Handbook of Research on Serious Games as Educational, Business and Research Tools Cruz-Cunha, Maria Manuela,2012-02-29 This book presents research on the most recent technological developments in all fields of knowledge or disciplines of computer games development including planning design development marketing business management users and behavior Provided by publisher Character Is Capital Judy Hilkey,2000-11-09 In late nineteenth century America a new type of book became commonplace in millions of homes across the country Volumes sporting such titles as The Way to

Win and Onward to Fame and Fortune promised to show young men how to succeed in life But despite their upbeat titles success manuals offered neither practical business advice nor a simple celebration of the American Dream Instead as Judy Hilkey reveals they presented a dire picture of an uncertain new age portraying life in the newly industrialized nation as a brutal struggle for survival but arguing that adherence to old fashioned virtues enabled any determined man to succeed Hilkey offers a cultural history of success manuals and the industry that produced and marketed them She examines the books appearance iconography and intended audience primarily native born rural and small town men of modest means and education and explores the genre s use of gendered language to equate manhood with success femininity with failure Ultimately argues Hilkey by articulating a worldview that helped legitimate the new social order to those most threatened by it success manuals urged readers to accommodate themselves to the demands of life in the industrial age Su Friedrich Barbara Mennel,2023-09-05 Auteurism expanded With acclaimed films like Sink or Swim and The Odds of Recovery Su Friedrich s body of work stands at the forefront of avant garde and Queer cinema Barbara Mennel examines the career of an experimental auteur whose merger of technical innovation and political critique connects with both cinephiles and activists Friedrich s integration of cinematic experimentation with lesbian advocacy serves as a beginning rather than an end point of analysis With that in mind Mennel provides an essential overview of the filmmaker s oeuvre while highlighting the defining characteristics of her artistic and political signature She also situates Friedrich within the cultural political and historical contexts that both shape the films and are shaped by them Finally Mennel expands our notion of auteurism to include directors who engage in collaborative and creative processes rooted in communities Sink Or Swim Dereen Taylor,2008 It s William and Hattie s first time in the big pool William isn t sure he s ready he s worried he might sink to the bottom Hattie is a really good swimmer but then Hattie is really good at just about everything But sometimes it doesn t do to be too clever

Career Creativity Maury Peiperl, Michael Bernard Arthur, N. Anand, 2002 Careers are changing a simple linear development is now rare People need to be creative about their careers and society needs to generate creativity from its work arrangements Many believe that the so called creative industries media high tech IT etc offer a model for likely working patterns and career development in the future In this book leading experts from ten countries look at the dual meaning of Career Creativity to explore both the creativity in people s career behavior and the concomitant creative development of the institutions of work and society The book s four sections address the observation of creative careers the enactment of careers within the social structure the shape of careers in what have traditionally been seen as creative industries and the role that careers play in the creation of industries The chapters cover a diverse range of issues and perspectives such as knowledge intensive workers paths to creativity the career metaphor transformation and adversity in creative lives the pursuit of international assignments and the consequences of career mobility They draw from a number of different employment sectors including high technology craft work film making country music biotechnology and open source software Su Friedrich Sonia Misra, Rox Samer, 2022-03-08 Su Friedrich b 1954 has been described as an autobiographical filmmaker an experimental filmmaker a documentary filmmaker an independent filmmaker a feminist filmmaker and a lesbian filmmaker labels that she sprucely dodges insisting time and again she is quite simply a filmmaker Nevertheless the influences of the experimental film culture and of the feminist and lesbian political ethos out of which she emerged resonate across her films to the present day Su Friedrich Interviews is the first volume dedicated exclusively to Friedrich and her work The interviews collected here highlight the historical theoretical political and economic dimensions through which Friedrich s films gain

their unique and defiantly ambiguous identity The collection seeks to give a comprehensive view of Friedrich s diverse body of work the conditions in which her films were made and how they have circulated and become understood within different contexts The volume contains fifteen interviews two previously unpublished along with three autobiographical writings by Friedrich Included are canonical early interviews but a special focus is given to interviews that address her less studied film production in the twenty first century Echoing across these various pieces is Friedrich s charmingly sardonic and defiant personality familiar from her films Her occasional resistance to an interviewer s line of questioning opens up other unexpected lines of inquiry as it also provides insight into her distinct philosophy The volume closes with a new interview conducted by the editors which illuminates areas that remain latent or underdiscussed in other interviews including Friedrich s work as a film professor and projects that supplement Friedrich s filmmaking such as Edited By an online historical resource dedicated to collecting information about and honoring the contributions of women film editors
