Advanced Intelligent Computing Technology and Applications De-Shuang Huang,Zhanjun Si,Wei Chen,2024-08-01 This 6 volume set LNAI 14875 14880 constitutes in conjunction with the 13 volume set LNCS 14862 14874 and the 2 volume set LNBI 14881 14882 the refereed proceedings of the 20th International Conference on Intelligent Computing ICIC 2024 held in Tianjin China during August 5 8 2024 The total of 863 regular papers were carefully reviewed and selected from 2189 submissions The intelligent computing annual conference primarily aims to promote research development and application of advanced intelligent computing techniques by providing a vibrant and effective forum across a variety of disciplines This conference has a further aim of increasing the awareness of industry of advanced intelligent computing techniques and the economic benefits that can be gained by implementing them The intelligent computing technology includes a range of techniques such as Artificial Intelligence Pattern Recognition Evolutionary Computing Informatics Theories and Applications Computational Neuroscience Bioscience Soft Computing Human Computer Interface Issues etc   Image and Graphics Yuxin Peng,Shi-Min Hu,Moncef Gabbouj,Kun Zhou,Michael Elad,Kun Xu,2021-09-30 This three volume set LNCS 12888 12898 and 12890 constitutes the refereed conference proceedings of the 11th International Conference on Image and Graphics ICIG 2021 held in Haikou China in August 2021 The 198 full papers presented were selected from 421 submissions and focus on advances of theory techniques and algorithms as well as innovative technologies of image video and graphics processing and fostering innovation entrepreneurship and networking The conference was postponed due to the COVID 19 pandemic   Advances and Applications in SmartRail, Traffic, and Transportation Engineering Limin Jia,Yanhui Wang,Said Easa,2025-08-19 This book is a collection of the original peer reviewed conference papers presented at the 2024 2nd International Conference on SmartRail Traffic and Transportation Engineering organized by Chongqing Jiaotong University and Southwest Jiaotong University The conference will be held on 25 27 October 2024 in Chongqing China It covers topics including SmartRail systems autonomous vehicles energy efficiency sustainable transportation big data in transportation and machine learning Speakers discussed innovative technologies and strategies to improve the efficiency reliability and safety of rail networks while exploring the opportunities and challenges of integrating autonomous vehicles into existing transportation networks It provides valuable insights into the latest developments and trends in transportation engineering and technology with a focus on electrification and sustainable transportation It serves as a valuable resource for professionals researchers and students working in the field   **Neural Information Processing** Long Cheng,Andrew Chi Sing Leung,Seiichi Ozawa,2018-12-03 The seven volume set of LNCS 11301 11307 constitutes the proceedings of the 25th International Conference on Neural Information Processing ICONIP 2018 held in Siem Reap Cambodia in December 2018 The 401 full papers presented were carefully reviewed and selected from 575 submissions The papers address the emerging topics of theoretical research empirical studies and applications of neural information processing techniques across different

domains The 4th volume LNCS 11304 is organized in topical sections on feature selection clustering classification and detection   International Conference on Electronics and Electrical Engineering ,2014-07-24 All papers including in this proceedings had undergone the strict peer review by the experts before they are accepted for publications This proceeding covers the subjects of analog circuits and digital circuits assembly and packaging biomedical circuits computer architecture computer engineering control engineering electric power system and automation energy and power systems instrumentation engineering signal processing and other related areas We hope this proceeding will contribute in stimulating debate and research among scholars researchers and academicians CEEE 2014 is to provide a forum for researchers academicians engineers and government officials from all over the world to involved in the general areas of Electronics and Electrical Engineering to disseminate their latest research results and exchange views on the future research directions of these fields This conference provides opportunities for the participants to exchange new ideas and application experiences face to face
    Target Search Problems Denis Grebenkov,Ralf Metzler,Gleb Oshanin,2024-12-26 This book presents cutting edge research addressing the mathematical models used to tackle the Target problem as it manifests itself in a wide range of disciplines Leading international experts from around the world describe a variety of different approaches to this truly multidisciplinary topic Recent years have witnessed a substantial and still growing interest in understanding the general Target problem This encompasses a wide range of different situations in which some agents perform a deterministic or stochastic motion to search for a certain immobile or mobile target Such problems arise in many disciplines to name but a few computer science the evolution of stock markets biochemistry bio medicine evolutionary games as well as diverse areas of physics This book with its up to date collection of chapters authored by leading experts in these and other fields provides a comprehensive and complete picture in broadlyaccessible language The book will naturally serve as a source of inspiration for further research as well as facilitating a cross fertilization of approaches ideas and research directions   *Advances in Guidance, Navigation and Control* Liang Yan,Haibin Duan,Yimin Deng,2025-03-03 This book features the latest theoretical results and techniques in the field of guidance navigation and control GNC of vehicles and aircrafts It covers a wide range of topics including but not limited to intelligent computing communication and control new methods of navigation estimation and tracking control of multiple moving objects manned and autonomous unmanned systems guidance navigation and control of miniature aircraft and sensor systems for guidance navigation and control etc Presenting recent advances in the form of illustrations tables and text it also provides detailed information of a number of the studies to offer readers insights for their own research In addition the book addresses fundamental concepts and studies in the development of GNC making it a valuable resource for both beginners and researchers wanting to further their understanding of guidance navigation and control   **Vision Models For Target Detection And Recognition - In Memory Of Arthur Menendez** Eli Peli,1995-05-31 This book is an international collection of contributions from academia industry and the armed forces It

addresses current and emerging Spatial Vision Models and their application to the understanding prediction and evaluation of the tasks of target detection and recognition The discussion in many of the chapters is framed in terms of military targets and military vision aids However the techniques analyses and problems are by no means limited to this area of application The detection and recognition of an armored vehicle from a reconnaissance image are performed by the same visual system used to detect and recognize a tumor in an X ray The analysis of the interaction of the human visual system with night vision devices is not different from the analysis needed in the case of an operator examining structures using a remote endoscopic camera etc The book is organized into three general sections The first covers basic modeling of central foveal vision and its theoretical background The second is centered on the evaluation of model performance in applications while the third is dedicated to aspects of peripheral vision modeling and the expansion of peripheral modeling to include visual search

Group-target Tracking Wen-dong Geng,Yuan-qin Wang,Zheng-hong Dong,2016-10-01 This book describes grouping detection and initiation group initiation algorithm based on geometry center data association and track continuity as well as separate detection and situation cognition for group target It specifies the tracking of the target in different quantities and densities At the same time it integrates cognition into the application Group target Tracking is designed as a book for advanced level students and researchers in the area of radar systems information fusion of multi sensors and electronic countermeasures It is also a valuable reference resource for professionals working in this field **Image and Graphics** Yao Zhao,Xiangwei Kong,David Taubman,2017-12-29 This three volume set LNCS 10666 10667 and 10668 constitutes the refereed conference proceedings of the 9thInternational Conference on Image and Graphics ICIG 2017 held in Shanghai China in September 2017 The 172 full papers were selected from 370 submissions and focus on advances of theory techniques and algorithms as well as innovative technologies of image video and graphics processing and fostering innovation entrepreneurship and networking **Swarm Robotics** Erol Sahin,William M. Spears,Alan F.T. Winfield,2007-07-21 This book constitutes the thoroughly refereed post proceedings of the 2nd SAB 2006 International Workshop on Swarm Robotics held in Rome Italy in September October 2006 as a satellite event of SAB 2006 the 9th Conference on Simulation of Adaptive Behavior The 14 revised full papers are organized in topical sections on algorithms modeling and analysis hardware and evolutionary approaches **Pattern Recognition and Computer Vision** Zhouchen Lin,Ming-Ming Cheng,Ran He,Kurban Ubul,Wushouer Silamu,Hongbin Zha,Jie Zhou,Cheng-Lin Liu,2024-10-31 This 15 volume set LNCS 15031 15045 constitutes the refereed proceedings of the 7th Chinese Conference on Pattern Recognition and Computer Vision PRCV 2024 held in Urumqi China during October 18 20 2024 The 579 full papers presented were carefully reviewed and selected from 1526 submissions The papers cover various topics in the broad areas of pattern recognition and computer vision including machine learning pattern classification and cluster analysis neural network and deep learning low level vision and image processing object detection and recognition 3D vision and reconstruction action

   Introduction to Radar Target Recognition P. Tait,2005 This book text provides an overview of the radar target recognition process and covers the key techniques being developed for operational systems It is based on the fundamental scientific principles of high resolution radar and explains how the underlying techniques can be used in real systems taking into account the characteristics of practical radar system designs and component limitations It also addresses operational aspects such as how high resolution modes would fit in with other functions such as detection and tracking   *Wireless Mobile Communication and Healthcare* Xinbo Gao,Abbas Jamalipour,Lei Guo,2022-06-06 This book constitutes the refereed post conference proceedings of the 10th International Conference on Mobile Communication and Healthcare MobiHealth 2021 held in November 2021 Due to Covid 19 pandemic the conference was held virtually   *Pattern Recognition and Computer Vision* Huimin Ma,Liang Wang,Changshui Zhang,Fei Wu,Tieniu Tan,Yaonan Wang,Jianhuang Lai,Yao Zhao,2021-10-22 The 4 volume set LNCS 13019 13020 13021 and 13022 constitutes the refereed proceedings of the 4th Chinese Conference on Pattern Recognition and Computer Vision PRCV 2021 held in Beijing China in October November 2021 The 201 full papers presented were carefully reviewed and selected from 513 submissions The papers have been organized in the following topical sections Object Detection Tracking and Recognition Computer Vision Theories and Applications Multimedia Processing and Analysis Low level Vision and Image Processing Biomedical Image Processing and Analysis Machine Learning Neural Network and Deep Learning and New Advances in Visual Perception and Understanding

   Advances in Swarm Intelligence Ying Tan,Yuhui Shi,Wenjian Luo,2023-07-07 This two volume set LNCS 13968 and 13969 constitutes the proceedings of the 14th International Conference on Advances in Swarm Intelligence ICSI 2023 which

took place in Shenzhen China China in July 2023 The theme of this year s conference was Serving Life with Swarm Intelligence The 81 full papers presented were carefully reviewed and selected from 170 submissions The papers are organized into 12 cohesive sections covering major topics of swarm intelligence research and its development and applications The papers of the second part cover topics such as Swarm Robotics and UAV Machine Learning Data Mining Routing and Scheduling Problems Stock Prediction and Portfolio Optimization ICSI Optimization Competition

The Enigmatic Realm of **Small Target**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Small Target Introduction

In todays digital age, the availability of Small Target books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Small Target books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Small Target books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Small Target versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Small Target books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Small Target books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Small Target books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many

universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Small Target books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Small Target books and manuals for download and embark on your journey of knowledge?
