Profits Thomas Prentice Kettell,2017-09-13 Excerpt from Southern Wealth and Northern Profits As Exhibited in Statistical Facts and Figures Showing the Necessity of Union to the Future Prosperity and Welfare of the Republic We have endeavored in the following pages to trace the gradual development of this great wealth to show its sources the course of the resulting trade and the great profits derived from sectional intercourse harmony and dependence The mutual benefit will be found to be large and that on the other hand the disasters of disunion would be only the more terrible for the greatness of former success In the midst of this prosperity a wanton attack by political and clerical agitators is made upon sister States a new

idea of morality is conjured up as a means of stirring up domestic strife and wantonly destroying the source of all this material good. Historians record with surprise the amazing folly of George the Third and his ministers who drove the colonies into rebellion for a system. But they wanted revenue. What will the future historian say of the North which destroyed its source of profit for a more trivial pretence? The monkey that persisted in sawing off the limb between himself and the tree seems to be the model of modern sagacity. We are told that there is no intention of destroying the institutions of the States that the design is only to exclude the institution from territory where it would have been long since had nature permitted. There is here then nothing practical, a mere pretence of agitating the popular mind and engendering animosities for the mere sake of those animosities. The national prosperity, the domestic peace, the safety of life and property, the very existence of the nation are jeopardized for an idea admitted by the agitators to be fruitless. The agitation has at the North no one practical application, whatever while at the South it has in the background servile insurrection, blood shed and annihilation of person and property involving ultimately the ruin of the North.
