Southeast Asia In The 1990s Authoritarianism Democracy And Capitalism:

Democracy and Authoritarianism in Indonesia and Malaysia S. Alatas,1997-10-29 The fact that the Malaysian state has managed to maintain a relatively democratic regime while an authoritarian regime came to power in Indonesia has never been the focus of historical and comparative analyses despite certain cultural social and historical affinities between these two countries This book takes a look at contrasting class structures and alliances elite cohesion state strength as well as differences in political challenges to the state in order to understand two different paths to post colonial state formation

Globalization and Democratization in Asia Kristina Jonsson,Catarina Kinnvall,2003-09-02 Globalization is a defining feature of our times covering everything from economic and political issues to the spread of American culture Its status is controversial however with some viewing it as leading to greater development for all while others see it as a threat to national cultures and democratic political life This book shows how simplified such binary views are and examines how various globalizing forces have affected Asian societies It discusses the relationship between globalization identity and democratic developments in Asia both theoretically and empirically and aims to understand how economic political and social forces interact and are mutually reinforced in Asian societies

Politics in Southeast Asia William Case,2013-09-13 This volume provides an introduction to the politics of the five key southeast Asian states Malaysia Singapore Indonesia Thailand and the Philippines and is intended as a textbook for undergraduate and graduate students taking courses on this subject Using a comparative politics and political economy perspective the author focuses in particular on the degree of democracy in the five countries arguing that in all the countries considered democracy is to varying degrees imperfect The book synthesises a wide range of scholarship and presents the material in a concise and accessible way

The Politics of Environment in Southeast Asia Philip Hirsch,Carol Warren,2002-01-31 The environment in Southeast Asia is now a major issue of topical concern First book to give analysis in depth of the political processes involved in environmental disputes Provides a good selection of case studies in the region Questions the assumption that the middle classes are in the vanguard of the environmental movement

Transparency and Authoritarian Rule in Southeast Asia Garry Rodan,2004-08-02 In Transparency and Authoritarian Rule in Southeast Asia Rodan rejects the notion that the 1997 98 Asian economic crisis was further evidence that ultimately capitalism can only develop within liberal social and political institutions and that new technology necessarily undermines authoritarian control Instead Rodan argues that in Singapore and Malaysia external pressures for transparency reform were and are in many respects being met without serious compromise to authoritarian rule or the sanctioning of media freedom

Southeast Asia in the 1990s Kevin Hewison,Richard Robison,Garry Rodan,1993 A book of original studies which suggests the different political outcomes which flow from industrialisation and economic development It evaluates the various academic approaches to these questions and then turns to a series of case studies of Southeast Asian countries

Consolidating the Third Wave Democracies Larry Diamond,1997-08-13 An in depth analysis of

the struggle to consolidate new and fragile democracies available two paperback volumes for course use The global trend that Samuel P Huntington has dubbed the third wave of democratization has seen more than 60 countries experience democratic transitions since 1974 While these countries have succeeded in bringing down authoritarian regimes and replacing them with freely elected governments few of them can as yet be considered stable democracies Most remain engaged in the struggle to consolidate their new and fragile democratic institutions Consolidating the Third Wave Democracies provides an in depth analysis of the challenges that they face Consolidating the Third Wave Democracies is available in two paperback volumes each introduced by the editors and organized for convenient course use The first paperback volume Themes and Perspectives addresses issues of institutional design civil military relations civil society and economic development It brings together some of the world s foremost scholars of democratization including Robert A Dahl Samuel P Huntington Juan J Linz Guillermo O Donnell Adam Przeworski Philippe C Schmitter and Alfred Stepan The second paperback volume Regional Challenges focuses on developments in Southern Europe Latin America Russia and East Asia particularly Taiwan and China It contains essays by leading regional experts including Yun han Chu P Nikiforos Diamandouros Thomas B Gold Michael McFaul Andrew J Nathan and Hung mao Tien

Southeast Asia Jonathan Rigg,1997 Drawing on case studies from across Southeast Asia this work assesses poverty and the ways in which the poor are identified and viewed Progress and change in the rural and urban worlds are examined in detail focusing on the strengthening rural urban interaction as farmers make a living in the urban industrial sector and factories relocate into industrial areas Giving prominence to indigenous notions of development based on Buddhism Islam and the so called Asian Way the author critically assesses the conceptual foundations of the development ideas of post developmentalism and the miracle thesis

Pacific Asia Yumei Zhang,2003-09-02 Pacific Asia has witnessed arguably the most dynamic economic growth and social transformation in the world since 1945 Exploring this extraordinary pace of development this book explains the various factors that lie behind it

Crossing Borders in the Asia-Pacific James Cotton,2002 The impact across borders of transnational identities business links and ideas has been on the international political agenda for a long time These cross border phenomena have a steady and profound influence on domestic politics and international relations However they also represent a challenge because these factors can subvert accustomed views of sovereignty The essays in this book stress the diversity and influence as well as the limitations of cross border phenomena in the Asia Pacific a region home to the principles of non interference and respect for autonomy Emerging from this collection is a picture of an area dynamically affected by the penetration of ideas organised interests and financial flows Though national borders have become more porous state power and local identities still resist shape and modify cross border influences
