Excerpt from *The Poetic Mind* Some of the principles presented in this book are new This I acknowledge with misgiving for in a subject as old as poetry where orthodox views are particularly apt to be sound novelty is not a recommendation Fortunately most of the principles are old and all I hope rest on old foundations Indeed I have tried to return to and develop classical views of poetry which are now somewhat out of vogue In the main then old principles at most receive new interpretation and relation A discussion even of the present length dealing with many aspects of the large subject of poetry must be somewhat superficial It would have been easier and more satisfying to completeness to apply the principles herein developed to one or two divisions of the subject I have thought it better to carry them through several and apply them to poetry in most of its important aspects with the prefatory statement however that the treatment is introductory and provisional Each chapter invites correction and also demands development Some chapters I hope may lead to more thorough and sagacious inquiries The subject undertaken the operation of the poet's mind is fortunately not quite so broad as poetry itself This limitation however is counterbalanced by its lying halfway between two provinces literature on the one hand and psychology on the other Evidently its treatment calls for a special psychological training to which I cannot pretend as will no doubt sufficiently appear The subject as a whole so far as I know has not been attempted by the psychologists perhaps it is a field in which they wisely fear to tread In what follows a literary treatment is hazarded which may in the end I hope prove helpful to psychology Evidently the subject must be approached from both sides About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Creativity and the Poetic Mind Jean Tobin, 2004 *Creativity and the Poetic Mind* mingles the voices of well known writers such as Nikki Giovanni Donald Hall John Koethe Marge Piercy and Robert Pinsky with newer voices and includes engaging excerpts from interviews with thirty eight American poets Within a sustained argument about creative states of mind this book innovatively presents and explores the technique of going to the place as more reliable in writing poetry than waiting for inspiration It explains why poets frequently believe that talking about their own poetry may damage their creativity and why for centuries inspiration has seemed to come from somewhere beyond the poet In addition it discusses the practicality of poets thinking that being creative and writing poetry are two separate skills inspiration is unreliable but experienced poets create daily
