**Exploring the Structure of Emptiness** Mathew Varghese, 2012-12-01 Nagarjuna is one of the finest philosophers who ever lived This second century Buddhist philosopher from south India is known for his criticism on speculative theories and viewpoints But his name is better known for introducing the idea of emptiness sunyata a philosophical concept that had hugely influenced the discourses of Eastern philosophy religion and culture for about 2000 years Nagarjuna cleverly introduced emptiness sunyata into Buddhist discourses to explain its central philosophy the philosophy of Middle Path Through the negative mode of argumentation he taught how we naturally get trapped into extreme viewpoints and speculate on them His philosophy of Middle Path Madhyamika explains the progress of human reasoning moving in its natural course avoiding extreme viewpoints for finding harmony and freedom During the second century in a different milieu Nagarjuna warned his students about the dangers of speculative thought created out of extreme viewpoints and philosophical doctrines

He taught them to look into the structures of such doctrines critically by using negation to know what the truth is Therefore the philosophical idea of emptiness sunyata is not the end of negation assuming perfect nihilism but teaching us that it would work like medicine for removing all our ignorance More precisely it is like zero sunya in mathematics a number with an undefined value but real numbers find newer values by associating with it It is a philosophical tool that helps us control our alleged fears anger petty hatred etc by invoking the natural course of human compassion karuna for us to live and die naturally Therefore the structure of emptiness is the philosophy of Middle Path Statistical Quality Control for the Six Sigma Green Belt Bhisham C. **Exegetical Commentary - 2 volume set** Robert L. Thomas,2016-08-15 Get back to the roots on Revelation Through the centuries since its writing the book of Revelation has captured the fascination of the Christian church The earliest Christians were unanimous in understanding it along a premillennial view of Jesus second coming but other hermeneutical approaches began to emerge in the third century These clouded and added complexity to the task of explaining the book s meaning For most of the Christian era consequently many readers have viewed this last of the NT writings as though it were hopelessly embedded in an aura of deep mystery An avalanche of interpretive literature has evidenced remarkable interest in the book s contents but along with the interest has come widespread bewilderment Written especially for the informed layman student and scholar this commentary seeks to clear the air The book is interpreted according to a historical and grammatical hermeneutic and propounds a conservative evangelical theology but the reader will not get a narrow view on areas of disagreement This commentary interacts with a range of major views both evangelical and nonevangelical It reaffirms the basic framework of eschatology espoused by ancient Christianity but with added help from centuries of maturing thought and doctrinal progress in the Body of Christ All exegesis and exposition in this 2 volume commentary are based on the original language of the text Translations used are those of the author and textual criticism and word study are included where appropriate This in depth commentary also includes extended excursuses on important topics of theological and historical interest *Mark* Adrienne Von Speyr,2012-01-01 These meditations on the Gospel of Mark with the exception of the second part on the Passion were given by Adrienne von Speyr between 1945 and 1958 to members of the Community of St John which she founded with the renowned theologian Fr Hans Urs von Balthasar Adrienne is speaking to young adults who have decided to live the state of the evangelical counsels in a secular profession as part of a recently established secular institute Nevertheless this contemplative commentary can be very useful for all who seek to meditate on Holy Scripture As always Adrienne here draws from the abundance of her own contemplation which keeps continually in view the harmonious unity of Christian dogmatic truth she gives to others what has been offered to her in contemplation without exegetical notes or any attempt at scholarship Since she is speaking to novices the train of thought is simple and practical yet rich in depth The

points for meditation are not primarily for spiritual reading but an introduction to personal prayer They are meant only to point out a path because it is the Holy Spirit who directs contemplative prayer in all liberty As one reads through this book he will find in it a kind of synthesis of Adrienne von Speyr's spirituality This work will also be very useful to preachers catechists pastors communities and institutes who have understood with Pope Benedict XVI that It is time to reaffirm the importance of prayer in the face of the activism and the growing secularism of many Christians engaged in charitable work **Financial**
