The Heathens Natural History Library:

The History & Use of Amulets, Charms and Talismans Gary R. Varner, 2008-01-27 Amulets and charms have been used since mankind evolved from its distant origins millions of years ago They have been used to protect and to harm and in both the practice and avoidance of witchcraft and sorcery They are made of wood and stone clay metal plants and dead animals They are carved into crude shapes and in the most exquisite forms They may also be composed entirely of words which are believed to have great power and magical properties Used by pagans Christians Jews and followers of every faith and tradition known across the world they are considered direct links to the gods and local spirits All are links to the supernatural Regardless if they are called amulets charms or talismans these objects are credited with providing cures causing evil and bringing health and prosperity This book using ethnographic studies ancient records and folklore will explore the history and use of amulets and will show that they continue to be an important part of our modern culture
