## **So Near And Yet So Far:**

**So Near and Yet So Far** Martin W. Bowman, 2013-06-19 A military history of the British Army's 1st Airborne Division at Arnhem in the Netherlands during World War II This is the second volume in a meticulously researched four part series that provides a comprehensive insight into the aerial exploits at Operation Market Garden in September 1944 In an interesting method of presenting the information the author's arrangement of British American Dutch and German personal narrative interspersed with factual material offers a more personalised view of the war through the eyes of the hard pressed Allied airborne troops who were actually there in the thick of the action They take you steadily through the bitter house to house fighting in Eindhoven Nijmegen and Arnhem and the fanatical attempts to keep open the narrow road to permit XXX Corps to reach and relieve Colonel John Frost's men outnumbered and outgunned at Arnhem Bridge They reveal the frustration and bitter disappointment in the battles of the drop zones the bloody fight for the bridges across the Rhine and the almost suicidal second and third lifts to resupply the troops holding on precariously fighting desperately tenaciously and bravely to prevent their positions being overrun in the face of overwhelming enemy superiority Stories of individual heroism act to humanize this period of wartime history which is often reduced to mere facts Timelines detail the day to day events happening in all areas of the battle both on the ground and in the air and also add weight to the story in hand whilst carefully selected archive images work to supplement the text perfectly

breaking new directions and critical discourse in the field of intercultural theatre and performance while surveying key debates concerning interculturalism as an aesthetic and ethical series of encounters in theatre and performance from the 1960s onwards The handbook's global coverage challenges understandings of intercultural theatre and performance that continue to prioritise case studies emerging primarily from the West and executed by elite artists By building on a growing field of scholarship on intercultural theatre and performance that examines minoritarian and grassroots work the volume offers an alternative and multi vocal view of what interculturalism might offer as a theoretical keyword to the future of theatre and performance studies while also contributing an energized reassessment of the vociferous debates that have long accompanied its critical and practical usage in a performance context By exploring anew what happens when interculturalism and performance intersect as embodied practice The Methuen Drama Handbook of Interculturalism and Performance offers new perspectives on a seminal theoretical concept still as useful as it is controversial Featuring a series of indispensable research tools including a fully annotated bibliography this is the essential scholarly handbook for anyone working in intercultural theatre and performance and performance studies
