Excerpt from Smithsonian Meteorological Tables To Prof Wm Libbey ir especial acknowledgments are due for a Large
amount of attention given to the present work Prof Libbey had already completed a revision involving considerable
recomputation of the meteorological tables contained in the last edition of Guyot s Tables when it was determined to adopt
new values for many of the constants and to have the present volume set with new type This involved a large amount of new
computation which was placed under the direction of Mr George E Curtis who has also written the text and has carefully
prepared the whole manuscript and carried it through the press To Mr Curtis s interest and to his special experi ence as a
meteorologist the present volume is therefore largely due Prof Libbey has contributed Tables 38 39 55 56 61 74 77 89 and 90

and has also read the proof sheets of the entire work About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
