The Palgrave Handbook of Contemporary International Political Economy Timothy M. Shaw, Laura C. Mahrenbach, Renu Modi, Xu Yi-chong, 2018-12-19. Published 35 years after Palgrave Macmillan's landmark International Political Economy (IPE) series was first founded, this Handbook captures the state of the art of contemporary IPE. It draws on the series history of focusing on the oft neglected study of the global South. Providing interdisciplinary perspectives from scholars hailing from the global North and South, the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today's ever changing world. This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS but also by diverse global crises and growing cross border challenges. It is a world where human development governance and security are becoming ever more elusive where profoundly altered by the rise of new technologies the structure of relations between nations itself is changing becoming increasingly interconnected both digitally and physically. Understanding these issues is of critical importance to better anticipate current and future global transformations. This Handbook is the ideal primer for all scholars practitioners and policy makers looking to do so.

Inclusive Growth Through Social Capital Formation Christabell P.J., 2016-01-01. Economic growth becomes inclusive when it creates economic opportunities along with ensuring equal access to all people of a nation. The inclusive growth can be achieved by forming social capital which can be defined as the quality and quantity of relationships networks and norms among people and organizations that facilitate collective action. In India micro finance institutions and programmes have adopted numerous innovative ways of providing credit and savings services to the entrepreneurial poor in order to make them financially inclusive. The book looked into the impact of the progress of micro finance in Kerala and further examined how social capital formation among marginalized and vulnerable sections of the society through micro finance helped the poor especially in the context of inclusive growth. The micro finance organisation selected for the purpose of the book is Kudumbashree which is an internationally renowned model operating in the State of Kerala.

Amorado,2007 **Urban Livelihoods, Institutions and Inclusive Governance in Nairobi** Bob Hendriks,2025-10-01 This study formulates conditions for sustainable impacts of inclusive and responsive governance through invited spaces offered by the government and claimed spaces created by the poor The study questions how increased contributions to poverty reduction and improvement of quality of life for Nairobi citizens can be realised in an equitable and responsible way while contributing to development of the city and country To adequately address this two sided objective of economic growth and poverty reduction in the contemporary context the study analyses both processes and impacts moreover it examines impacts in terms of quality of life as well as influence and political rights The study explores the individually claimed spaces of households in Nairobi s slums the collectively claimed spaces of

The Transformation of Capacity in International Development Avidah K. Mayville, 2019-11-30 The Transformation of Capacity in International Development exposes the transformation of capacity within the development discourse through a discursive analysis of USAID projects in Afghanistan and Pakistan between 1977 and 2017 As development agendas increasingly call for human rights approaches to development and the foreign policies of donor states sound alarms over global security threats capacity development has emerged as the solution to the complex problem of development Through this examination of USAID s attempts to build capacity in Afghanistan and Pakistan the book exposes how Western notions of progress constructed by institutions government officials scholars and private sector actors are obscured by the transformation of capacity As agendas are translated into projects they perpetuate historical relationships of global inequality that have corrupted and compete with indigenous models of governance The

Transformation of Capacity in International Development has implications for those considering the future of human rights based approaches to development the international management of global security threats and the sustainability of donor investments Federal Register ,1999-05-13
