The Millennium Myth:

The Millennium Myth Nicholas Thomas Wright, 1999-01-01 Wright argues that getting ready for the millennium does not mean getting ready for the end of the world as we know it and shows that the millennium hype is masking a deeper problem in our culture By following some ancient words on hope Wright outlines a practical way for creating a better world as we move into the coming age

The Millennium Myth Michael Grosso, 1995 Visionary thinkers of the past and startling projections for the future point the way toward humankind's coming regeneration

American Mythologies William Blazek, Michael K. Glenday, 2005-01-01 In its more than three decades of existence the discipline of American studies has been reliably unreliable its boundaries and assumptions forever shifting as it continuously repositions itself to better address the changing character of American life literature and culture American Mythologies is a challenging new look at the current reinvention of American studies a reinvention that has questioned the whole notion of what American let alone American studies means Essays in the collection range widely in considering these questions from the effect of Muhammad Ali on Norman Mailer's writings about boxing to the interactions of myth and memory in the fictions of Jayne Anne Phillips to the conflicted portrayal of the American West in Cormac McCarthy's novels Four essays in the collection focus on Native American authors including Leslie Marmon Silko and Gerald Vizenor while another considers Louise Erdrich's novels in the context of Ojibwa myth By bringing together perspectives on American studies from both Europe and America American Mythologies provides a clear picture of the current state of the discipline while pointing out fruitful directions for its future

The Myth of the Welfare State Jack D. Douglas, 2017-09-29 The Myth of the Welfare State is a basic and sweeping explanation of the rise and fall of great powers and of the profound impacts of these megastates on ordinary lives Its central theme is the rise of bureaucratic collectivization in American society It is Douglas's conviction which he supports with a wealth of detail that statist bureaucracies produce stagnation often

exacerbated by inflation which in turn produces the waning of state power Douglas has his own set of isms that require concerted attention mass mediated rationalism scientism technologism credentialism and expertism People who make policies have little if any awareness of the actual way social processes evolve agricultural policy is set by people who know little of farming arid manufacturing policy is set by people who have never set foot on a factory floor In light of this soaring average ignorance it is little wonder that policy making has Alice in Wonderland characteristics and effects Douglas sees the notion of a welfare state as a contradiction in terms its widespread insinuation into the culture is made possible by its weak mythological form and benign sounding characteristics In fact welfare states in whatever form they appear have failed in their purpose to redistribute income or increase real wealth The megastates are the source of social instability and economic downturn They grow like a tidal drift They start out to correct the historical grievances of the laissez faire states only to increase the problems they seek to correct In this the welfare state is a weakened form of the totalitarian state producing similarly unhappy results Professor Douglas has produced a work of anti policy arguing that freedom leavened by an ordinary sense of self interest and social concern can overcome the shortfalls of the megastates and their myth making self serving propensities

The Millennial Sovereign A. Azfar Moin, 2012 This book brings into dialogue two major fields of scholarship that are rarely studied together sacred kingship and sainthood in Islam In doing so it offers an original perspective on both In historical terms the focus here is on the Mughal empire in sixteenth century India and its antecedents and parallels in Timurid Central Asia and Safavid Iran Introduction p 1

Hitler's Millennial Reich David Redles, 2008-11-01 A brilliant study of the convergence of apocalyptic anxiety and authoritarianism in Germany A story unfortunately of continuing relevance Charles B Strozier author of *Apocalypse On the Psychology of Fundamentalism in America After World War I* German citizens sought not merely relief from the political economic social and cultural upheaval that wracked Weimar Germany but also mental salvation With promises of order prosperity and community Adolph Hitler fulfilled a profoundly spiritual need on behalf of those who converted to Nazism and thus became not only Führer but Messiah contends David Redles who believes that millenarian sentiment was central to the rise of Nazism As opposed to many works which depersonalize Nazism by focusing on institutional factors Redles offers a fresh view of the impact and potential for millenarian movements The writings of both major and minor Nazi party figures in which there echoes a striking religiosity and salvational faith reveal how receptive Germans were to the notion of a millennial Reich such as that offered by Hitler Redles illustrates how Hitler's apocalyptic prophecies of a coming final battle with the so called Jewish Bolsheviks one that was conceived to be a war of annihilation was transformed into an equally eschatological Final Solution Redles has done an extraordinarily careful and brilliant analysis of the archival material to reveal Hitler's messianic charisma his appeal both on the ideological and psychological level illustrating that if you can convince people that they live in apocalyptic times and you have the key to their collective salvation you can get them to do anything Richard Landes Director Center for Millennial Studies Department

of History Boston University **War in Heaven/Heaven on Earth** Stephen D. O'Leary, Geln S. McGhee, 2014-12-18 The apocalypse is a motif that lies behind many religious beliefs and practices War in Heaven Heaven on Earth theorizes the apocalyptic as it has arisen in a variety of religious traditions from Native American religion to Islam in Northern Nigeria and new terrorist movements Millennial theory and history are explored from the perspective of social psychology sociology and post modern philosophy The volume is unique in applying an analysis of millennial themes to a comparative study of religion

Leaving Safe Harbors Dennis Carlson, 2002-09-27 To rise to the challenges of postmodern culture Carlson argues progressives will need to leave the safe harbors of what is familiar and comfortable A new progressivism can only be forged of a fundamental re thinking and re mythologizing of democratic education Drawing upon cultural studies perspectives Carlson interrogates philosophy through p **The Myth of the Clash of Civilizations** Chiara Bottici, Benoît Challand, 2013-01-11 While globalization unifies the world divisions re emerge within it in the form of a spectacular separation between Islam and the West How can it be that Huntington s contested idea of a clash of civilizations became such a powerful political myth through which so many people look at the world Bottici and Challand disentangle such a process of myth making both in the West and in Muslim majority countries and call for a renewed critical attitude towards it By analysing a process of elaboration of this myth that took place in academic books arts and media comics and Hollywood films they show that the clash of civilizations has become a cognitive scheme through which people look at the world a practical image on the basis of which they act on it as well as a drama which mobilizes passions and emotions Written in a concise and accessible way this book is a timely and valuable contribution to the academic literature and more generally to the public debate As such it will be an important reference for scholars and students of political science sociology philosophy cultural studies Middle Eastern politics and Islam Comparative Criticism: Volume 21, Myth and Mythologies E.
