The Mezzanine:

The Mezzanine Nicholson Baker, 2010-07-13 A National Book Critics Circle Award winner elevates the ordinary events that occur to a man on his lunch hour into a constant delight of a novel The Boston Globe In this startling witty and inexhaustibly inventive novel New York Times bestselling author Nicholson Baker uses a one story escalator ride as the occasion for a dazzling reappraisal of everyday objects and rituals From the humble milk carton to the act of tying one's shoes The Mezzanine at once defamiliarizes the familiar world and endows it with loopy and euphoric poetry Baker's accounts of the ordinary become extraordinary through his sharp storytelling and his unconventional conversational style At first glance The Mezzanine appears to be a book about nothing In reality it is a brilliant celebration of things simultaneously demonstrating the value of reflection and the importance of everyday human experiences A very funny book Its 135 pages probably contain more insight into life as we live it today than anything currently on the best seller list The New York Times Captures the spirit of American corporate life and invests it with a passion and sympathy that is entirely unexpected The Seattle Times Among the year's best The Boston Globe Baker writes with appealing charm He clownes and shows off rambles and pounces hard he says acute things extravagant things terribly funny things Los Angeles Times Book Review Wonderfully readable in fact gripping with surprising bursts of recognition humor and wonder The Washington Post Book World The Mezzanine Nicholson Baker, 1989

The ART of Risk Management Christopher L. Culp, 2002-07-11. Learn about today's hottest new risk management tools. One of the hottest areas of finance today, alternative risk transfer or ART, refers to the use of various insurance products to manage market, credit, operational, legal, environmental and other forms of risk. As the capital and insurance markets continue to converge, the number and complexity of new risk defraying insurance products available to corporations, brokerages, money managers and other financial professionals will continue to grow. Expert Christopher L. Culp uses case studies of recent ART transactions used by risk managers to put the field into perspective for financial professionals and to acquaint them with the various types of risk control products now available. In addition, he explores in depth the links between ART derivatives and bank arranged risk financing and he explains the key differences between classic insurance products and financial guarantees, risk financing, bundled layering and other ART forms.
