István,2015-12-10 The analyses in the book investigate the possibilities and foundations of a completely new philosophy of history although outlined in dialogue with M Heidegger The fundamental questions the author asks are Why wherefrom is there history Why are we humans historical Why is there historiography Primarily and ultimately the response to each of these questions is because we are MORTAL Accordingly the first chapter tackles the possibilities and lays the foundations of an ontology of history Built upon these the second chapter analyses the being of the PAST and its existential characteristics as NOT BEING ANY MORE as HAD BEEN NESS Chapter three turns towards the FUTURE and analyses its existential characteristics as NOT YET BEING Chapter four is an explicit return to the dialogue with Heidegger which surfaces the main aspects of the essential belonging together of the fundaments and origins of philosophy and history The Appendix is an applied philosophical research related to the previous subjects which examines

the interlacements of DEATH and SECRET in the phenomenon of TERRORISM *The Meaning of Human History, by Morris R. Cohen* Morris Raphael Cohen,1947 **The Structure of Mind in History** Philip Pomper,1985-06-06 The Structure of Mind in History **The Universe Next Door** James W. Sire,2009-08-20 For more than thirty years The Universe Next Door has set the standard for an introduction to worldviews In this fifth edition James Sire offers concise and clear introductions to theism deism naturalism Marxism nihilism existentialism Eastern monism New Age philosophy and postmodernism Features a new chapter on Islam *The Greatest Treachery in Human History* Daniel Harran,2023-06-23 The initial goal of this book was to discover the ultimate purpose and meaning behind the abductions of human beings into UFOs the alarming reality of which is still hardly known to the public But as this study developed it led to a series of revelations which brought us to an unexpected interpretation of this phenomenon Indeed it became all too obvious that there was a connection between these abductions and the absurd path that today s human society is taking More and more measures are being implemented that are threatening the health well being and freedom of human beings the world over under the guise of security purposes Those responsible for this are not only our leaders but occult forces which are exposed in this book We were therefore led to unveil what we can indeed refer to as the greatest treachery in human history extremely powerful dark forces have been acting on Earth for a very long time unbeknownst to our population These forces identified in this book are directly interfering in the governance of our world and are directly opposed to the harmonious evolution of Humankind putting us all in grave danger This book sheds an unprecedented new light on how this all relates to the tragic events Humanity has been going through since 2020 **The Meaning of Human History** Morris B. Cohen,1947 **THE EMERGENCE AND NATURE OF HUMAN HISTORY Volume One** Joseph Miller,2012-07-29 This book attempts to define the issues that face us in trying to understand the often overwhelming complexity of the human experience It is intellectually challenging broad in its scope richly detailed and densely argued It is the first in a projected series of five volumes in which the author will seek to touch on every aspect of human historical reality and all the multitudinous variables that have shaped it *Language in Deep Human History* Richard J. Watts,2024-02-19 Understanding the evolution of language within the context of deep human history requires interdisciplinary work between linguists and scientists from a wide range of academic disciplines e g archaeology molecular biology anthropology genetics biochemistry etc The book aims to calibrate work on human evolution with current linguistic theory in an attempt to trace out a scientific story of how human language emerged and developed that has plausibility while remaining open to change through new linguistic and non linguistic research *The Origin and Goal of History* Karl Jaspers,2021-03-28 Karl Jaspers 1883 1969 was a German psychiatrist and philosopher and one of the most original European thinkers of the twentieth century As a major exponent of existentialism in Germany he had a strong influence on modern theology psychiatry and philosophy He was Hannah Arendt s supervisor before her emigration to the United States in the 1930s and himself experienced the consequences of Nazi persecution He was removed from his position

at the University of Heidelberg in 1937 due to his wife being Jewish Published in 1949 the year in which the Federal Republic of Germany was founded The Origin and Goal of History is a vitally important book It is renowned for Jaspers theory of an Axial Age running from the 8th to the 3rd century BCE Jaspers argues that this period witnessed a remarkable flowering of new ways of thinking that appeared in Persia India China and the Greco Roman world in striking parallel development but without any obvious direct cultural contact between them Jaspers identifies key thinkers from this age including Confucius Buddha Zarathustra Homer and Plato who had a profound influence on the trajectory of future philosophies and religions For Jaspers crucially it is here that we see the flowering of diverse philosophical beliefs such as scepticism materialism sophism nihilism and debates about good and evil which taken together demonstrate human beings shared ability to engage with universal humanistic questions as opposed to those mired in nationality or authoritarianism At a deeper level The Origin and Goal of History provides a crucial philosophical framework for the liberal renewal of German intellectual life after 1945 and indeed of European intellectual life more widely as a shattered continent attempted to find answers to what had happened in the preceding years This Routledge Classics edition includes a new Foreword by Christopher Thornhill Herbert Butterfield and the Interpretation of History K. Sewell,2005-01-13 This book examines successive stages in the development of the thought of Sir Herbert Butterfield in relation to fundamental issues in the science of history In a carefully nuanced way it lays bare the unspoken motivations and hidden tensions in Butterfield s debate with himself and with a host of contemporary historians in the period between 1924 79 **The Reality of God and Historical Method** Samuel V. Adams,2015-11-09 Samuel Adams engages the classic problem of the relation between faith and history from the perspective of apocalyptic theology in critical dialogue with the work of N T Wright He argues that historical and theological scholars must take into consideration at a methodological level the reality of God that has invaded history in Jesus Christ *The Most Protected Secrets in Human History* Carlos A. Llorens,2024-01-18 You are in possession of one of humanity s most ever jealously guarded treasures This knowledge has been passed down not through written words but verbally through the ages Since ancient times men have insatiably searched for answers and during the early days of our consciousness on this planet we had a much purer mind and body which allowed us to discern things better with more agility and clarity during which we were able to gain awareness of how certain things work especially how we interact with ourselves and our environment The discoveries were amazing divine and magical to be conservative Those discoveries changed the course of humanity forever The knowledge was so powerful that it was never written in an effort to ensure that only a few would receive it verbally At a certain point these jealously guarded secrets were controlled by secret societies whose societies are composed of the most powerful individuals on earth called the elite class and the minority who believes that everyone should have access to this knowledge they decided to share it and now you have in your hands something very difficult to describe its true value With this knowledge if you apply it you have the power to transform your life forever Discover your inborn inherited Divine secret

abilities within you With this knowledge and its power may you never be the same KT Respectfully and with true and honest love for your success Carlos A Llorens Estas en posesion de uno de los tesoros celosamente guardados de los humanos Este conocimiento ha sido transmitido no escrito sino verbalmente a traves de los siglos Desde la antiguedad los hombres han buscado insaciablemente respuestas y durante los primeros tiempos de nuestra conciencia en este planeta teniamos una mente y un cuerpo mucho mas puros lo que nos permitio discernir mejor las cosas con mas agilidad y claridad durante los cuales pudimos obtener la conciencia de como funcionan ciertas cosa especialmente como interactuamos con nosotros mismos y nuestro entorno los descubrimientos fueron asombrosos divinos y magicos para ser conservadores esos descubrimientos cambiaron el curso de la humanidad para siempre Esos descubrimientos permitieron a los primeros hombres iluminados ejercitar algunas de nuestras santas habilidades dotadas y lograr algunos de los mayores logros jamas conocidos por la humanidad el conocimiento era tan poderoso que nunca fue escrito en el esfuerzo de asegurar que solo aquellos que demostraron poseer los requisitos previos los recibirian verbalmente a traves de un proceso de tutoria En cierto punto esos secretos celosamente guardados fueron controlados a traves de lo que hoy conocemos como Sociedades Secretas cuyas Sociedades estan compuestas por los individuos mas poderosos de la tierra llamada la clase elite esta clase se divide en dos partes la mayoria la cual cree que el resto de la poblacion debe trabajar para ellos ya que saben como manejar el planeta y la minoria que cree que todos deben tener acceso a este conocimiento gracias a su amor por la humanidad decision y voluntad de compartir este conocimiento ahora tienen en sus manos algo muy dificil de describir su verdadero valor Con este conocimiento y si lo aplicas tienes el poder de transformar tu vida para siempre Descubriras los secretos de tus habilidades heredadas nacidas dentro de ti De K T Con este conocimiento y su poder que nunca seas el mismo Respetuosamente con amor verdadero y honesto por su exito Carlos A Llorens **The Blackwell Dictionary of Western Philosophy** Nicholas Bunnin,Jiyuan Yu,2008-04-15 The Blackwell Dictionary of Western Philosophy The Blackwell Dictionary of Western Philosophy The style is fresh and engaging and it gives a broad and accurate picture of the western philosophical tradition It is a pleasure to browse in even if one is not looking for an answer to a particular question David Pears Its entries manage to avoid the obscurities of an exaggerated brevity without stretching themselves out as if seeking to embody whole miniature essays In short it presents itself as a model of clarity and clarification Alan Montefiore **Transcendence and History** Glenn Hughes,2003-05-01 Transcendence and History is an analysis of what philosopher Eric Voegelin described as the decisive problem of philosophy the dilemma of the discovery of transcendent meaning and the impact of this discovery on human self understanding The world s major religious and wisdom traditions are built upon the recognition of transcendent meaning and our own cultural and linguistic heritage has long since absorbed the postcosmological division of reality into the two dimensions of transcendence and immanence But the last three centuries in the West have seen a growing resistance to the idea of transcendent meaning contemporary and postmodern interpretations of the human situation both popular and

intellectual indicate a widespread eclipse of confidence in the truth of transcendence In Transcendence and History Glenn Hughes contributes to the understanding of transcendent meaning and the problems associated with it assisting in the philosophical recovery of the legitimacy of the notion of transcendence Depending primarily on the treatments of transcendence found in the writings of twentieth century philosophers Eric Voegelin and Bernard Lonergan Hughes explores the historical discovery of transcendent meaning and then examines what it indicates about the structure of history Hughes s main focus however is on clarifying the problem of transcendence in relation to historical existence Addressing both layreaders and scholars Hughes applies the insights and analyses of Voegelin and Lonergan to considerable advantage Transcendence and History will be of particular value to those who have grappled with the notion of transcendence in the study of philosophy comparative religion political theory history philosophical anthropology and art or poetry By examining transcendent meaning as the key factor in the search for ultimate meaning from ancient societies to the present the book demonstrates how the decisive problem of philosophy both illuminates and presents a vital challenge to contemporary intellectual discourse *Phenomenology and Intercultural Understanding* Kwok-Ying Lau,2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective It provides a bridge between Western and Eastern philosophy through in depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy Phenomenological readings of Daoist and Buddhist philosophies are provided the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective The author uses a descriptive rigor to avoid cultural prejudices and provides a non Eurocentric conception and practice of philosophy Through this East West comparative study a compelling criticism of a Eurocentric conception of philosophy emerges New concepts and methods in intercultural philosophy are proposed through these chapters Researchers teachers post graduates and students of philosophy will all find this work intriguing and those with an interest in non Western philosophy or phenomenology will find it particularly engaging
