Sources on the Alans Agustí Alemany, 2000 Sources on the Alans now for the first time gives an exhaustive overview of all reports on the Alans written in Greek Latin Medieval Latin Byzantine Arabic Armenian Catalan Georgian Hebrew Iranian Mongol Russian Syriac and Chinese languages From ancient up to medieval times With an extensive Onomasticon time tables and indices on authors and passages A reference work in the truest sense **Sources on the Alans** Agustí

Alemany, 2021-10-25 The first exhaustive key to the sources to and the proper names of the Alans The scattered nature of sources and their dispersion in time space and intermediary languages may explain the lack of a true comprehensive guide to this important ancient people a nomadic tribe of Iranian stock living from one end of the Eurasian steppes to the other Documents from ancient up to medieval times regularly make in a wide variety of languages mention of the Alans With his *Sources on the Alans* Agust Alemany now provides us for the first time with a reliable and exhaustive handbook by collecting classifying translating or summarizing all reports on the Alans written in Greek Latin Medieval Latin Byzantine Arabic Armenian Catalan Georgian Hebrew Iranian Mongol Russian Syriac and Chinese languages The volume will also be frequently used as an Onomasticon With time tables and indices on authors and passages A reference work in the truest sense **A History of the Alans in the West** Bernard S. Bachrach, 1973 *The Genesis of the Turks* Osman

Karatay, 2022-01-25 This book suggests a new theory on the origins and Urheimat of the Turks within the context of Central Eurasia and more properly the South Urals by exploring the relations of the Turkic language with the Altaic Uralic and Indo European languages and by referring to historical genetic and archaeological sources The book shows that the elements that started the making of the Turkic ethno linguistic entity were also shared by the regions where the later Hungarians would emerge and that the consolidation of their identity seems to be related to the emergence and rise of the Sintashta culture It argues that the fertile lands and suitable climatic conditions together with the coming of agriculture likely at the end of the 3rd millennium BC allowed them to increase their population **ARCHAEOLOGY - Volume I** Donald L.

Tsetsikhladze, 2001 This volume by members of staff publishes Graeco Roman antiquities from the State Hermitage many of them unearthed during the museum's field projects in Berezan Myrmekion and Nymphaeum There are also reviews and notes on new publications on the Black Sea The book is very well illustrated

The Alans Rolf Hedges, 2025-07-18 The Alans emerged from the vast steppes of Central Asia as one of the most formidable nomadic peoples of antiquity their influence extending far beyond their humble origins to reshape the political landscape of medieval Europe These Iranian speaking warriors first appeared in historical records during the first century CE though their roots stretch back much deeper into the prehistoric migrations that had populated the Eurasian steppes for millennia Understanding the Alan people requires examining not just their documented history but also the broader context of nomadic Iranian cultures that had dominated the grasslands stretching from the Black Sea to Mongolia for over a thousand years before their emergence as a distinct political force The ethnogenesis of the Alans represents a complex process of tribal confederation and cultural synthesis that was typical of steppe societies Archaeological evidence suggests that the peoples who would become known as the Alans were descendants of earlier Scythian and Sarmatian populations who had inhabited the region between the Don and Volga rivers since at least the fourth century BCE These earlier Iranian nomads had already established patterns of pastoral nomadism warrior culture and political organization that would become characteristic features of Alan society The transition from these earlier groups to the historically documented Alans appears to have occurred gradually as tribal confederations formed and reformed in response to population pressures climate changes and interactions with sedentary civilizations

Revisiting the Byzantine Commonwealth, 2025-08-03 Pinning down Byzantium or East Rome is as difficult today as it was for contemporaries during its 1 000 year long existence Dimitri Obolensky sought to characterize its impact on Eastern Europe in his classic *The Byzantine Commonwealth* focusing on the elements of religious doctrine rites and law which ruling elites there took from the emperor acting in tandem with the Constantinopolitan patriarchate Chapters in this volume *Revisiting the Byzantine Commonwealth* address such basic questions as who the Byzantines thought they were and how they managed to maintain their hegemonial stance for so long Other chapters reappraise the uses of Byzantium to elites and also to other sectors of societies from the Upper Adriatic to the Volga Surveys are offered of three spheres which functioned independently of and in one case expressly in antithesis to Byzantium yet which overlapped and were constantly interacting with it the Latin west the Islamic Christian east and the world of the steppes Candidates for Commonwealth membership can be found within these

spheres too along with transregional networks which functioned regardless of political borders Aspects of Byzantium appealed to the variegated societies and cultures around it in very different ways with the imperial elite taking keen interest in neighbouring peoples and making the most of Soft Power as material resources dwindled from the thirteenth century on Some periods of outsiders engagement with the empire were short lived but others proved long lasting underpinned by ecclesiastical institutions and monastic networks The volume aims to foster a more rounded approach to the phenomenon of Byzantium and a better understanding of how and why it impinges on so many Eurasian cultures and polities to this day

Journal of Medieval Military History Clifford J.
