**Constructing the Stalinist Body** Keith A. Livers, 2009-02-16 Constructing the Stalinist Body brings together contemporary body theory with studies on Stalinist ideology and cultural mythology in order to elucidate the complex problem of individual authorship within the context of Stalinist ideology of the 1930s and 40s. Author Keith A. Livers examines the ways in which Andrei Platonov Mikhail Zoshchenko Lev Kassil and other authors used corporeal imagery as a means of both resisting and furthering the idea of a Stalinist utopia and the ideologically purified body politic it aspired to produce. The final chapter of the book looks at collective and popular representations of the Moscow subway completed in 1935 which was one of the most important construction projects of the 1930s and was at the same time portrayed as a microcosm of the ideal world of Socialism to come

**Letters to Véra** Vladimir Nabokov, 2015-11-03 No marriage of a major twentieth century writer is quite as beguiling as that of Vladimir Nabokov's to Vera Slonim. She shared his delight at the enchantment of life's trifles and literature's treasures and he rated her as having the best and quickest sense of humor of any woman he had met. From their first encounter in 1923 Vladimir's letters to Vera chronicle a half century long love story, one that is playful, romantic and memorable. At the same time the letters reveal much about their author. We see the infectious fascination with which Vladimir observed everything: animals, people, speech, landscapes and cityscapes, and glimpse his ceaseless work on his poems, plays, stories, novels, memoirs, screenplays and translations. This delightful volume is enhanced by twenty-one photographs as well as facsimiles of the letters and the puzzles and drawings Vladimir often sent to Vera. With 8 pages of photographs and 47 illustrations in text.

*Bakhtin and cultural theory* Ken Hirschkop, David Shepherd, 2024-06-04 An important collection of essays which treats Bakhtin as a provocative theorist whose work must be tested, explored and compared with the work of others. Contributors assess Bakhtin's contribution to difficult issues of colonialism, feminism, reception theory and theories of the body amongst others. New articles explore the origins previously unacknowledged of Bakhtin's theory of language and provide a vivid account of the dramatic scandal surrounding Bakhtin's thesis on Rabelais. Contains dramatic new material drawn from post-perestroika sources which demythologizes the image of this important writer. A new bibliographical essay and introduction bring the English language reader up to date with the progress of Bakhtin studies in Russia

*Self and Story in Russian History* Laura Engelstein, Stephanie Sandler, 2018-08-06 Russians have often been characterized as people with souls rather than selves. *Self and Story in Russian History* challenges the portrayal of the Russian character as selfless, self-effacing or self-torturing by exploring the texts through which Russians have defined themselves as private persons and shaped their relation to the cultural community. The stories of self under consideration here reflect the perspectives of men and women from the

last two hundred years ranging from westernized nobles to simple peasants from such famous people as Tolstoy Dostoyevsky Akhmatova and Nicholas II to lowly religious sectarians Fifteen distinguished historians and literary scholars situate the narratives of self in their historical context and show how since the eighteenth century Russians have used expressive genres including diaries novels medical case studies films letters and theater to make political and moral statements The first book to examine the narration of self as idea and ideal in Russia this vital work contemplates the shifting historical manifestations of identity the strategies of self creation and the diversity of narrative forms Its authors establish that there is a history of the individual in Russian culture roughly analogous to the one associated with the West
