## **The Mills Bomb:**

*The Battle of Messines 1917* Craig Deayton, 2017-06-05 On 7 June 1917 the British Second Army launched its attack on Messines Ridge detonating 19 giant mines beneath the German front line positions By the end of the day one of the strongest positions on the Western Front had fallen a place of such importance that the Germans had pledged to hold it at any cost It was the greatest British victory in three years of war The first two years of the First World War had represented an almost unending catalogue of disaster for the Australians Messines was not only their first real victory it was also the first test in senior command for Major General John Monash who commanded the newly formed 3rd Division and would later be hailed as Australia's greatest soldier Messines was a baptism of fire for the 3rd Division which came into the line alongside the battle scarred 4th Australian Division badly mauled at Bullecourt just six weeks earlier in one of the worst defeats of the war The fighting at Messines would descend into unimaginable savagery a lethal and sometimes hand to hand affair of bayonets clubs bombs and incessant machine gun fire described by one Australian as 72 hours of Hell After their string of bloody defeats over 1915 and 1916 Messines would be the ultimate test for the Australians

**Ghosts of War** Andrew Ferguson, 2016-11-07 The First World War produced a unique outpouring of prose and poetry depicting the stark realism of a brutal and futile war no war before or since has been so extensively chronicled nor its misery so exposed First hand experiences in the trenches compelled poets such as Siegfried Sassoon and Wilfred Owen to write with a resolute honesty describing events with more feeling and sincerity than the heavily censored letters that were sent home Accounts of the Great War are typically written from an English perspective but *Ghosts of War* encompasses a selection of contributions from across Europe and America with an emphasis on the Scottish involvement Using the words of over one hundred poets and writers Andrew Ferguson recounts the war from its optimistic beginning to its sombre conclusion bringing the conflict to life in a dramatic emotive and at times humorous way

"Over the Top" Arthur Guy Empey, 1917 Excerpt of the trench One dead German was lying on his back with a rifle sticking straight up in the air the bayonet of which was buried to the hilt in his chest Across his feet lay a dead English soldier with a bullet hole in his forehead This Tommy must have been killed just as he ran his bayonet through the German Rifles and equipment were scattered about and occasionally a steel helmet could be seen sticking out of the mud At one point just in the entrance to a communication trench was a stretcher On this stretcher a German was lying with a white bandage around his knee near to him lay one of the stretcher bearers the red cross on his arm covered with mud and his helmet filled with blood and brains Close by sitting up against the wall of the trench with head resting on his chest was the other stretcher bearer He seemed to be alive the posture was so natural and easy but when I got closer I could see a large jagged hole in his temple The three must have been killed by the same shell burst The dugouts were all smashed in and knocked about big square cut timbers splintered into bits walls caved in and entrances choked Tommy after taking a trench learns to his sorrow that the hardest part of the work is to hold it In our case this proved to be so The

German artillery and machine guns had us taped ranged for fair it was worth your life to expose yourself an instant Don t think for a minute that the Germans were the only sufferers we were clicking casualties so fast that you needed an adding machine to keep track of them Did you ever see one of the steam shovels at work on the Panama Canal well it would look like a hen scratching alongside of a Tommy digging in while under fire you couldn t see daylight through the clouds of dirt from his shovel After losing three out of six men of our crew we managed to set up our machine gun One of the legs of the tripod was resting on the chest of a half buried body When World War I Trench Warfare (1) Stephen Bull,2021-05-27 The regular armies which marched off to war in 1914 were composed of massed riflemen screened by cavalry and supported by artillery their leaders expected a quick and decisive outcome achieved by sweeping manoeuvre bold leadership and skill at arms Eighteen months later the whole nature of field armies and their tactics had changed utterly In sophisticated trench systems forming a battlefield a few miles wide and 400 miles long conscript armies sheltered from massive long range bombardment wielding new weapons according to new tactical doctrines This first of two richly illustrated studies explains in detail the specifics of that extraordinary transformation complete with ten full colour plates of uniforms and equipment

**Breverton's First World War Curiosities** Terry Breverton,2014-06-15 A remarkable compendium of oddities curiosities and little known facts from the Great War featuring the greatest battles war slang heroes and heroines animals spies weapons and much more **Battle Tactics of the Western Front** Paddy Griffith,1996-01-01 Historians have portrayed British participation in World War I as a series of tragic debacles with lines of men mown down by machine guns with untried new military technology and incompetent generals who threw their troops into improvised and unsuccessful attacks In this book a renowned military historian studies the evolution of British infantry tactics during the war and challenges this interpretation showing that while the British army s plans and technologies failed persistently during the improvised first half of the war the army gradually improved its technique technology and eventually its self assurance By the time of its successful sustained offensive in the fall of 1918 says Paddy Griffith the British army was demonstrating a battlefield skill and mobility that would rarely be surpassed even during World War II Evaluating the great gap that exists between theory and practice between textbook and bullet swept mudfield Griffith argues that many battles were carefully planned to exploit advanced tactics and to avoid casualties but that breakthrough was simply impossible under the conditions of the time According to Griffith the British were already masters of storm troop tactics by the end of 1916 and in several important respects were further ahead than the Germans would be even in 1918 In fields such as the timing and orchestration of all arms assaults predicted artillery fire Commando style trench raiding the use of light machine guns or the barrage fire of heavy machine guns the British led the world Although British generals were not military geniuses says Griffith they should at least be credited for effectively inventing much of the twentieth century s art of war **The Hand Grenade** Gordon L. Rottman,2015-02-20 Allowing the user to inflict damage on his opponent within throwing range without leaving cover the

portable lethally efficient hand grenade is a ubiquitous weapon of modern warfare and has now found its way into law enforcement arsenals too. Featuring specially commissioned full colour artwork and an array of revealing photographs of grenades in use and in close up, this engaging study explores and assesses the origins, development, combat use and lasting legacy of the formidable military hand grenade.

**The Battles of Bullecourt 1917** David Coombes, 2017-02-05. In April May 1917, the sleepy hamlet of Bullecourt in northern France became the focus of two battles involving Australian and British troops. Given the unique place in this nation's military history that both battles occupy, surprisingly little has been written on the AIF's achievements at Bullecourt. The First Battle of Bullecourt marked the Australians' introduction to the latest battlefield weapon, the tank. This much lauded weapon failed dismally amid enormous casualties. Despite this, two infantry brigades from the 4th Australian Division captured parts of the formidable Hindenburg Line with minimal artillery and tank support, repulsing German counter attacks until forced to withdraw. In the second battle, launched with a preliminary artillery barrage, more Australian divisions were forced into the Bullecourt meat grinder and casualties soared to over 7000. Again, Australian soldiers fought hard to capture parts of the enemy line and hold them against savage counter attacks. Bullecourt became a charnel house for the AIF. Many who had endured the nightmare of Pozieres considered Bullecourt far worse. And for what? While Field Marshal Sir Douglas Haig considered its capture among the great achievements of the war, the village that cost so many lives held no strategic value whatsoever.

**Bringing Uncle Albert Home** David P Whithorn, 2011-11-30. Private Albert Turley was just an ordinary British soldier of the First World War. He died on the Somme for King and Country. He didn't win any medals for gallantry and has no known grave. Like thousands more soldiers, he left neither letters nor diaries from which to reconstruct his story. This is the story of one man's search for his distant relative, describing Private Turley's active service with the 3rd Battalion the Worcestershire Regiment that led to his death in one of the most infamous battles of the twentieth century. David Whithorn's painstaking reconstruction of Albert's story from surviving records and histories led to a pilgrimage following his footsteps to the Somme hillside where he fell in August 1916. What sets this book apart from the many others written about the soldiers and campaigns of the First World War is its dual function as both a tightly focused history of the 3rd Worcestershires and a detective story that eventually reveals what happened to Private Albert Turley.

**Where Poppies Blow** John Lewis-Stempel, 2016-11-03. Winner of the 2017 Wainwright Golden Beer Book Prize for nature writing. The natural history of the Western Front during the First World War. If it weren't for the birds, what a hell it would be. During the Great War, soldiers lived inside the ground, closer to nature than many humans had lived for centuries. Animals provided comfort and interest to fill the blank hours in the trenches; bird watching, for instance, was probably the single most popular hobby among officers. Soldiers went fishing in flooded shell holes, shot hares in no man's land for the pot, and planted gardens in their trenches and billets. Nature was also sometimes a curse: rats, spiders, and lice abounded, and disease could be biblical. But above all, nature healed, and despite the bullets and blood, it inspired men to

endure Where Poppies Blow is the unique story of how nature gave the British soldiers of the Great War a reason to fight and the will to go on *The Battle of Mont St Quentin Peronne 1918* Michele Bomford,2012-09-30 The Battle of Mont St Quentin Peronne 1918 explores the relationship between myth and history and the significance of the Anzac legend It analyses the forces that drove the diggers forward even when they had reached the limits of their endurance The Battle of Mont St Quentin Peronne represents the Australian Corps at its very best its diggers fighting for peace and satisfied that whatever might lie ahead at least everything was right behind them *The 390th Bomb Group Anthology* Wilbert H. Richarz,Richard H. Perry,William J. Robinson,1983-01-01 The 390th Bomb Group Anthology includes 83 stories written by 45 members of the 390th Bomb Group relating their personal adventures during the World War II years of 1943 1944 and 1945 The stories include combat briefs mission stories humor in the midst of war evasion and imprisonment after being shot down Some of the stories were written as they happened during the war years while others are recollections of those events so prominent in the minds of those who lived them The reader will be provided new insight into the war in the air by these personal accounts The 390th Bomb Group was one of the most famous units in the Eighth Air Force This unit flew 301 missions against Hitler's Fortress Europe This effort had a profound affect on the outcome of World War II in Europe **Gas! Gas! Quick, Boys** Michael Freemantle,2011-11-30 Gas Gas Quick Boys reveals for the first time the true extent of how chemistry rather than military strategy determined the shape duration and outcome of the First World War Chemistry was not only a destructive instrument of war but also protected troops and healed the sick and wounded From bombs to bullets poison gas to anaesthetics khaki to cordite chemistry was truly the alchemy of the First World War Michael Freemantle explores its dangers and its healing potential revealing how the arms race was also a race for chemistry to the extent that Germany's thirst for the chemicals needed to make explosives deprived the nation of fertilizers and nearly starved the nation He answers questions such as What is guncotton What is lyddite What is mustard gas What is phosgene What is gunmetal This is a true picture of the horrors of the Chemists War **The Fighting Pioneers** Clive Dunn,2015-09-30 Story of the 7th Battalion Durham Light Infantry With the creation of the Territorial Force in 1908 the battalion was re-designated as the 7th Battalion It went to France in April 1915 with the rest of the Northumbrian Division seeing action almost immediately at the Second battle of Ypres In November 1915 the battalion was picked to become the divisional pioneers The 17th Battalion suffered 600 fatalities In 1920 when the Territorial Army was reformed it was re-raised in its original role as infantry The story concludes on 10 December 1936 when the 7th Battalion Durham Light Infantry became the 47th Durham Light Infantry A Battalion R E T A whose personnel went on to serve in the Second World War *The A303* Tom Fort,2012-05-10 A nostalgic experience informative humorous charming but pervaded by the bitter sweet scent of regret Daily Mail The A303 is more than a road It is a story One of the essential routes of English motoring and the road of choice to the West Country for thousands of holidaymakers the A303 recalls a time when the journey was an adventure and not simply about getting there Tom Fort gives

voice to the stories this road has to tell from the bluestones of Stonehenge to Roman roads and drovers paths to turnpike tollhouses mad vicars wicked Earls and solstice seekers the history geography and culture of this road tells a story of an English way of life Fort has an eye for the quirky the absurd the pompous and a style that like the road is always on the move Sunday Telegraph A lovely book At last someone has celebrated the romance of the British road Guardian

**Supplying the British Army in the First World War** Janet Macdonald, 2019-09-30 An in depth look at the logistics of keeping the British Army fed clothed armed and supplied during World War I Napoleon famously said that an army marches on its stomach but it also marches in its boots and its uniforms carrying or driving its weapons and other equipment and all this material has to be ordered from headquarters produced and delivered Janet Macdonald's detailed and scholarly new study explains how this enormously complex task of organization and labour was carried out by the British army during the First World War She describes the personnel who performed these tasks from the government and military command in London to those who handled the items in the field They were responsible for clothing accommodation medicine transport hand weapons armament and communications a vast logistical network that had evolved to keep millions of men in the field This meticulously researched account of this important subject one which has hitherto been neglected by military historians will be essential reading and reference for anyone who is interested in the modern British army in particular in its organization and performance in the First World War

**Reflections on the Battlefield** Robert J. Rider, 2001-01-01 When Robert J Rider died in 1961 he left to his descendants a typescript text tentatively entitled Flashbacks which would eventually become Reflections on the Battlefield Broadly autobiographical this text offers a unique account of its author who fought as an infantryman while also serving as a chaplain thus exposing himself in peculiar directness to the ambiguities of chaplaincy service on the battlefield A further particularity is that Rider was in a minority among chaplains being a Methodist chaplain In August 1914 Rider aged twenty five was about to begin his third year of training for the ministry of the Wesleyan Methodist church at Handsworth Theological College in Birmingham Two months later he had enlisted with the First Birmingham Battalion later termed the 14th Battalion of the Royal Warwickshire Regiment Rider's first hand accounts of Ypres the Somme and Arras reveal a man morally opposed to war and yet adamant that Germany and her allies needed to be defeated Reflections on the Battlefield provides us with a personal and valuable contribution to the present day debate about the contemporary understanding of the ethics of war as expressed on the World War I battlefield

*Landscapes of the Western Front* Ross Wilson, 2013-06-17 This book examines the British soldiers on the Western Front and how they responded to the war landscape they encountered behind the lines and at the front Using a multidisciplinary perspective this study investigates the relationship between soldiers and the spaces and materials of the warzone analyzing how soldiers constructed a sense of place in the hostile unpredictable environment Drawing upon recent developments within First World War Studies and the anthropological examination of the fields of conflict an ethnohistorical

perspective of the soldiers is built which details the various ways soldiers responded to the physical and material world of the Western Front This study is also grounded in the wider debates on how the First World War is remembered within Britain and offers an alternative perspective on the individuals who fought in the world's first global conflagration nearly a century ago
