The Piltdown Inquest:

The Piltdown Inquest Charles Blinderman,1986 **The Piltdown Inquest** Charles Blinderman,1986 The Piltdown Forgery J. S. Weiner,2003-11-20 On 21 November 1953 one of the most fascinating puzzles in science was finally solved Three scientists Joseph Weiner Kenneth Oakley and Wilfrid Le Gros Clark described their investigations into the important fossilized human remains found at Piltdown in Sussex in the early 1900s Their conclusion was stunning the remains and the accompanying materials that supposedly verified them as ancient fossils had all been faked The discovery of Piltdown Man had been announced to the world in 1912 by an amateur fossil hunter Charles Dawson and the Keeper of Geology at the Natural History Museum in London Arthur Smith Woodward who had found fragments of a thickset skull and an ape like lower jaw along with other bones and stone tools These fragments pointed to a species of early human who had lived in England a million years ago a missing link between apes and modern man But as Weiner and his colleagues were to reveal in 1953 the skull was a recent one and the jaw had belonged to an orang utan These and many other finds from Piltdown had been deliberately stained and tampered with to make them appear ancient and the scientific establishment had been well and truly fooled Widely praised from its first publication in 1955 The Piltdown Forgery remains the classic account of this story and its many players In this fiftieth anniversary edition Professor Chris Stringer Head of Human Origins at the Natural History Museum in London provides an introduction to this famous story and an afterword containing the latest detective work Ever increasing technological powers may one day reveal who did what and why but until then this remains an engrossing tale of mixed motives captivating trickery and competing egos a tale fit to rival the works of Sir Arthur Conan Doyle himself a player in this saga at his best **The Piltdown Man Hoax** Dr Miles Russell,2012-05-30 Piltdown Even today the name sends a shiver down the collective spine of the scientific community for this was the most dramatic and daring fraud ever perpetrated upon the world of science and academia Between 1908 and 1912 a series of amazing discoveries relating to what appeared to be the earliest human were made close to the little village of Piltdown in Sussex These remains belonged to the developmental missing link between man and ape The basic principles of evolution first propounded by Charles Darwin some fifty years before now appeared as indisputable fact The Manchester Guardian ran the first headline THE EARLIEST MAN REMARKABLE DISCOVERY IN SUSSEX A SKULL MILLIONS OF YEARS OLD it screamed adding that the discovery was one of the most important of our time The news spread quickly around the world with many voicing their eagerness to examine the find Few archaeological discoveries have the capacity to be front page news twice over but Piltdown Man is a rare exception Forty one years after he first became famous the Earliest Englishman was again hot news It was late November 1953 and the world was about to discover that Piltdown Man had been a hoax Not just any hoax mind the London Star declared it to be THE BIGGEST SCIENTIFIC HOAX OF THE CENTURY *The Skeptic Encyclopedia of Pseudoscience* Michael Shermer,2002-11-14 A thorough objective and balanced analysis of the most

prominent controversies made in the name of science from the effectiveness of proposed medical treatments to the reality of supernatural claims Edited by Michael Shermer editor and publisher of The Skeptic magazine this truly unique work provides a comprehensive introduction to the most prominent pseudoscientific claims made in the name of science Covering the popular the academic and the bizarre the encyclopedia includes everything from alien abductions to the Bermuda Triangle crop circles Feng Shui and near death experiences Fifty nine brief descriptive summaries and 23 investigations from The Skeptic magazine give skeptical analyses of subjects as far ranging as acupuncture chiropractic and Atlantis The encyclopedia also gives for and against debates on topics such as evolutionary psychology and case studies on topics like police psychics and the medical intuitive Carolyn Myss Finally the volumes include five classic works in the history of science and pseudoscience including the speech William Jennings Bryan never delivered in the Scopes trial and the first scientific and skeptical investigation of a paranormal spiritual phenomenon by Benjamin Franklin and Antoine Lavoisier
