Soviet Communism: Programs and Rules Kommunisticheskai[a] partii[a] Sovetskogo Soi[u]za,1962 **Soviet Constitutional Crisis** Robert Sharlet,2016-06-16 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms Soviet Russia: Strategic Survey United States. Soviet power rests on two main supports the complete economic dependence of the citizens upon the state and the unlimited
political control of the government over the economic social and even cultural life History knows various kinds of despotisms
dictatorships and regimentations of economic activity but the U S S R represents a unique kind of dictatorship based on the
one party system and integral planning with the specific goal of realization of communism Mankind had never before known
such a system Even the best of possible comparisons the analogy with the period of Ptolemies in Egypt is good only in so far
as it concerns the regimentation of all kind of economic activity There was in the past no ideology pretending to be adjusted
to the needs of the toiling masses no planning system on the same scale and no Communist party apparatus As concerns the
modern world the comparative method is necessary for giving the most graphical characterization of the differences between
the Western democracies with their ethical traditions rule of law and the principle of the inviolability of individual rights and
on the other hand the Soviet monolithic state with its unscrupulous policy extremities of regimentations and drastic penalties
