The Principles of Aesthetics Dewitt H. Parker, 2023-03-16 Dewitt H. Parker (1885–1949) was a professor of philosophy at the University of Michigan. Appointed department chair in 1929, Parker published works on metaphysics, aesthetics, and ethics. Aesthetics is a branch of philosophy that deals with the nature of beauty and taste as well as the philosophy of art, its own area of philosophy that comes out of aesthetics. It examines aesthetic values often expressed through judgments of taste. Aesthetics covers both natural and artificial sources of experiences and how we form a judgment about those sources. It considers what happens in our minds when we engage with objects or environments such as viewing visual art, listening to music, reading poetry, experiencing a play, watching a fashion show, movie, sports, or even exploring various aspects of nature.

The Principles of Aesthetics DeWitt H Parker, 2020-02-05 The physiological reactions evoked by them are important for our purpose only so far as they help us to understand the inner experiences with which they are correlated A large part of our work therefore will consist in the psychological analysis of the experience of art and the motives underlying its production We shall have to distinguish the elements of mind that enter into it show their interrelations and differentiate the total experience from other types of experience Since moreover art is a social phenomenon we shall have to draw upon our knowledge of social psychology to illumine our analysis of the individual's experience Art is a historical even a technical development hence the personal enjoyment of beauty itself is conditioned by factors that spring from the traditions of groups of artists and art lovers No one can understand his pleasure in beauty apart from the pleasure of others
