## **The Primitive:**

*The 'Soul' of the Primitive* Lucien Lévy-Bruhl, 2023-07-07 The object of this book first published in 1928 is a study of the ways in which those who were once called primitives conceive of their own individuality The author inquires into the notions they possess of their life principle their soul and their personality often encountering that many peoples only had pre notions of such concepts In Search of the Primitive Stanley Diamond, 2017-06-21 Anthropology is a kind of debate between human possibilities a dialectical movement between the anthropologist as a modern man and the primitive peoples he studies In Search of the Primitive is a tough minded book containing chapters ranging from encounters in the field to essays on the nature of law schizophrenia and civilization and the evolution of the work of Claude Lévi Strauss Above all it is reflective and self critical critical of the discipline of anthropology and of the civilization that produced that discipline Diamond views the anthropologist who refuses to become a searching critic of his own civilizations as not merely irresponsible but a tool of Western civilization He rejects the associations which have been made in the ideology of our civilization consciously or unconsciously between Western dominance and progress imperialism and evolution evolution and progress **The Primitive Methodist Magazine** , 1858 Essay on the Nature and Perpetuity of the Office of the Primitive Evangelist David Douglas, 2025-08-02 Reprint of the original first published in 1838 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *The Primitive Church (or Baptist) Magazine* , 1858 The Primitive Church Magazine , 1851 **Primitivism and Twentieth-century Art** Jack D. Flam, Miriam Deutch, 2003 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less

known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa* **Architecture and Civilization** Michael H. Mitias,1999 **Handbook of Contemporary Behavioral**

**Economics** Morris Altman, Offering the comprehensive articulation of behavioral economics theory this book includes coverage of critical areas such as the Economic Agent Context and Modeling Decision Making Experiments and Implications Labor Issues Household and Family Issues Life and Death Taxation Ethical Investment and Tipping and more **Dictionary of Stem Cells, Regenerative Medicine, and Translational Medicine** Frank J. Dye,2017-02-15 Stem cells regenerative medicine and translational medicine are all areas of burgeoning basic research and clinical application This dictionary includes the fundamental terminology of each of these areas the major discoveries and significant scientists that comprise the history and current development of the field as well as a number of concepts The vocabulary is presented within the broader lexicon of developmental biology and embryology which provides context for these three fields Topics covered range from stem cells embryonic adult and iPSCs to teratology The inclusion of extensive cross referencing of the terms will enable readers to broaden their understanding of them The Dictionary of Stem Cells Regenerative Medicine and Translational Medicine will provide both the basic background terminology needed by pre health professions biology major undergraduate students and early stage graduate students as well as being a valuable reference for university professors researchers and peers in related disciplines
