accessible guide to literature available **Sisters in Literature** M. Hirai,1998-03-01 A unique study of how novels by Lawrence Forster and George Eliot can be read as rewritings of Sophocles's Antigone each is presented as a socially and sexually involving argument between two sisters The author provides an interconnected case study where each text works on the hidden meanings of the other Female sexuality expressed through the language of duality vulnerability frustration submission and destructivity consummation and rebirth becomes an ideal vehicle for crossing the barriers between sexes and between societies as between the texts themselves **Literature** ,1900 **Sisters** Ada Cambridge,2022-06-03 In the engaging narrative *Sisters* Ada Cambridge explores the nuanced interplay between love marriage and societal expectations in 19th century Australia Through her portrayal of four young women and the intermittent presence of Guthrie Carey a young sailor Cambridge meticulously dissects and challenges the social values of her time The literary style of the novel is characterized by its incisive examination of pride prejudice and class consciousness as well as the complex emotional lives of her characters Cambridge's work confidently situates itself within the broader context of Australian colonial literature while also contributing to the global discourse on gender roles and the institution of marriage The author Ada Cambridge was a significant literary figure in colonial Australia her works offering a critical perspective on the social fabric of the time It is likely that Cambridge's own experiences and observations as an English expatriate in Australia informed the novel's thematic concerns *Sisters* emerges as a reflection of her astute understanding of the challenges faced by women in a patriarchal society where autonomy and personal happiness frequently collide with rigid social constructs *Sisters* is a compelling read for those interested in feminist literature Australian history or the study of 19th century social mores Cambridge's narrative invites the reader to contemplate the often painful dichotomy between societal expectation and personal desire This novel stands as a testimonial to the transformative power of literature to both reflect and question the norms of its era making it a valuable addition to the corpus of classic Australian literature and an enlightening read for contemporary audiences

Touch, Sexuality, and Hands in British Literature, 1740-1901 Kimberly Cox,2021-09-05 From Robert Lovelace's uninvited hand grasps in Samuel Richardson's *Clarissa* to Basil Hallward's first encounter with Dorian Gray literary depictions of touching hands in British literature from the 1740s to the 1890s communicate emotional dimensions of sexual experience that reflect shifting cultural norms associated with gender roles sexuality and sexual expression But what is the relationship between hands tactility and sexuality in Victorian literature And how do we best interpret what those touches communicate between characters This volume addresses these questions by asserting a connection between the prevalence of violent sexually charged touches in eighteenth century novels such as those by Eliza Haywood Samuel Richardson and Frances Burney and growing public concern over handshake etiquette in the nineteenth century evident in works by Jane Austen the Brontës George Eliot Elizabeth Gaskell Thomas Hardy Oscar Wilde and Flora Annie Steel This book takes an interdisciplinary approach that combines literary analysis with close analyses of paintings musical compositions and

nonfictional texts such as etiquette books and scientific treatises to make a case for the significance of tactility to eighteenth and nineteenth century perceptions of selfhood and sexuality In doing so it draws attention to the communicative nature of skin to skin contact as represented in literature and traces a trajectory of meaning from the forceful grips that violate female characters in eighteenth century novels to the consensual embraces common in Victorian and neo Victorian literature
