Sources of Chinese Tradition William Theodore De Bary, 1999 Chronologically presents Chinese civilization covering antiquity figures such as Confucius Mencius and Laozi the Han dynasty including readings from the I Ching the development of Buddhism including Daoism and Mahayana Buddhism Neo Confucianism and thought in late imperial China *Sources of Chinese Tradition* Wm. Theodore De Bary, Richard Lufrano, 2001-04-18 For four decades *Sources of Chinese Tradition* has served to introduce Western readers to Chinese civilization as it has been seen through basic writings and historical documents of the Chinese themselves Now in its second edition revised and extended through Deng Xiaoping and Jiang Zemin era China this classic volume remains unrivaled for its wide selection of source readings on history society and thought in the world's largest nation Award winning China scholar Wm Theodore de Bary who edited the first edition in 1960 and his coeditor Richard Lufrano have revised and updated the second volume of *Sources* to reflect the interactions of ideas institutions and historical events from the seventeenth century up to the present day Beginning with Qing civilization and continuing to contemporary times volume II brings together key source texts from more than three centuries of Chinese history with opening essays by noted China authorities providing context for readers not familiar with the period in question Here are just a few of the topics covered in this second volume of *Sources of Chinese Tradition* Early Sino Western contacts in the seventeenth century Four centuries of Chinese reflections on differences between Eastern and Western civilizations Nineteenth and twentieth century reform movements with treatises on women's rights modern science and literary reform Controversies over the place of Confucianism in modern Chinese society The nationalist revolution including readings from Sun Yat sen and Chiang Kai shek The communist revolution with central writings by Mao Zedong Works from contemporary China featuring political essays from Deng Xiaoping and dissidents including Wei Jingsheng With more than two hundred selections in lucid readable translation by today's most renowned experts on Chinese language and civilization *Sources of Chinese Tradition* will continue to be recognized as the standard for source readings on Chinese civilization an indispensable learning tool for scholars and students of Asian civilizations **Neo-Confucian Self-Cultivation** Barry C.

Keenan, 2011-05-02 Approximately fifteen hundred years after Confucius his ideas reasserted themselves in the formulation of a sophisticated program of personal self cultivation Neo Confucians argued that humans are endowed with empathy and goodness at birth an assumption now confirmed by evolutionary biologists By following the Great Learning eight steps in the process of personal development Neo Confucians showed how this innate endowment could provide the foundation for living morally Neo Confucian students did not follow a single manual elaborating each step of the Great Learning instead they were exposed to age appropriate texts commentaries and anthologies of Neo Confucian thinkers which gradually made clear the sequential process of personal development and its connection to social order Neo Confucian Self Cultivation opens up in accessible prose the content of the eight step process for today's reader as it examines the source of mainstream Neo

Confucian self cultivation and its major crosscurrents from 1000 to 1900 *Sources of Japanese Tradition: From earliest times to 1600* William Theodore De Bary, 2001 Now greatly expanded to include the entire twentieth century and beginning in 1600 *Sources of Japanese Tradition* presents writings by modern Japan's most important philosophers religious figures writers and political leaders The volume offers extensive introductory essays and commentary to assist in understanding the documents historical settings and significance This expanded edition has revised many of the texts from the original edition and added a great many not included or translated before New additions include documents on the postwar era the importance of education in the process of modernization and women's issues **Intelligence in Context** Robert J. Sternberg, David D. Preiss, 2022-11-19 This book reflects on the various ways in which intelligence can manifest itself in the wide range of diverse contexts in which people live Intelligence is often viewed as being tantamount to a score or set of scores on a decontextualized standardized intelligence test But intelligence always acts within a sociocultural context Indeed early theorists defined intelligence in terms of adaptation to the environment in which one lives The tradition of decontextualization is old dating back to the very beginning of the 20th century with the development of the Binet Simon Intelligence Scales This tradition is not only old however but obsolete Because people live in different sociocultural as well as physical environments intelligence can take somewhat different forms in different places and even at different times The chapters in this edited volume show that intelligence viewed in the abstract is a somewhat vacuous concept it needs to be contextualized in terms of people's physical and sociocultural surroundings **An Introduction to Chinese Philosophy** Karyn Lai, 2017-03-30 This second edition of *An Introduction to Chinese Philosophy* presents a comprehensive introduction to key ideas and arguments in early Chinese philosophy Written in clear accessible language it explores philosophical traditions including Confucianism Daoism Mohism Legalism and Chinese Buddhism and how they have shaped Chinese thought Drawing on the key classical texts as well as up to date scholarship the discussions range across ethics metaphysics and epistemology while also bringing out distinctive elements in Chinese philosophy that fall between the gaps in these disciplinary divisions hence challenging some prevailing assumptions of Western philosophy Topics include human nature selfhood and agency emotions and behaviour the place of language in the world knowledge and action and social and political responsibility This second edition incorporates new ideas and approaches from some recently excavated texts that change the landscape of Chinese intellectual history **Fields of Blood** Karen Armstrong, 2014-10-28 A sweeping exploration of religion and the history of human violence from the New York Times bestselling author of *The History of God* Elegant and powerful Both erudite and accurate dazzling in its breadth of knowledge and historical detail *The Washington Post* In these times of rising geopolitical chaos the need for mutual understanding between cultures has never been more urgent Religious differences are seen as fuel for violence and warfare In these pages one of our greatest writers on religion Karen Armstrong amasses a sweeping history of humankind to explore the perceived connection between war and the world's great creeds and

to issue a passionate defense of the peaceful nature of faith With unprecedented scope Armstrong looks at the whole history of each tradition not only Christianity and Islam but also Buddhism Hinduism Confucianism Daoism and Judaism Religions in their earliest days endowed every aspect of life with meaning and warfare became bound up with observances of the sacred Modernity has ushered in an epoch of spectacular violence although as Armstrong shows little of it can be ascribed directly to religion Nevertheless she shows us how and in what measure religions came to absorb modern belligerence and what hope there might be for peace among believers of different faiths in our time *The Great Transformation* Karen

Armstrong,2009-02-24 From one of the world s leading writers on religion and the highly acclaimed author of the bestselling *A History of God* *The Battle for God* and *The Spiral Staircase* comes a major new work a chronicle of one of the most important intellectual revolutions in world history and its relevance to our own time In one astonishing short period the ninth century BCE the peoples of four distinct regions of the civilized world created the religious and philosophical traditions that have continued to nourish humanity into the present day Confucianism and Daoism in China Hinduism and Buddhism in India monotheism in Israel and philosophical rationalism in Greece Historians call this the Axial Age because of its central importance to humanity s spiritual development Now Karen Armstrong traces the rise and development of this transformative moment in history examining the brilliant contributions to these traditions made by such figures as the Buddha Socrates Confucius and Ezekiel Armstrong makes clear that despite some differences of emphasis there was remarkable consensus among these religions and philosophies each insisted on the primacy of compassion over hatred and violence She illuminates what this family resemblance reveals about the religious impulse and quest of humankind And she goes beyond spiritual archaeology delving into the ways in which these Axial Age beliefs can present an instructive and thought provoking challenge to the ways we think about and practice religion today A revelation of humankind s early shared imperatives yearnings and inspired solutions as salutary as it is fascinating Excerpt from *The Great Transformation* In our global world we can no longer afford a parochial or exclusive vision We must learn to live and behave as though people in remote parts of the globe were as important as ourselves The sages of the Axial Age did not create their compassionate ethic in idyllic circumstances Each tradition developed in societies like our own that were torn apart by violence and warfare as never before indeed the first catalyst of religious change was usually a visceral rejection of the aggression that the sages witnessed all around them All the great traditions that were created at this time are in agreement about the supreme importance of charity and benevolence and this tells us something important about our humanity *The Sinitic Civilization*
