Source Readings In Music History The Renaissance Renaissance Era:

Music History During the Renaissance Period, 1520-1550 Blanche M. Gangwere, 2004-10-30 This annotated chronology of western music is the third in a series of outlines on the history of music in western civilization. It contains a 120 page annotated bibliography followed by a detailed documented outline that is divided into ten chapters. Each chapter is written in chronological order with every line being documented by means of abbreviations that refer to the annotated bibliography. There are short biographies of the theorists and detailed discussions of their works. The information on music is organized by classes of music rather than by composer. Also included are lists of manuscripts with descriptions of their contents and notations as to where they may be found. The material for the outline has been taken from primary and secondary sources along with articles from periodicals. Like the other two volumes in this series, *Music History from the Late Roman through the Gothic Periods* 313-1425 and *Music History During the Renaissance Period* 1425-1520, this volume will be an important research tool for anyone interested in music history. Source Readings in Music History William Oliver Strunk, 1998 The definitive collection of great writings on music from ancient Greece through the twentieth century. **The Renaissance** John Robert Brown, 1999-07 A representative selection of the great writings on music from the Renaissance which marked the first stirrings of modern concepts among musicians. Chapters 1 Musical Theorists of the Renaissance: Joannes Tinctoris, Bartolomeo Ramos, Pietro Aron, Gioseffo Zarlino, Pietro Cerone, and Thomas Morley; 2 Music in Renaissance Life and Thought: Baldassare Castiglione, Pierre de Ronsard, Giovanni de Bardi, G. P. da Palestrina, Orlando di Lasso, William Byrd, and Henry Peacham; and 3 Reformation and Counter Reformation: Martin Luther, Johann Walther, Jean Calvin, Claude Goudimel, Jacob de Kerle, and Pope Gregory XIII. *Remembering Oliver Strunk, Teacher and Scholar* William Oliver Strunk, 2005 This volume celebrates the life and work of William Oliver Strunk, 1901-1980, professor of musicology at Princeton University, eminent scholar and author, and beloved teacher. It presents the papers from a conference held on January 18-19, 2002, at the American Academy in Rome and the Badia Greca of Grottaferrata. Some of these have been expanded for publication, and one additional contribution has been included. Source Readings in Music History: The Renaissance William Oliver Strunk, 1998 The Renaissance era saw a significant ferment under the banners of humanism, discovery, and reform, deeply affecting music and the way it was understood. **The Cambridge History of Seventeenth-Century Music** Tim Carter, John Butt, 2005-12-22 The Cambridge History of Seventeenth-Century Music seeks to provide the most up-to-date knowledge on seventeenth-century music together with a vital questioning of the way in which such a history can be told or put together for our present purposes. Written by a distinguished team of experts in the field, the chapters not only address traditional areas of knowledge such as opera and church music but also look at the way this extremely diverse and dynamic musical world has been categorised in the past and how its products are viewed from various cultural points of view. While this history does not depart entirely from the traditional study of musical works and their

composers there is a strong emphasis on the institutions cultures and politics of the age together with an interrogation of the ways in which music related to contemporary arts sciences and beliefs *Music Library and Research Skills* Jane Gottlieb,2017 Concise and engaging this text covers a wide range of reference sources for research in all genres of music Through this practical introduction to the key concepts of music research students will develop a firm understanding of the tools used to gather data including what types of sources exist how they are arranged and how they may best be used to do research **Out of Time** Julian Johnson,2015 Out of Time explores a bold idea that western art music of the last four hundred years is better understood through the idea of musical modernity than by the usual periodizations of music history Reading against the grain of linear history it reconsiders the common concerns of music in terms of time and history space and technology language and sound The result is a rehearing of modernity and a rethinking of modern music World Musics in Context Peter Fletcher,2004 This volume contains a wide ranging survey of musics of the world in historical and social contexts from ancient times to the present day It begins by describing aspects of musical style and function in relation to the early developments of civilizations as background to a study of later transformations It then describes in some detail musical traditions of Africa and Asia in relation to history geography and to other aspects of culture A compendium of information currently available as well as a dialectical examination of musical causation and function this book aims to lead students teachers and those who practice Western music towards a deeper understanding of the various musical traditions that contribute to the modern multicultural environment Publisher s description **Research Materials in Music** Phillip R. Rehfeldt,1990-01-01 This text was developed for use in a standard college level introduction to graduate studies course in musicology that I taught for thirty three years at the University of Redlands
