Education in the South Pacific Richard Guy,Toshio Kosuge,Rieko Hayakawa,2000 Culture and History in the Pacific

Jukka Siikala,2021-09-29 Culture and History in the Pacific is a collection of essays originally published in 1990 The texts explore from different perspectives the question of culture as a repository of historical information They also address broader questions of anthropological writing at the time such as the relationship between anthropologists representations and local conceptions This republication aims to make the book accessible to a wider audience and in the region it discusses Oceania A new introductory essay has been included to contextualize the volume in relation to its historical setting the end of the Cold War era and to the present study of the Pacific and indigenous scholarship The authors of Culture and History in the Pacific include prominent anthropologists of the Pacific some of whom Roger Keesing and Marilyn Strathern to name but two have also been influential in the anthropology of the late 20th and early 21st century in general South Pacific Agricultural

Toxicology George W. Ware,2012-12-06 International concern in scientific industrial and governmental communities over traces of xenobiotics in foods and in both abiotic and biotic environments has justified the present triumvirate of specialized publications in this field comprehensive reviews rapidly published research papers and progress reports and archival documentations These three international publications are integrated and scheduled to provide the coherency essential for nonduplicative and current progress in a field as dynamic and complex as environmental contamination and toxicology This series is reserved exclusively for the diversified literature on toxic chemicals in our food our feeds our homes recreational and working surroundings our domestic animals our wildlife and ourselves Tremendous efforts worldwide have been mobilized to evaluate the nature presence magnitude fate and toxicology of the chemicals loosed upon the earth Among the sequelae of this broad new emphasis is an undeniable need for an articulated set of authoritative publications where one can find the latest important world literature produced by these emerging areas of science together with documentation of pertinent ancillary legislation Research directors and legislative or administrative advisers do not have the time to scan the escalating number of technical publications that may contain articles important to current responsibility Rather these individuals need the background provided by detailed reviews and the assurance that the latest information is made available to them all with minimal literature searching **Current Catalog** National Library of Medicine (U.S.),1980

Includes subject section name section and 1968 1970 technical reports **Australia's Foreign Aid Dilemma** Jack Corbett,2017-03-16 The Australian aid program faces a fundamental dilemma how in the absence of deep popular support should it generate the political legitimacy required to safeguard its budget and administering institution Australia's Foreign Aid Dilemma tells the story of the actors who have grappled with this question over 40 years It draws on extensive interviews

and archival material to uncover how court politics shapes both aid policy and administration The lesson for scholars and practitioners is that any holistic understanding of the development enterprise must account for the complex relationship between the aid program of individual governments and the domestic political and bureaucratic contexts in which it is embedded If the way funding is administered shapes development outcomes then understanding the court politics of aid matters This comprehensive text will be of considerable interest to scholars and students of politics and foreign policy as well as development professionals in Australia and across the world **Plant Breeding Reviews, Volume 2** Jules

Janick,2011-01-11 Plant Breeding Reviews is an ongoing series presenting state of the art review articles on research in plant genetics especially the breeding of commercially important crops Articles perform the valuable function of collecting comparing and contrasting the primary journal literature in order to form an overview of the topic This detailed analysis bridges the gap between the specialized researcher and the broader community of plant scientists **Infant Care and**
