The Bressonians Codruța Morari, 2017-07-01

How should we understand film authorship in an era when the idea of the solitary and sovereign auteur has come under attack with critics proclaiming the death of the author and the end of cinema? *The Bressonians* provides an answer in the form of a strikingly original study of Bresson and his influence on the work of filmmakers Jean Eustache and Maurice Pialat. Extending the discourse of authorship beyond the idea of a singular visionary, it explores how the imperatives of excellence function within cinema's pluralistic community. Bresson's example offered both an artistic legacy and a creative burden within which filmmakers reckoned in different, often arduous and altogether compelling ways. **Maurice Pialat** Marja

Warehime, 2013-07-19 One of the most gifted directors of the post New Wave, Maurice Pialat is frequently compared to such legendary filmmakers as Jean Renoir and Robert Bresson. A quintessentially realist filmmaker who like Bresson was also trained as a painter, Pialat's particular form of realism influenced an entire generation of young filmmakers in the 1990s. This volume is the first book-length study of Pialat's cinema in English. It provides an introduction to a complex and difficult director who saw himself as a marginal and marginalised filmmaker but whose films are deeply rooted in French society and culture. Pialat was long considered the only major filmmaker to portray *la France profonde*, the heart of France, the people who, as he put it, take the subway. Taken as a whole, Pialat's work can be seen both as an oblique autobiography and the portrait of a fundamental institution, the family, over several generations. **Jazz Age Catholicism** Stephen

Schloesser, 2005-01-01 Stephen Schloesser's *Jazz Age Catholicism* shows how a postwar generation of Catholics refashioned traditional notions of sacramentalism in modern language and imagery. **Roman Catholicism in Fantastic Film** Regina

Hansen, 2011-08-31 The intersection of religious practice and theatricality has long been a subject of interest to scholars. This collection of twenty-two critical essays addresses the relationship between Roman Catholicism and films of the fantastic, which includes the genres of fantasy, horror, science fiction, and the supernatural. The collection covers a range of North American and European films, from *Dracula* and other vampire movies to *Miracle at Fatima*. The Exorcist Danny Boyle's *Millions*, The Others, Maurice Pialat's *Sous le Soleil de Satan*, the movies of Terry Gilliam, and George Romero's zombie series. Collectively, these essays reveal the durability and thematic versatility of what the authors term the Catholic fantastic.

Bernanos Thomas Molnar, 2017-11-30 Thomas Molnar's *Bernanos* is an illuminating study of the personal evolution of the French Catholic novelist Georges Bernanos from a reactionary royalist to a religiously principled anti-fascist. It also provides a detailed account of the intellectual divisions within the French Catholic Right and suggests a number of parallels with intellectual and literary figures on the secular and religious left, including Zola, Peguy, and Simone Weil. But as Molnar points out, the significance of Bernanos is not exhausted by his writings. Bernanos the man is as deserving of attention as is

Bernanos the novelist essayist and social critic Molnar shows Bernanos against the troubled political religious background of modern France the Dreyfus case the disillusionment following World War I the Franco regime Vichy and the beginnings of the cold war Whatever touched France touched Bernanos and he flung himself into each crisis not armed with a political system nor an academically sanctioned philosophy but with a peasant's respect for what is and a Christian's sense of what might be The portrait that Molnar draws is that of a passionately concerned Christian who knows that truth is hard to come by but who is ready to follow it wherever it leads regardless of the consequences A crucial theme covered by Molnar is Bernanos long and conflicted relations with Charles Maurras and the Action Francaise He makes clear the extent to which Bernanos fervent Catholicism set him apart from Maurras whose positivistic inspiration and passion for order helped lay the groundwork for the political collapse that led to the Vichy regime Thomas Molnar's book is a fascinating account of Georges Bernanos stature as both a political thinker and an important novelist Bernanos will be enjoyed by historians political scientists philosophers theologians and scholars of literature *The Living Age* ,1926 **Georges Bernanos** Michael R. Tobin,2007-10-17 Michael Tobin's study is part literary criticism part biography Tobin follows Bernanos and his family from France to Spain during the Civil War and then to Brazil and North Africa He also provides a thematic synthesis of Bernanos novels and his extensive body of non fiction demonstrating that one fundamental theological truth the Incarnation of God in Jesus Christ was the the unifying factor of Bernanos's entangled political and social criticism and the engine of his creative imagination
