Southernwestern Europe:

Southern Europe? Martin Baumeister, Roberto Sala, 2015-10-08 According to mainstream discourse of the Cold War post 1945 Western Europe was essentially a homogeneous historical space fully integrated into modern industrial society But as Southern Europe makes clear Western European societies were in fact divided by deep political and economic inequalities While nations in the north embodied consolidated democracies Spain Portugal and Greece were at times all authoritarian regimes Deeply afflicted with underdevelopment these countries were cut off from the economic miracles other Western European states were experiencing With its weak democracy Italy held a contradictory position between the struggles of the Iberian and Greek peninsulas and the progress of its neighbors beyond the Alps Now old inequalities long believed to be things of the past have resurfaced and a new debt crisis appears to be splitting the continent apart along historic lines This book raises the important question of whether studying the geopolitics and social history of southern Europe might be a valuable analytical tool for understanding these contemporary financial catastrophes

Southern Europe? Martin Baumeister, Roberto Sala, 2015-10-08 Gegenwärtig erlebt der Süden Europas in der öffentlichen Debatte eine neue Konjunktur Mit Vorliebe wird dabei ein europäischer Nord-Süd-Gegensatz heraufbeschworen ohne jedoch auf seine lange Geschichte zu blicken Wirtschaftlich und politisch unterentwickelt unterschieden sich Italien Spanien Portugal und Griechenland nach dem Zweiten Weltkrieg von den sogenannten westeuropäischen Gesellschaften Zu Beginn des 21. Jahrhunderts schien diese Ungleichheit überwunden Nun droht die Schuldenkrise den Kontinent erneut zu spalten Die Beiträge hinterfragen gängige Annahmen und Bilder von Südeuropa und ergründen inwiefern der Süden einen homogenen Raum mit strukturellen Gemeinsamkeiten darstellt

Western Europe Hugh Clout, Mark (Reader in Geography, University of Exeter) Blacksell, Russell (Professor of Geography, University of Sussex) King, David (Professor of Economic Geography, University of Plymouth) Pinder, 2014-09-19 Western Europe provides a balanced appraisal of common characteristics and shared problems of the eighteen states lying to the west of the former Iron Curtain

Economic Crisis and Austerity in Southern Europe Maria Petmesidou, Ana Marta Guillén, 2017-10-02 Southern Europe has been hit hard by the global economic crisis and as such their welfare states have come under acute strain Unmet need has sharply increased while significant welfare reforms and deep social spending cuts have been prominent in the crisis management solutions implemented by governments labouring under EU constraints and the strict rescue deal requirements for Greece and Portugal This volume provides a systematic comparative appraisal of welfare state reform trajectories across Southern Europe prior to and during the crisis and traces the impact of austerity policies and wider recession upon income inequality and poverty It brings together a number of cross country studies on major social policy areas raising crucial questions What policy choices are driving reforms as Southern European economies

work their way out of fiscal difficulty Can the crisis provoke the improvement of institutional capabilities and recalibration of social Or instead does structural adjustment indicate a significant policy turn towards the erosion of social rights The contributions critically approach these issues and bring evidence to bear upon whether Southern European welfare capitalisms are becoming more dissimilar This book was originally published as a special issue of South European Society Politics

Blackness in Western Europe Dienke Hondius,2017-09-29 While the study of race relations in the United States continues to inspire and influence European thinking Europeans have yet to confront their own history To be black in Europe whether during the sixteenth century or today means sharing one crucial experience being part of a small but visible minority European slave owners company directors and investors in the distant past maintained an ocean wide gap between themselves and the enslaved in the plantation colonies of the Caribbean In the following centuries this distance persisted Even today to be black

in Europe often means to be one of a few black persons in a group A racial pattern of exclusion has characterized European policy for more than four centuries Dienne Hondius identifies ideas and attitudes toward blackness the concept of race as visible difference developed in western Europe She argues that racial discourses are generally dominated by paternalism a concept usually used to explain power structures that is often applied to the nineteenth century Hondius identifies five patterns of paternalism that influenced Europe much earlier and initiated trends of imagery and perception Taking a chronological and thematic approach Hondius first focuses on southern European societies in the Early Modern period and moves to northwest European societies in the Modern period Addressing religion law and science she concludes with a synthesis of developments from the twentieth century to the present The Rise of the Left in Southern Europe Sotiris Rizas,2015-10-06 This study looks at the influence of the Anglo American special relationship on the rise of the left in southern Europe and concurrent European influence on the Atlantic alliance **The Politics of Southern Europe** José Magone,2003-02-28 European integration has had a profound impact on the politics of Southern Europe a region that was initially at the margin of the decision making processes of the European Union but is gradually becoming more and more influential This volume offers a comparative overview of modern politics in Spain Portugal Italy and Greece focusing in particular on the process of integration of these countries into the European Union and on the impact of European public policy The author analyzes the development of Southern European political systems from the establishment of democratic governments to the most recent political events looking at each individual system and finding patterns similarities of development as well as differences between them Among the topics examined are the building of institutions the parties and party systems foreign policies the political culture of each country and the recent efforts towards the creation of a space of security and peace in the Mediterranean
