in multiple languages and across three millennia Niv Horesh explores the trajectory of Chinese currency from the birth of coinage to the current global financial crisis His narrative highlights the way that Chinese money developed in relation to the currencies of other countries paying special attention to the origins of paper money the relationship between the West's ascendancy and its mineral riches the linkages between pre modern finance and political economy and looking ahead to the possible globalization of the RMB the currency of the People's Republic of China This analysis casts new light on the legacy of China's financial system both retrospectively and at present when China's global influence looms large

Beyond Pan-Asianism Tansen Sen, Brian Tsui, 2020-11-01 Within Asia the period from 1840s to 1960s had witnessed the rise and decline of Pax Britannica the growth of multiple and often competing anti colonial movements and the entrenchment of the nation state system Beyond Pan Asianism seeks to demonstrate the complex interactions between China India and their neighbouring societies against this background of imperialism and nationalist resistance The contributors to this volume from India the West and the Chinese speaking world cover a tremendous breadth of figures including novelists soldiers intelligence officers archivists among others by deploying published and archival materials in multiple Asian and Western languages This volume also attempts to answer the question of how China India connectedness in the modern period should be narrated Instead of providing one definite answer it engages with prevailing and past frameworks notably Pan Asianism and China India as Method with an aim to provoke further discussions on how histories of China India and by extension the non Western world can be conceptualized Britain in China Robert Bickers, 2017-03-01 This is a study of Britain's presence in China both at its peak and during its inter war dissolution in the face of assertive Chinese nationalism and declining British diplomatic support Using archival materials from China and records in Britain and the United States the author paints a portrait of the traders missionaries businessmen diplomats and settlers who constituted Britain in China challenging our understanding of British imperialism there Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods This brought them into conflict not only with the Chinese population but with the British imperial government The book also analyzes the formation and maintenance of settler identities and then investigates how the British state and its allies brought an end to the reign of freelance settler imperialism on the China coast At the same time other British sectors missionary and business renegotiated their own relationship with their Chinese markets and the Chinese state and distanced themselves from the settler British *A History of the Chinese Communist Party* Stephen Uhalley, 1988

Shaping Modern Shanghai Isabella Jackson, 2018 An innovative study of colonialism in China examining Shanghai's International Settlement as the site of key developments in the Republican period **Finance And Empire** Roberta A Dayer, 1988-11-24 Educating China Peter Zarrow, 2015-09-23 A major study of how Chinese school textbooks shaped

social cultural and political trends in the late imperial and Republican period **Out of China** Robert Bickers,2017-03-30
 SHORTLISTED FOR THE 2018 WOLFSON HISTORY PRIZE The extraordinary and essential story of how China became the powerful country it is today Even at the high noon of Europe s empires China managed to be one of the handful of countries not to succumb Invaded humiliated and looted China nonetheless kept its sovereignty Robert Bickers major new book is the first to describe fully what has proved to be one of the modern era s most important stories the long often agonising process by which the Chinese had by the end of the 20th century regained control of their own country Out of China uses a brilliant array of unusual strange and vivid sources to recreate a now fantastically remote world the corrupt lurid modernity of pre War Shanghai the often tiny patches of extra territorial land controlled by European powers one of which unnoticed had mostly toppled into a river the entrep ts of Hong Kong and Macao and the myriad means through armed threats technology and legal chicanery by which China was kept subservient Today Chinese nationalism stays firmly rooted in memories of its degraded past the quest for self sufficiency a determination both to assert China s standing in the world and its outstanding territorial claims and never to be vulnerable to renewed attack History matters deeply to Beijing s current rulers and Out of China explains why The International History of East Asia, 1900-1968 Antony Best,2009-12-18 This book provides a broad account of the international history of East Asia from 1900 to 1968 a subject that is essential to any understanding of the modern epoch Whereas much of the scholarship on this subject has focused purely on the immediate origins and consequences of violent events such as wars and revolutions this book demonstrates the importance of also considering other forces such as ideology trade and cultural images that have helped shape East Asian international history It analyses how the development of the region was influenced by ideological competition and orientalism by both multilateral and unilateral efforts to instil order and by the changing nature of international trade It considers a number of important topics such as the concept of the open door the rise and influence of progressive internationalism in the forum of the League of Nations the development of anti colonial nationalism and anti Western internationalism in the shape of pan Asianism and the onset of the Cold War It also includes detailed case studies of subjects including the administration of the Chinese Maritime Customs Service the international effort to regulate the trade in opium and the significance of intra Asian trade Overall this book constitutes an impressive account of the international history of East Asia and is an important contribution to the interpretive study of this crucial period of history *The Jacquinet Safe Zone* Marcia R. Ristaino,2008 The Jacquinet Zone in Shanghai is the first example in history of a successful safe zone that provided protection and security to half a million Chinese refugees living in a battle zone during wartime **When the Soviet Union Entered World Politics** Jon Jacobson,2023-11-15 The dissolution of the Soviet Union has aroused much interest in the USSR s role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union Jon Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan focusing on the

problems confronting the Bolsheviks as they sought to promote national security and economic development. He demonstrates the central importance of foreign relations to the political imagination of Soviet leaders both in their plans for industrialization and in the struggle for supremacy among Lenin's successors. Jacobson adopts a post-Cold War interpretative stance incorporating glasnost and perestroika era revelations. He also considers Soviet relations with both Europe and Asia from a global perspective integrating the two modes of early Soviet foreign relations: revolution and diplomacy into a coherent discussion. Most significantly, he synthesizes the wealth of information that became available to scholars since the 1960s. The result is a stimulating work of international history that interfaces with the sophisticated existing body of scholarship on early Soviet history. The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74-year history and in how the international relations of the twentieth century were shaped by the Soviet Union. Jon Jacobson examines Soviet foreign policy for

Shanghai, Past and Present Niv Horesh, 2014-03-01 This book sets out to explain how Shanghai emerged from relative obscurity in 1842 to become one of the world's best-known finance and industry hubs. As China's largest city, Shanghai today plays a central economic role much as it did in the 1920s. The author provides a concise diachronic survey of the economic history of modern Shanghai, setting out how the city's urban infrastructure, municipal institutions, consumer culture, and industry have shaped and have been shaped by this economic power house. The work is aimed at a broad readership of all who are interested in Asian history and tackles a range of themes including the city's millionaires then and now, racial tensions and quotidian liaisons between Europeans and Asians before World War II and the gambling and prostitution industry. The post-war era is portrayed in comparative discussions on Shanghai under Mao Zedong and during the reform era. These discussions bring the narrative up to date to cover important events such as the designation of the Pudong precinct as the city's new engine of growth in 1991. The city's illustrious pre-war past is compared with its present ambitions to become Asia's leading financial centre. The book employs insights from studies, frameworks of new institutional economics as well as from the development trajectory of other world cities by way of better understanding Shanghai's historic distinctness, its relative weaknesses and contemporary strengths.

Port of Last Resort Marcia Reynders Ristaino, 2001 This book examines two large and generally overlooked diaspora communities: one Jewish, the other Slavic, who found refuge in Shanghai during the tumultuous first half of the twentieth century.

A Modern History of Hong Kong Steve Tsang, 2007-07-30 This major history of Hong Kong tells the remarkable story of how a cluster of remote fishing villages grew into an icon of capitalism. The story began in 1842 with the founding of the Crown Colony after the First Anglo-Chinese War, the original Opium War. As premier power in Europe and an expansionist empire, Britain first created in Hong Kong a major naval station and the principal base to open the Celestial Chinese Empire to trade. Working in parallel with the locals, the British built it up to become a focus for investment in the region and an international centre with global shipping, banking, and financial interests. Yet by far the most momentous change in the history of this prosperous capitalist colony was its return

in 1997 to Mother China the most powerful Communist state in the world Britain's Imperial Cornerstone in China Donna Brunero, 2006-03-02 This is an in depth account of the Chinese Imperial Maritime Customs Service a uniquely cosmopolitan institution established in the wake of China's defeat in the Opium Wars 1842 to 43 and a central feature of the Treaty Port system The British dominated service was headed by the famous Robert Hart who founded a far reaching customs administration that also encompassed other responsibilities such as marine and harbour maintenance quarantine anti piracy patrols and postal services This institution sat at a crucial juncture between Chinese and foreign interests and was intimately linked to British interests and fortunes in the Far East Following the establishment of the Republic in 1911 there were grave misgivings as to whether the foreign element of the Service would survive Yet the Service grew in influence and strength ensuring the foreign inspectorate a continued role in China's affairs Delivering an overview of the Service its bureaucracy fiscal responsibilities and life for foreigners in its employ focusing especially on the later years of the Service Donna Brunero draws on the experiences of the foreign administration of the Service as it attempted to negotiate between Chinese and foreign expectations and interests
