## **ABSTRACT**

*This article explores the pragmatics of peace, conflict, conflict resolution, and reconciliation within the Agiryama community. Rooted in rich cultural traditions, the Agiryama people navigate conflicts through a unique blend of traditional and modern approaches. The dynamics of conflict resolution involve community dialogue, consensus-building, and the integral role of elders. Rituals and symbolic acts play a significant role in signifying reconciliation, fostering healing and forgiveness.*

*This study draws on our own primary source material collected from fieldwork among the Mijikenda, including interviews with kaya elders and other community members, as well as our participant observation of ceremonial events and court sessions. The findings reveal that the Agiryama's adaptive approach integrates both traditional wisdom and contemporary methods, reflecting their commitment to preserving cultural identity while addressing the complexities of a changing world. Understanding these dynamics provides valuable insights into the resilience and pragmatism of the Agiryama in fostering harmony within their community.*

**The Maze of Peace** Alan F. Geyer, 1969    *Colloquy*, 1970    *Church and State in Historical Perspective* James E. Wood, 2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization However the subject is one that is by no means limited to any one religious tradition civilization or period of history Rather it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures civilizations nations and empires For this reason this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in other religious traditions than Christianity Attention is given to general works on church and state that treat the subject broadly not limited to any particular nation religious tradition or single aspect of church state relations Additionally there is material on major topics integrally related to church and state such as civil disobedience civil religion liberation theology patriotism and nationalism Finally sources are included on religion in international affairs and interfaith relations both necessarily linked to the subject of church and state as well as religion and the economic order religion and human rights and the effect of religion on war and peace    *World Justice*, 1970    **The Middle East Problem. *The Healing of Nations* Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting

**Terrorism: Bridging the Gap with Peace and Conflict Studies** Ioannis Tellidis, Harmonie Toros, 2016-01-08 This book opens up the discussion of the interrelation between terrorism studies and peace and conflict studies The aim is to examine the instances and circumstances under which both fields can benefit from each other Even though it is often accepted that terrorism is a form of political violence it is also quite frequent that research on the topic is dismissed when it is approached with conflict analysis frames More importantly policy approaches continue to inhibit obstruct and reject frameworks that are concerned with the transformation and resolution of terrorist conflicts partly because they see the state as the ultimate referent object to be secured At the same time peace and conflict studies seem to be excessively focused on problem solving approaches which overemphasise the role of parity during negotiations and misdiagnose the distribution of power both within conflicts as well as within conflict management resolution and or transformation approaches This book was published as a special issue of Critical Studies on Terrorism
