The Philosophy Of Art Theory And History Of Literature:

Beyond Art: A Third Culture Peter Weibel, 2005-05-17 A new theory of culture presented with a new method achieved by comparing closely the art and science in 20th century Austria and Hungary Major achievements that have influenced the world like psychoanalysis abstract art quantum physics Gestalt psychology formal languages vision theories and the game theory etc originated from these countries and influence the world still today as a result of exile nurtured in the US A source book with numerous photographs images and diagrams it opens up a nearly infinite horizon of knowledge that helps one to understand what is going on in today's worlds of art and science

A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner's Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal

Benjamin, Adorno, and the Experience of Literature Corey McCall, Nathan Ross, 2018-06-27 This collection features original essays that examine Walter Benjamin's and Theodor Adorno's essays and correspondence on literature Taken together the essays present the view that these two monumental figures of 20th century philosophy were not simply philosophers who wrote about literature but that they developed their philosophies in and through their encounters with literature Benjamin Adorno and the Experience of Literature is divided into three thematic sections The first section contains essays that directly demonstrate the ways in which literature enriched the thinking of Benjamin and Adorno It explores themes that are recognized to be central to their thinking mimesis the critique of historical progress and the loss and recovery of experience through their readings of literary authors such as Baudelaire Beckett and Proust The second section continues the trajectory of the first by bringing together four essays on Benjamin's and Adorno's reading of Kafka whose work helped them develop a distinctive critique of and response to capitalism The third and final section focuses more intently on the question of what it means to gain authentically critical insight into a literary work The essays examine Benjamin's response to specific figures including Georg Bchner Robert Walser and Julien Green whose work he sees as neglected undigested or misunderstood This book offers a unique examination of two pivotal 20th century philosophers through the lens of their shared experiences with literature It will appeal to a wide range of scholars across philosophy literature and German studies
