H. Hacsí, 2002-08-07 Modern science has placed before us a vast and ancient universe one said to contain a billion trillion stars clustered in a hundred billion galaxies and to be thirteen billion years old Our earthly home we are told is a tiny chunk of matter randomly formed revolving around a mediocre star in the outlying reaches of an unspectacular galaxy Life on earth developed by

chance We are the end result of a series of accidents This scientific Story of Creation though finely detailed isn't based on cold hard fact Scientists proclaim without a shred of proof that the laws of nature remain constant through both time and space Upon this rock they build their world This scientific premise cannot be proved It must be taken on faith This book dismisses the scientific premise and explains the universe based on an equally unprovable premise That we are created in the image of our creator and create the material world in our image It then sets out to prove that the universe is not a vast ancient place ruled by chance but rather exists as a reflection or shadow or mirror image of us

THE PROCESS OF DYING AND OUR JOURNEY BEYOND Dieter G. Gedeik, 2022-03-02 THE PROCESS OF DYING AND OUR JOURNEY BEYOND What really happens when we shed our physical body By Dieter G Gedeik Why should you care What would you do if your manager at work tells you that she is sending you to a foreign country next month to open a new branch Would you immediately start preparing for this Would you quickly check on Visa and inoculation requirements transportation currency prices local labor laws housing etc Of course you would Whether you shed your physical body tomorrow or in 60 years you will go to a place you might right now know little about This book sheds some badly needed light on what really happens to various types of people as they discard their physical bodies and their journey through the astral and mental planes until all that is good merges into the Soul Look at the book's content page for the many topics addressed in this important writing For two thousand years the Westerner has relied solely upon his faith in Christian teachings that man survives beyond the grave For many of us the words Faith and Believe are no longer good enough They imply not knowing whereas younger people born into the age of Aquarius demand to know and to experience The search for the purpose of life and the very important subject of life after death has been with the author since the age of nine Much research was done and plenty of personal experience recalled to make this little book possible May this information encourage you to research further and bring desperately needed Light and Love to this planet
