A Handbook for International Students has been completely revised to help students reach this goal. The units are clearly organised to allow teachers and students find the help they need with writing tasks while cross referencing allows easy access to relevant sections. In the first part each stage of the writing process is demonstrated and practised from selecting suitable sources, reading, note making and planning through to re writing and proof reading. The fourth edition of this popular course builds on the success of the earlier editions and has a special focus on the vital topic of academic vocabulary in part three Vocabulary for Writing. Part three deals with areas such as nouns and adjectives, adverbs and verbs, synonyms, prefixes and prepositions in an academic context. More key features of the book include: All elements of writing are clearly explained with a full glossary for reference. Models provided for all types of academic texts: essays, reports, reviews and case studies. Full range of practice exercises with answer key included. Use of authentic academic texts. A companion website offers further practice with a range of additional exercises. Fully updated with sections on finding electronic sources and evaluating internet material.
