Smugglers Secessionists Loyal Citizens On The Ghana Togo Frontier Western African Studies:

Smugglers, Secessionists & Loyal Citizens on the Ghana-Toga Frontier Paul Nugent, 2002 *Smugglers, Secessionists & Loyal Citizens on the Ghana-Toga Frontier* Paul Nugent, 2002 **Securitising Decolonisation** Julius Heise, 2024-05-23 With the right to petition the United Nations the Ewe and Togoland unification movement enjoyed a privilege unmatched by other dependent peoples Using language conveying insecurity the movement seized the international spotlight ensuring that the topic of unification dominated the UN Trusteeship System for over a decade Yet its vociferous securitisations fell silent due to colonial distortion leaving unification unfulfilled thus allowing the seeds of secessionist conflict to grow At the intersection of postcolonial theory and security studies Julius Heise presents a theory driven history of Togoland's path to independence offering a crucial lesson for international statebuilding efforts **Smugglers and States** Max Gallien, 2024-02-27 Winner 2025 Theodore J Lowi First Book Award International Political Science Association American Political Science Association Smuggling is typically thought of as furtive and hidden taking place under the radar and beyond the reach of the state But in many cases governments tacitly permit illicit cross border commerce or even devise informal arrangements to regulate it Drawing on extensive fieldwork in the borderlands of Tunisia and Morocco Max Gallien explains why states have long tolerated illegal trade across their borders and develops new ways to understand the political economy of smuggling This book examines the rules and agreements that govern smuggling in North Africa tracing the involvement of states in these practices and their consequences for borderland communities Gallien demonstrates that contrary to common assumptions about the effects of informal economies smuggling can promote both state and social stability States not only turn a blind eye to smuggling they rely on it to secure political acquiescence and maintain order because it provides income for otherwise neglected border communities More recently however the securitization of borders wars political change and the pandemic have put these arrangements under pressure Gallien explores the renegotiation of the role of smuggling showing how stability turns into vulnerability and why some groups have been able to thrive while others have been pushed further to the margins With both rich empirical detail and novel theoretical contributions *Smugglers and States* offers important insights into security and stability in North Africa and the prospects for economic inclusion in a context where many livelihoods exist outside of the law **Slavery and Reform in West Africa** Trevor R. Getz, 2004-04-20 A series of transformations reforms and attempted abolitions of slavery form a core narrative of nineteenth century coastal West Africa As the region's role in Atlantic commercial networks underwent a gradual transition from principally that of slave exporter to producer of legitimate goods and dependent markets institutions of slavery became battlegrounds in which European abolitionism pragmatic colonialism and indigenous agency clashed In *Slavery and Reform in West Africa* Trevor Getz demonstrates that it was largely on the anvil of this issue that French and British policy in West Africa was forged With distant metropolises unable to intervene in daily affairs local European administrators striving to balance abolitionist pressures

against the resistance of politically and economically powerful local slave owners sought ways to satisfy the latter while placating or duping the former. The result was an alliance between colonial officials, company agents and slave owning elites that effectively slowed, sidetracked or undermined serious attempts to reform slave holding. Although slavery was outlawed in both regions in only a few isolated instances did large scale emancipations occur. Under the surface however slaves used the threat of self liberation to reach accommodations that transformed the master slave relationship. By comparing the strategies of colonial administrators, slave owners and slaves across these two regions and throughout the nineteenth century, *Slavery and Reform in West Africa* reveals not only the causes of the astounding success of slave owners but also the factors that could and in some cases did lead to slave liberations. These findings have serious implications for the wider study of slavery and emancipation and for the history of Africa generally.

Boundaries, Communities and State-Making in West Africa Paul Nugent, 2019-06-06 By examining three centuries of history this book shows how vital border regions have been in shaping states and social contracts.

Neoliberal Bandwagonism. Civil society and the politics of belonging in Anglophone Cameroon Piet Konings, 2009 While neoliberals typically view civil society organizations as vital channels for the implementation of economic and political reforms they are also inclined to blame the politics of belonging for the poor record of these reforms. Piet Konings rejects such notions and argues that the relationship between civil society and the politics of belonging is more complex in Africa than Western donors and scholars are inclined to admit. He argues that ethno regional associations and movements are more significant constituents of civil society in Africa than the conventional organizations that are often uncritically imposed or endorsed. He shows how the politics of belonging so pervasive in Cameroon and indeed much of Africa during the current neoliberal economic and political reforms has tended to penetrate the entire range of associational life and he calls for a critical re appraisal of prevalent notions and assumptions about civil society in the interest of African reality.

Violence on the Margins Timothy Raeymaekers, 2013-08-27 This survey of various African and Asian conflicts examines people's experiences on territorial borders and the ways they affect political configurations. By focusing on individuals' routines and daily life these contributions treat borderland dynamics as actual political units with their own actions and outcomes.

Administration and Taxation in Former Portuguese Africa Philip J. Havik, Alexander Keese, Maciel Santos, 2015-06-18 This book addresses a notable gap in the knowledge of Portuguese colonial administration and the policies implemented in the main territories of its third African empire: Angola, Mozambique and Guinea. In recent years the question of colonial taxation has become a topic in the academic debate on colonial empires and has led to a comparative long term focus on its impact in African societies. Given that former Portuguese colonies in Africa have been largely absent from this debate this book

Ethnicity and the Making of History in Northern Ghana Carola Lentz, 2006-07-04 Drawing on two decades of research this social and political history of North Western Ghana traces the creation of new ethnic and territorial boundaries, categories and forms of self understanding and represents a major

contribution to debates on ethnicity colonialism and the production of history It explores the creation and redefinition of ethnic distinctions and commonalities by African and European actors showing that ethnicity's power derives from a contradiction while ethnic identities purport to be non negotiable creating permanent bonds stability and security the boundaries of the communities created and the associated traits and practices are malleable and adaptable to specific interests and contexts

[Border Jumping and Migration Control in Southern Africa](#) Francis Musoni,2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk

the bounded categorizations of state and non state

Dreamland Carly Goodman, 2023-03-13 In a world of border walls and obstacles to migration a lottery where winners can gain permanent residency in the United States sounds too good to be true Just as unlikely is the idea that the United States would make such visas available to foster diversity within a country where systemic racism endures But in 1990 the United States Diversity Visa Lottery was created to do just that Dreamland tells the surprising story of this unlikely government program and its role in American life as well as the global story of migration Historian Carly Goodman takes readers from Washington D C where proponents deployed a colorblind narrative about our nation of immigrants to secure visas for white immigrants to the African countries where it flourished and fostered dreams of going to America From the post office to the internet aspiring emigrants visa agents and others embraced the lottery and tried their luck in a time of austerity and limits Rising African immigration to the United States has enriched American life created opportunities for mobility and nourished imagined possibilities But the promise of the American dream has been threatened by the United States embrace of anti immigrant policies and persistent anti Black racism
