Tracing China Helen F. Siu, 2016-08-01 Tracing China s journey began from exploring rural revolution and reconstitutions of community in South China Spanning decades of rural urban divide it finally uncovers China s global reach and Hong Kong s cross border dynamics Helen Siu traverses physical and cultural landscapes to examine political tumults transforming into everyday lives and fathom the depths of human drama amid China s frenetic momentum toward modernity Highlighting complicity Siu portrays how villagers urbanites cadres entrepreneurs and intellectuals laden with historical baggage venture forward But have they victimized themselves in the process This essay collection informed by critical social theories and shaped by

careful scrutiny of fieldwork and archival texts is woven by key historical anthropological themes culture history power place making and identity formation Siu stresses process and contingency and argues that culture and society are constructed through human actions with nuanced meanings moral imagination and contested interests Challenging the notion that social political changes are mere linear historical progressions she traces layers of the past in present realities Helen Siu is one of the world's leading specialists on Chinese rural and urban society Her essays collected here cover a wide range of topics of interest to anthropologists sociologists geographers economists and political scientists Siu focuses on the underside of social life in South China a quality so often missing in the work of others She writes with great skill and empathy James L Watson Fairbank Professor of Chinese Society and Professor of Anthropology Emeritus Harvard University No one has woven the threads of ethnography social structure and cultural performance so brilliantly together as Helen Siu has in *Tracing China* This rich tapestry of her finest scholarship illuminates how culture power and history can be deployed to yield wholly original and convincing understandings of southern China James C Scott Sterling Professor of Political Science and Anthropology Yale University **Ling-Nam; or, Interior views of southern China, including explorations in ...
