Howell, Virginia K. brief form Its main concern is to help people everywhere to understand clothing design in relationship to the social forces which constantly mold American life and culture Factors ranging from geography to purpose to technology on to world events and needs govern the type of clothing we need to wear at any given time In our rapidly changing world it is imperative that our people have a sound understanding of American history Educators for some time have recognized the need for broadening the students learning in this field of knowledge Today schools stress the importance of the American heritage Such an approach opens the door for discovery and exploration into many facets of life It makes possible an appreciation for the social and economic forces behind historic facts Too often political and military events are over emphasized while students fail to grasp the significance of social and economic events This book will have served its purpose if the reader can come to recognize the development of American dress as an important part of the American heritage and can in some small degree appreciate its inter relatedness with many social and economic forces which contribute to its fulfillment Frances Howell 1965 *The History of Underclothes* C.
