William B. Taylor,1979-06-01 This study analyzes the impact of Spanish rule on Indian peasant identity in the late colonial period by investigating three areas of social behavior Based on the criminal trial records and related documents from the regions of central Mexico and Oaxaca it attempts to discover how peasants conceived of their role under Spanish rule how they behaved under various kinds of street and how they felt about their Spanish overlords In examining the character of village uprisings typical relationships between killers and the people they killed and the drinking patterns of the late colonial period the author finds no warrant for the familiar picture of sullen depredation and despair Landed peasants of colonial Mexico drank moderately on the whole and mostly on ritual occasions they killed for personal and not political reasons Only when new Spanish encroachments threatened their lands and livelihoods did their grievances flare up in rebellion and these occasions were numerous but brief The author bolsters his conclusions with illuminating comparisons with other peasant societies      The Magic Lantern José Tomás de Cuéllar,2000 Two renderings of a Mexican society fast unraveling under the mounting influence of European culture Cover

Brusco, 2011-05-18 Protestant evangelicalism has spread rapidly in Latin America at the same time that foreign corporations have taken hold of economies there These concurrent developments have led some observers to view this religious movement as a means of melding converts into a disciplined work force for foreign capitalists rather than as a reflection of conscious individual choices made for a variety of personal as well as economic reasons In this pioneering study Elizabeth Brusco challenges such assumptions and explores the intra household motivations for evangelical conversion in Colombia She shows how the asceticism required of evangelicals no drinking smoking or extramarital sexual relations are allowed redirects male income back into the household thereby raising the living standard of women and children This benefit helps explain the appeal of evangelicalism for women and questions the traditional assumption that organized religion always disadvantages women Brusco also demonstrates how evangelicalism appeals to men by offering an alternative to the more dysfunctional aspects of machismo Case studies add a fascinating human dimension to her findings With the challenges this book poses to conventional wisdom about economic gender and religious behavior it will be important reading for a wide audience in anthropology women's studies economics and religion For all students of Latin America it offers thoughtful new perspectives on a major grass roots agent of social change
