Black Consciousness in South Africa Robert Fatton Jr., 1986-01-15 Black Consciousness in South Africa provides a new perspective on black politics in South Africa It demonstrates and assesses critically the radical character and aspirations of African resistance to white minority rule Robert Fatton analyzes the development and radicalization of South Africa's Black Consciousness Movement from its inception in the late 1960s to its banning in 1977 He rejects the widely accepted interpretation of the Black Consciousness Movement as an exclusively cultural and racial expression of African resistance to racism Instead Fatton argues that over the course of its existence the Movement developed a revolutionary ideology capable of challenging the cultural and political hegemony of apartheid The Black Consciousness Movement came to be a synthesis of class awareness and black cultural assertiveness It represented the ethico political weapon of an oppressed class struggling to reaffirm its humanity through active participation in the demise of a racist and capitalist system

Taking on the World's Repressive Regimes W. Korey, 2007-08-20 A study of the Ford Foundation's support and of funding

of human rights projects and NGOs illuminating its extraordinary role in helping undermine and destroy major world repressive authoritarian and totalitarian regimes during the latter part of the twentieth century

In Search Of Namibian Independence Geisa Maria Rocha, 2019-03-13 Focusing on the Namibian issue and how it has been handled in the United Nations since 1945 this book discusses the limitations of the UN as a political institution and assesses its ability to manage crises and control conflicts The UN was established to help maintain international peace and security since its founding however the independence and sovereignty of member states has come to take precedence over the organization's original goals As a result contends Ms Rocha the UN may be viewed as a passive arena where political actors pursue their policies and priorities in response to the larger realities and forces governing world politics In the case of Namibia the UN simply cannot take significant action in expelling the illegal South African administration without the support of the few powerful members who provide it with resources She concludes that the liberation of Namibia rests ultimately with the Namibian people themselves and the ability of SWAPO to intensify its armed struggle thereby causing South Africa to consider its presence in Namibia more a liability than an asset

The National Liberation Struggle in South Africa Gregory F. Houston, 2019-05-23 First published in 1999 this volume follows the interactions between the United Democratic

Front UDF and the African National Congress ANC and Pan Africanist Congress PAC which had adopted more revolutionary strategies after their banning in 1960 over the period 1983-87. Only a few studies of the UDF have aimed to link revolutionary developments in 1980s South Africa with theories of revolutionary strategy and tactics. This volume focuses on the relation between revolutionary theory/praxis and the formation/aims/policies and practices of the UDF. Houston argues that the formulation of the UDF met certain strategic and tactical requirements of Lenin and Gramsci's theories of revolutionary strategy, repositioning the UDF as becoming a Leninist vanguard party with its affiliate membership operating largely underground. The volume features 6 detailed maps of the Cape Town area, the Republic of South Africa in the 1980s, the Johannesburg area, the Durban area, the Pretoria area, and the Northern Transvaal.

Sisterhood Is Global Robin Morgan, 2016-03-08. A powerful and essential anthology that sheds light on the status of women throughout the world. Hailed by Alice Walker as one of the most important human documents of the century, this collection of groundbreaking essays examines the global status of women's experiences from oppression to persecution. Originally published in 1984, the compilation features pieces written by a diverse set of powerful women: journalists, politicians, grassroots activists, and scholars from seventy countries. Author Robin Morgan, a champion of women's rights, herself expertly weaves these inspiring essays into one comprehensive feminist text. These compelling herstories contain thoroughly researched statistics on the status of women throughout the world. Each chapter focuses on a different country and includes data on education, government, marriage, motherhood, prostitution, rape, sexual harassment, and sexual preference. *Sisterhood Is Global* transcends political systems and geographical boundaries to unite women and their experiences in a way that remains unequalled even decades after its first publication.
