The First Five Years of Teaching Mathematics (FIRSTMATH) Maria Teresa Tatto, Michael C. Rodriguez, Mark D. Reckase, Wendy M. Smith, Kiril Bankov, James Pippin, 2020-04-24 This book reports on an innovative study into the first five years of mathematics teaching FIRSTMATH For the first time the study has developed a viable methodology to analyze the knowledge skills and dispositions of beginning mathematics teachers as well as instruments to explore the contexts where they work The book provides a step by step account of this exploratory proof of concept research study using a comparative and international approach and introduces readers to the challenges entailed The FIRSTMATH study promises the development of methods and strategies to make it possible for teacher educators and future teachers to examine and improve on their own practices in an important STEM area

The Handbook of Mathematics Teacher Education: Volume 1

,2008-01-01 The Handbook of Mathematics Teacher Education the first of its kind addresses the learning of mathematics teachers at all levels of schooling to teach mathematics and the provision of activity and programmes in which this learning can take place It consists of four volumes VOLUME 1 Knowledge and Beliefs in Mathematics Teaching and Teaching Development addresses the what of mathematics teacher education meaning knowledge for mathematics teaching and teaching development and consideration of associated beliefs As well as synthesizing research and practice over various dimensions of these issues it offers advice on best practice for teacher educators university decision makers and those involved in systemic policy development on teacher education **A Practice-based Model of STEM Teaching** Alpaslan

Sahin,2015-07-21 The STEM Students on the Stage SOS TM model was developed by Harmony Public Schools with the goal of teaching rigorous content in an engaging fun and effective way In this book you will learn that the STEM SOS model is not only helping students learn STEM content and develop 21st century skills but also helping teachers improve their classroom climate through increased student teacher communication and a reduction in classroom management issues There are at least two ways in which this book is innovative First you will find student videos and websites associated with QR codes readers can use their QR readers to watch student videos related to the content in the chapter and see student e portfolio samples at their Google sites This provides the opportunity to see that what is discussed in the book actually happened Second the book is not about a theory it is an actual implemented model that has evolved through the years and has been used in more than 25 schools since 2012 Every year the model continues to be improved to increase its rigor and ease of implementation for both teachers and students In addition to using the book as a classroom teacher resource and guide it can also be used as a textbook in advanced graduate level curriculum and instruction educational leadership and STEM education programs Therefore STEM educators leaders pre service and in service teachers and graduate students will all benefit from reading this book Appendices will be one of the favorite aspects of this book for teachers who are constantly looking for ready to use student and teacher handouts and activities Full handouts including formative and summative assessments materials and grading rubrics will provide an opportunity for teachers and curriculum directors to understand the ideas and secrets behind the STEM SOS model Lastly STEM directors will find this to be one of the best STEM teaching model examples on the market because the model has fully accessible student and teacher handouts assessment materials rubrics and hundreds of student products e portfolios including video presentations and project brochures online Social Interaction and Teacher Cognition Li Li,2017-02-06 Investigates language teachers thoughts beliefs and knowledge through the lens of social interaction In the past decade there has been a surge of interest in the study of language teacher cognition what language teachers know think and believe and of its relationship to teachers classroom practices Social Interaction and Teacher Cognition is the first book to use a discursive psychological perspective to examine teacher cognitions Informed by conversation analysis CA the book offers a close examination of cognition in interaction in three distinctive aspects learning

to teach novice and expert teachers cognition and interactive decision making The book views cognition as a socially constructed and contextual process and treats interaction as a framework that deals with psychological matters in a public and visible way It will be of particular relevance to those researching teacher cognition in EFL contexts and will appeal to anyone interested in the study of classroom interaction Features a three part structure of survey analysis and application Takes a discursive psychological approach to teacher cognitions Uses conversation analysis to examine cognition in interaction Provides detailed examples of language in interaction in EFL contexts *From beliefs to dynamic affect systems in mathematics education* Birgit Pepin,Bettina Roesken-Winter,2014-10-21 This book connects seminal work in affect research and moves forward to provide a developing perspective on affect as the decisive variable of the mathematics classroom In particular the book contributes and investigates new conceptual frameworks and new methodological tools in affect research and introduces the new field of collectives to explore affect systems in diverse settings Investigated by internationally renowned scholars the book is build up in three dimensions The first part of the book provides an overview of selected theoretical frames theoretical lenses to study the mosaic of relationships and interactions in the field of affect In the second part the theory is enriched by empirical research studies and provides relevant findings in terms of developing deeper understandings of individuals and collectives affective systems in mathematics education Here pupil and teacher beliefs and affect systems are examined more closely The final part investigates the methodological tools used and needed in affect research How can the different methodological designs contribute data which help us to develop better understandings of teachers and pupils affect systems for teaching and learning mathematics and in which ways are knowledge and affect related **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1973 *International Handbook of Mathematics Teacher Education: Volume 3* ,2019-12-09 This second edition of the International Handbook of Mathematics Teacher Education builds on and extends the topics ideas in the first edition while maintaining the themes for each of the volumes Collectively the authors looked back beyond and within the last 10 years to establish the state of the art and continuing and new trends in mathematics teacher and mathematics teacher educator education and looked forward regarding possible avenues for teachers teacher educators researchers and policy makers to consider to enhance and or further investigate mathematics teacher and teacher educator learning and practice in particular The volume editors provide introductions to each volume that highlight the subthemes used to group related chapters which offer meaningful lenses to see important connections within and across chapters Readers can also use these subthemes to make connections across the four volumes which although presented separately include topics that have relevance across them since they are all situated in the common focus regarding mathematics teachers Volume 3 Participants in Mathematics Teacher Education focuses not only on prospective and practicing teachers as learners but also on school colleagues teacher educators researchers and others who work to provide effective learning opportunities for teachers The emphasis is on describing and analysing

participants engagement in mathematics teacher education collaborations and contexts from various perspectives Thus as the third volume in the series it further broadens our understanding of the development of mathematics teachers

Mathematics Teachers at Work Janine T. Remillard, Beth A. Herbel-Eisenmann, Gwendolyn M. Lloyd, 2011-09-20 This book compiles and synthesizes existing research on teachers use of mathematics curriculum materials and the impact of curriculum materials on teaching and teachers with a particular emphasis on but not restricted to those materials developed in the 1990s in response to the NCTM s Principles and Standards for School Mathematics Despite the substantial amount of curriculum development activity over the last 15 years and growing scholarly interest in their use the book represents the first compilation of research on teachers and mathematics curriculum materials and the first volume with this focus in any content area in several decades

Language Teacher Identity in TESOL Bedrettin Yazan, Kristen Lindahl, 2020-04-22 This volume draws on empirical evidence to explore the interplay between language teacher identity LTI and professional learning and instruction in the field of TESOL In doing so it makes a unique contribution to the field of language teacher education By reconceptualizing teacher education teaching and ongoing teacher learning as a continuous context bound process of identity work Language Teacher Identity in TESOL discusses how teacher identity serves as a framework for classroom practice professional and personal growth Divided into five sections the text explores key themes including narratives and writing multimodal spaces race ethnicity and language teacher emotions and teacher educator researcher practices The 15 chapters offer insight into the experiences of preservice teachers in service teachers and teacher educators in global TESOL contexts including Canada Japan Korea Norway Sri Lanka Turkey the United Kingdom and the United States This text will be an ideal resource for researchers academics and scholars interested in furthering their knowledge of concepts grounding LTI as well as teachers and teacher educators seeking to implement identity oriented approaches in their own pedagogical practices
