Slacker Girl Alexandra Koslow,2007 A charming unambitious leisure loving young woman Jane Cooper is an anomaly in workaholic New York City until her cute boss Ray puts his own job on the line to keep her from being fired and she discovers that her commitment to slacking is causing real problems forcing her to come up with a plan to save her job her company her friendship and her heart A first novel Original The Miami Expert Robert Macala , Miami exhausts you with an embarrassment of too much love Its native culture is a cosmopolitan mix a home of world languages its music and melodies have a global rhythm and beat its kitchen aromas invite you to savor the cuisines of the globe If you live here you don t need a passport Why travel The world has found a home in the streets of Miami The Miami Expert is a love story set in the Age of Woke in a Century of conflict and crisis A love story reminding the reader that love is a sparkling diamond with its multiple facets celebrating the deeper meaning of that simple but amazing four letter word LOVE Miami is so much more than beaches bikinis and boating the one dimensional public relations clich version of the Sunshine state Sure the weather is idyllic but what about the daily fascination of watching the growth and progress of dynamic urban Miami America is dynamic not static and Miami has become American s 21st century role model Every day more and more American citizens from the North and Western states settle in Miami Joining the waves of new American s easily assimilating using their own language welcoming them to find their place in the greater American society America culture is evolving and you can witness its evolution in the Miami streets and beaches How all these social changes will affect the rest of America are the challenges that America will face in the future The Miami Expert witnesses this challenge in a city easy to love because the future of America is right here in the Sunshine State *Expect No help: the life and times of Jumpin` Jack Flash* Cesspool Jones,2013-05-21 Expect No Help is a non fiction novel that depicts America from the 1960 s up to now through the eyes of someone who was there and still is sometimes It shows most anyone who reads this how to grow up author s point of view even coming up in the 60 s and 70 s Much change happened from then till now with the word change now reduced to a 4 letter word along with the word power This novel is all about the future of this country at the grass roots level That means old school America ain t goin anywhere soon if at all However this novel looks at new school America with only slight skepticism only for the fact change makes the world go round Without change the world turns stagnant However once again

What do you want to change into This novel does a pretty good job in trying to decipher that question leaving no stone unturned with an open minded and also a one sided opinion That is not easy to do There is absolutely no political correctness what so ever in this novel and could be considered toxic to people with narrow minded beliefs This novel don t care but with tact It is written somewhat off of the streets in a language that anyone from a stoner to a P H D can understand The very first part of the book vaguely states what the novel is all about and if that s gunna be a rough ride for you wear a helmet while reading it or find something else to do
