experience after shooting a grouse Carpenter gave up hunting for good Winding through this personal narrative is Carpenter's exploration of the history of hunting subsistence hunting versus hunting for sport trophy hunting and the meaning of the hunt for those who have written about it most eloquently Are wild creatures somehow our property How is the sport hunter different from the hunter who must kill game to survive Is there some sort of bridge that might connect aboriginal hunters to non aboriginal hunters Why do many hunters feel most fully alive when they

After Native Claims? Frank Cassidy, Norman Dale, Institute for Research on Public Policy, 1988 Study of how a resolution of issues that give rise to and result from comprehensive claims by native peoples might affect the economic political and environmental dimensions of natural resources centred activities The natural resource sectors examined are fishery forestry and non renewable resources Native People, Native Lands Bruce Alden Cox, 1988 The changing roles of native women devices for assimilation the re birth of the Metis these are among the issues examined in this collection of provocative essays which explore the link between aboriginal culture and economic patterns *Religion and the Exercise of Public Authority* Benjamin L Berger, Richard Moon, 2016-06-16 In the burgeoning literature on law and religion scholarly attention has tended to focus on broad questions concerning the scope of religious freedom the nature of toleration and the meaning of secularism An under examined issue is how religion figures in the decisions actions and experiences of those charged with performing public duties This point of contact between religion and public authority has generated a range of legal and political controversies around issues such as the wearing of religious symbols by public officials prayer at municipal government meetings religious education and conscientious objection by public servants Authored by scholars from a variety of disciplines the chapters in this volume provide insight into these and other issues Yet the volume also provides an entry point into a deeper examination of the concepts that are often used to organise and manage religious diversity notably state neutrality By examining the exercise of public authority by individuals who are religiously committed or who in the discharge of their public responsibilities must account for those who are this volume exposes the assumptions about legal and political life that underlie the concept of state neutrality and reveals its limits as a governing ideal **Breaking the Ice** Barry

Zellen, 2008-03-20 *Breaking the Ice* is a comparative study of the movement for native land claims and indigenous rights in Alaska and the Western Arctic and the resulting transformation in domestic politics as the indigenous peoples of the North gained an increasingly prominent role in the governance of their homeland. This work is based on field research conducted by the author during his nine year residency in the Western Arctic. Zellen discusses the major conflicts facing Alaskan Natives from the struggle to regain control over their land claims to the Native alienation from the corporate structure and culture and the resulting resurgence in tribalism. He shows that while the forces of modernism and traditionalism continued to clash, these conflicts were mediated by the structures of co-management, corporate development and self-government created by the region's comprehensive land claims settlements. *Breaking the Ice* gives testimony to the achievements of Alaskan Natives through peaceful negotiation and argues that the age of land claims has transmuted this same tribal force into something else altogether in the North: a peaceful force to spawn the emergence of new structures of Aboriginal self-governance. **On**

Thin Ice Barry Scott Zellen, 2009-11-12 *On Thin Ice* explores the relationship between the Inuit and the modern state in the vast but lightly populated North American Arctic. It chronicles the aspiration of the Inuit to participate in the formation and implementation of diplomatic and national security policies across the Arctic region and to contribute to the reconceptualization of Arctic Security including the redefinition of the core values inherent in northern defense policy. With the warming of the Earth's climate, the Arctic rim states have paid increasing attention to the commercial opportunities, strategic challenges and environmental risks of climate change. As the long isolation of the Arctic comes to an end, the Inuit, who are indigenous to the region, are showing tremendous diplomatic and political skills as they continue to work with the more populous states that assert sovereign control over the Arctic in an effort to mutually assert joint sovereignty across the region. Published on the 50th anniversary of Ken Waltz's classic *Man, the State and War*, Zellen's *On Thin Ice* is at once a tribute to Waltz's elucidation of the three levels of analysis as well as an enhancement of his famous Three Images with the addition of a new Fourth Image to describe a tribal level of analysis. This model remains salient in not only the Arctic where modern state sovereignty remains limited but in many other conflict zones where tribal peoples retain many attributes of their indigenous sovereignty. **Canadian Ethnic Studies**, 1977 *Before the Country* Stephanie McKenzie, 2007-11-25 In the late 1960s and early 1970s, Canada witnessed an explosion in the production of literary works by Aboriginal writers, a development that some critics have called the Native Renaissance. In *Before the Country*, Stephanie McKenzie explores the extent to which this growing body of literature influenced non-Native Canadian writers and has been fundamental in shaping our search for a national mythology. In the context of Northrop Frye's theories of myth and in light of the attempts of social critics and early anthropologists to define Canada and Canadian literature, McKenzie discusses the ways in which our decidedly fractured sense of literary nationalism has set indigenous culture apart from the mainstream. She examines anew the aesthetics of Native Literature and in a style that is creative as much as it is scholarly, McKenzie incorporates the principles

of storytelling into the unfolding of her argument This strategy not only enlivens her narrative but also underscores the need for new theoretical strategies in the criticism of Aboriginal literatures Before the Country invites us to engage in one such endeavour
